PROFESSIONAL EXPERIENCE:

2005-2023 CONSULTANT

Providing accident investigation, cause determination and expert witness services for plaintiff and defendant cases involving both construction and general industry. Also provided worksite safety/hazard analysis. Conducted on-site surveys to determine compliance with applicable OSHA standards, compiling reports and recommending abatement methods. Conducted training sessions on a variety of safety and health topics.

1977-2007 INSTRUCTOR, CHIPPEWA VALLEY TECHNICAL COLLEGE

Taught a variety of safety and loss control courses such as OSHA Construction and General Industry Standards and Regulations; Loss Control & Safety, and Safety in the Workplace. Also taught management courses such as: Leadership Development, Personal Skills for Supervisors, Labor Law Relations, Supervision, Human Resource Law, Project Management, etc.

1973-2005 AREA DIRECTOR DISTRICT SUPERVISOR COMPLIANCE ASSISTANCE SPECIALIST SAFETY AND HEALTH COMPLIANCE OFFICER U.S. DEPARTMENT OF LABOR - OSHA

Demonstrated an in-depth knowledge of OSHA standards, procedures and policies and an ability to conduct comprehensive inspections of a complex nature in a wide variety of worksites in Construction and General Industry for the purpose of identifying hazards and apparent violations of OSHA regulations. Personally conducted over 1000 OSHA inspections. Evaluated multi-employer worksites and documented evidence necessary to establish legal responsibility regarding OSHA violations among respective employers. Examined relationships and distinguished between employer/employee and contractor/subcontractor status using legal criteria. Investigated accidents through fact finding and analysis, personal interviews and research to determine accident cause and whether and to what degree OSHA violations contributed to that cause. Prepared case files for legal sufficiency and provided court testimony as a compliance officer as well as an expert witness on behalf of the Department of Labor. Reviewed and evaluated employer programs and records for compliance. Recommended abatement procedures for all apparent violations. Provided information, technical assistance and interpretations of OSHA standards for the public. Trained other Compliance Officers and reviewed their work. Conducted Informal Conferences and negotiated settlement agreements with employers. Provided a variety of speeches, presentations and training for employer and employee groups including topics such as Fall Protection, Trenching and Excavation, Pulp and Paper Mill Safety, Grain Elevator and Feed Mill Safety, etc.
