

Our Firm

The Firm was founded in 1984 by William R. Legier offering management consulting and accounting services to clients in the New Orleans area. Over the years it has grown to become a successful New Orleans-based group of forensic CPAs and business consultants servicing its clients throughout the United States.

The Firm is recognized as a leader in these fields and has been engaged locally, as well as nationally, to provide these services. The Firm's clients range in size from local businesses and individuals to large, multinational, publicly-traded corporations.

The Firm stresses a proactive approach in providing beneficial services that are recognized by our clients as:

- * Of the highest technical and professional quality
- * Delivered in a timely fashion
- * Fair value
- * Associated with firm members exhibiting the highest moral and ethical fiber
- * With excellent "firm member/client" relationships at all levels

All of our directors and many of our staff began their successful careers with international accounting firms or equally impressive credentials, allowing us to offer the technical expertise of a large international firm tempered with more higher level personal involvement while maintaining competitive fees.
