State of Wyoming No. 11134
State of Virginia No. 043612

Cloyce Darnell, Inc. dba **Centerline Consulting** holds Florida Certificate of Authorization No. 0008596, Georgia No. PEF004816, Alabama CA-3010-E, and Virginia Business Entity No. 0407 005088

EXPERIENCE

May 2000 - Present: CLOYCE DARNELL, INC., d.b.a. Centerline Consulting

Mr. Darnell is the owner and President of this licensed engineering corporation. His consulting and expert services are available to contractors, insurance companies, bonding sureties, road and highway agencies, and attorneys on issues regarding road, street, highway, runway, and earthwork; asphalt, concrete, chip seal, and other construction materials; compliance testing; plans, specifications, and contract documents; site investigations; production plants; dispute resolution; claims preparation, analysis, and mediation; cost estimates; acquisition due diligence; permitting; project management, and work zone safety. He performs contract performance forensic investigations and provides consulting, expert reports, rebuttals, and testimony if required. He also prepares Value Engineering Contractor Proposals, claims, and negotiates on behalf of his clients when so requested. He has provided consulting and/or expert services on projects in 23 states since 2000.

March 2000 – November 1999: APAC, Inc. Mr. Darnell served as a VECP, Claims, and Litigation Support Specialist following Ashland, Inc.'s acquisition of Superfos, a Danish company.

November 1999 – July 1990: Couch Construction, L.P. & Okaloosa Asphalt, Inc. Mr. Darnell was a corporate vice-president of Couch and President of the North Florida Division. He was responsible for the well-being of this \$50+MM earthwork and grading, drainage, asphalt paving, milling, surface treatment, concrete paving, and construction business unit in roads, highways, runways, earth-work, private and public projects. He continued his direct involvement in estimating, asphalt mix production facilities, materials, quality, safety, construction, environmental operations, management, and contractual issues involving plans, specifications, designs, and acceptance criteria. He has been responsible for approximately \$600,000,000 in heavy and highway contract procurement, construction, and management, including highways, runways, taxiways, and parking aprons on Federal, State, and Military projects since

1971. He also participated in arbitration, mediation, and litigation involving construction, contract, and land use issues. He served a term as Chair of the Technical Research Committee for Couch's Research and Development Center, leading Couch into the SHRP and Superpave era. He was honored by the National Asphalt Pavement Association with the 1999 Sheldon G. Hayes Award, for the "Best of the Best" large paving project in the United States, for a Superpave project on Interstate 10 in Florida.

July 1990 – October 1971: Okaloosa Asphalt Enterprises, Inc. Mr. Darnell was an owner and Vice-President of engineering/estimating of this highway construction company. He was responsible for all contract bidding, plants, materials, products, asphalt mix production and quality control. Mr. Darnell bid and managed construction projects under Federal Aviation Administration, Air Force, Corps of Engineers, Alabama and Florida Departments of Transportation contract documents and specifications. OAE was acquired by Couch in July of 1990. Projects completed included earthwork, base and paving, milling, surface treatment (chip seal), resurfacing, and earthwork performed on interstates, highways, county and city roads, private roads and subdivisions in Alabama, Florida, and Louisiana.

July 1990 – June 1972: Okaloosa Testing Laboratories, Inc. Mr. Darnell was President, an owner, and the principle engineer of this licensed construction materials engineering and testing firm. The firm performed design and testing of asphaltic concrete, Portland cement concrete, and soils using ASTM, AASHTO, Corps, FAA, and DOT test procedures. Mr. Darnell also served as Resident Engineer (owner's representative) on a Federal Aviation Administration project where he provided the construction inspection and testing for the Okaloosa Regional Airport. The firm also provided forensic and construction soils investigation, engineering, and testing services related to the design, materials, construction, and inspection of roads, streets, highways, and runways.

October 1971 – June 1967: Chevron USA Mr. Darnell worked as a Construction and Design Engineer, and later as the Assistant Chief Engineer for Chevron South in Jacksonville, Florida and Louisville, Kentucky. He managed site selection, permitting, and development of designs for and construction of retail and wholesale facilities, terminals, pipelines, and bulk plants.

PROFESSIONAL ASSOCIATIONS: American Society of Civil Engineers, National Society of Professional Engineers, Florida Engineering Society, American Traffic Safety Services Association

OTHER:

- **ATSSA** "Certified Traffic Control Supervisor" Certification # 00192130
- **Certified by Dispute Resolution Board Foundation** to serve as Chair and Board Member.
- **Winner, Sheldon G. Hayes Award, 1999** "Best of the Best" Quality Pavement Construction, USA (Couch Construction, L.P.) Awarded by the National Asphalt Pavement Association.
- **Winner (1979, 1987, 1993) FDOT "Pat Bolton Award"** for Excellence in Asphalt Paving.
- **Feature Story "Superpave, At Last a Success"** *Roads and Bridges* magazine, March 1998.
- **Cover Story, "Philosophical Asphalt"** *Roads and Bridges* magazine, May 2000.
- **Former Instructor** for Florida D.O.T. Quality Control/Quality Acceptance Training
- **Served on two Florida D.O.T. Contract Dispute Resolution Boards**
