- 01/04 "The Future of Medicine and Medical Education"

Grand Rounds

- 9/96 "Euthanasia: Ultimate Compassion?"

5/97 Faculty development retreat

- Adult learning theory
- Micro-skills for clinical teaching
- Problem oriented record for teaching and evaluation

10/97 Faculty development retreat

- Evaluation and feedback
- Teaching in the ambulatory site

11/98 Faculty development retreat

- Teaching and Using--Evidence Based Medicine

11/99 Faculty Development

- Recruitment and Interviewing Skills

11/00 Faculty Development

- Computer resources for teaching and shared praxis

11/01 Faculty Development

- The adult learner and adult teaching techniques

11/02 Faculty Development

- Feed back and learner analysis.

05/03 Faculty Development

Teaching techniques and academic reinforcement.

10/03 Faculty Development

Recruitment and Applicant Evaluation

Resident Core Medicine Lectures

The Problem Oriented Medical Record for patient care
and Teaching

Health Screening in the Adolescent and Adult

Hypertension Current Diagnosis and Work Up

Hypertension Current Treatment JNC VII

Critical reading:

#1 Basic Study Design and Statistics

#2 Dispersion, Central Tendency and
Risk Ratio Analysis

#3 Literature Reading and Critical Analysis

#4 Advanced critical reading

Teaching and Learning in Internal Medicine

Medical Jurisprudence for the Practitioner

Consultation skills for the Internist

Telephone Medicine: Background and Research

Telephone Medicine: Skills workshop

Alzheimer's Disease: Diagnosis and Treatment

Smoking cessation tactics for primary care

Case conference: Ethical Decision Making in HIV

Falls
Elder abuse
Pharmacology and the elderly
Prevention and preventive health
Men' health issues
Ethical issues in the elderly
Geriatric syndromes- an Evidence Based Analysis
Advanced Directives: From Theory to Evidence
Osteoporosis
Dementia and Alzheimer's disease
Delirium in the elderly
Normal aging: does it exist?
Incontinence
Pressure ulcers
Geriatric assessment
Depression in the elderly
Economic issues in health care
Medical legal issues in health care
Professionalism: Dead or Dying?
Euthanasia and physician assisted suicide
Introduction to clinical ethics and ethical decision making.
Spirituality and health care
Medical error and uncertainty: What is it?
Principles of Evidence Based Medicine
New approaches to hypertension: JNC VII and beyond
Cholesterol treatment: When do the rules stop changing?
Faculty development modules
 Teaching in the ambulatory setting
 Focused teaching: What to do when the phone rings
 General principles of adult learning and medical teaching
The future of Medical Education
The future of staff hospital relations
The difficult patient

Nutrition and weight loss in the elderly

Aging, Loss and Grief

Conflicts of Interest: The Physician and big Pharma

Cognitive error: Improving clinical problem solving

COMEPETENCY MODULES:

Chest radiology

Brain radiology

Abdominal radiology

CBC interpretation

Basic urinalysis

Visual rheumatology

Likelihood ratios and problem solving

Outside the box thinking using cross word puzzles

Professional Fees- William D. Barnhart

Records review, reports, meetings, consultations

\$350/ hr

Deposition Testimony

\$450/ hr

Trial Testimony

\$550/ hr

Travel time will be incorporated into the statement. Travel expenses and accommodations are the responsibility of the retaining party. Travel is “door to door” from Elmhurst, Illinois including any
