**Information About My Work History**

Since 1989 I have worked for Queens Door Manufacturing Inc which is one of the largest commercial and industrial overhead coiling door companies in the industry. My extensive work history has afforded me that opportunity to experience all aspects of the industry including but not limited to the following duties

- Prepare proposals, take off's & shop drawings
- Negotiate with vendors/pricing and customers both national and international
- Update and constantly monitor web site for maximum exposure
- Create and reconfigure vendor/customer database as needed
- Write and distribute all employee & vendor payments
- Re-organized production flow chart from concept to conception
- Directly involved with customer service, handle complaints, trouble shooting and mediate fair settlements
- Calculate torsion spring and band spring systems
- Design all printed safety manuals, installation instructions, advertising and promotional pieces
- Work with international customers to introduce the companies philosophy and products
- I have excellent communication skills which include listening to the customers needs and

**Expert Witness Testimony**
