AMB WARRANTY, INC. (AMB)

BRIEF BIOGRAPHY
CARVETH (CW) WHITFIELD BENNETT, SR.
1930 - 2014

MR. CARVETH BENNETT, SR. the 1965 founder and currently serves as President and CEO of AMB Warranty, Inc. (AMB) Formally Bennett & Associates (BenCo 1965) a proprietary firm in full spectrum of industrial roof consulting engineering services. AMB has full service facilities in Atlanta, Georgia with affiliate firms nationally and providing roof consulting services for prior and current National Roofing Manufacturers such as Owens Corning Fiberglass Corporation, Fabral, MBCI, Kirby, CECO, American Buildings Company along with many other major Manufacturers & Multi facility Building Owners such as Walt Disney World, McGraw Hill Publications, Solutions Properties Group (SPG), Memorial Hermann Medical Group of Houston, TX, Law Firms and U.S. Justice Department with the United States branches of the Military across the United States and off-shore.

CARVETH W. BENNETT, SR. BORN: COOK COUNTY, ILLINOIS - 1930

Mr. Bennett's family from England being career service officer's clear back to the **United Kingdom of Great Britain** in the king's & Queen's service entered the United States early 1800 and migrated west ending in Midwestern section of United States in Hannibal, Missouri. After Mr. Bennett's Father ended a career service in the United States Military he resided in Chicago, Illinois, where Mr. Bennett was born. In later years his father a major player in development of rural electrification & increasing industrial development in America after World War I and later during late depression years moved his family to a farm near Cleveland, Ohio. It was in and around Cleveland that Mr. Carveth Bennett matured and received his formal education at Case Institute of Technology & now Case Western Reserve University and gained hands-on experience in the building construction and industrial roofing fields simultaneously

EDUCATION:

- Bedford Public High School - Bedford Ohio ----- 1948
- Member of Ohio National Guard, Ohio 37th ----- 1949 & 1950
- Industrial roofing apprentice training program - Cleveland Ohio -- 1949 to 1952
- John Hay Early College High School - Cleveland University Circle - 1950 to 1952
- Case Institute of Technology - Cleveland Heights Ohio ----- 1952 to 1955
- Founded in 1881 the Former Case School of Applied Science becoming Case Institute of Technology originally a private research university located in Cleveland Heights, Ohio. Where in 1948 the year Mr. Bennet completed High School the Case School of Applied Science was renamed the Case Institute of Technology. In 1967, the school merged with its neighbor, the Western Reserve University, to form Case Western Reserve University (CWRU). Case U became the first engineering college to offer a program in computer engineering in 1963, and Case Western Reserve University, through its Case School of Engineering, continues to be a strong leader in a number of engineering fields today. Today the university offers programs through individual schools in the study of Arts & Sciences, Dentistry, Engineering, Law, Management, Medicine, Nursing, and Social Sciences.
- Bennett through years in attendance & participation in many industry educational programs has now founded the "Metal Craft Training Institute Of America (MECTIA) Corporation" with 501C3 status.

Mr. Bennett from out of the above list of Educational institutes completed his primary education in the Greater Cleveland Ohio area where continuing his formal education by working his way through John Hay and **Case Institute of Technology** as an industrial roofing industry apprentice. Attending John Hay Extension School at University Circle Ohio near Case School of Technology, studying in Mechanical Drafting - Methods and Civil Engineering disciplines while achieving his full Journeyman status in Industrial Roofing Industry by 1952 and education in Civil Engineering through attending John Hay and **Case Institute of Technology 1950 to 1955.**

A self-made man and educated man as Mr. Bennett's Father & Mother both passed-away early while attempting to complete his education went on working his way through college by entering the prescribed Industrial Roofer's Union as Journeyman Apprentice Training Program along with assistance from the President of the Industrial First Corporation of Cleveland Ohio, Perry Miller. It was during this exposure to the Industrial building and roofing industry that Mr. Bennett began to develop his approaches to quality control in the industrial building and roofing industry and establishing himself in Industrial / Commercial Construction and roofing industry while employed at Industrial Roofing Company where became Industrial Roofing Division of Industrial First Corporation with other building and roofing firms up through 1964.

- During college, Mr. Bennett went to work for Industrial Roofing Company becoming Industrial First Corporation, Lexington Ave Cleveland, Ohio (an affiliate of John-Manville Company) Roofing journeyman, Foreman, superintendant and as a sales engineer. Later continued in roofing sales engineering with Philip Carey Roofing Products Company to 1965. Mr. Bennett remained active in various Union Educational Committee and Advisory boards through these years as and officer, president of Union and by assisting in the development of Apprentice Training Programs for the Industrial Roofing Industry and AFL Unions, serving as an officer and chairman of the Ohio Roofers Union Executive Committee, sitting on the National Arbitration Board, and developing the first union pension and welfare program in Ohio along with the national.
- Mr. Bennett offers over 60 years of hands-on self-developed experience encompassing a broad range of techniques in the building industry, installation , Quality Control, Design and full spectrum in types of Industrial and commercial roofing systems.
- Assisted in development of American Buildings Manufacturing Company's (ABC) metal roof quality control installers Training program and set up ABC metal roof Warranty Program.
- Assisted in the development of several metal roofing manufacturer's Quality Control and Weathertightness Warranty programs – Burlington Industries - ABC – AMS - KIRBY – MBCI – FABRAL, while always first in mind through his diligent efforts to look for ways to increase Quality, the performance of excellence and ethics both in construction and with the business arena.

In 1965 immediately following death of Mr. Bennett's wife, as father of three young children opened an office in his home where able to see after family and entered into another industry Educational and Quality Control discipline with founding of his own consulting company, as Bennett and Associates Proprietorship, serving Industrial roofing company organizations and field training for contractor development and quality control in the greater southeast and later throughout United States.

Bennett moving family and Bennett and Associates consulting company to Southeast early in 1980 settling in Atlanta Georgia agreed to service Burlington Industries Engineering Division to help kick-off their in-house Industrial Roofing Engineering Program for approximately 140 of Burlington Industries factory Facilities worldwide. During this time Mr. Bennett approached by Owens Corning Fiberglas International Office to conduct a two year investigative program studying the effect of quality Control enhancements and improvements to their existing specifications and Warranty Program. The pilot program evolved into the very first Nationwide Owens Corning **Independent Auditor Program (IAP)**® as we know it today. Whereupon Mr. Bennett spread-out the Quality Control program through **AMB warranty, Inc. (AMB)** by embedment of enhanced Quality Control into Guaranty and Warranty markets throughout North America and off-shore with Inspection Audits and quality control services to existing warranty and guaranty markets through use of **AMB** with its independent 3rd party services to the pre-engineered metal Building, industrial Metal roofing and Built-up roofing manufacturers in United States. Mr. Bennett's first national 3rd party Independent inspection programs still exist today virtually unchanged in its original form and after over 30-years from its commencement in 1980 well known in the industry as **AMB's "National Independent Inspection Program"** ®(NIIP).

1965 - BENNETT AND ASSOCIATES - TODAY (2014) AMB WARRANTY, INC. (NEAR 50-YEARS)

Mr. Bennett founded **AMB WARRANTY, INC. (AMB)** in 1990 stemming and propagated from the 1965 Bennett and Associates proprietorship. **AMB** currently in its fourth growth phase with experienced personnel and the latest technology has Bennett and Associates as division of **AMB**.

AMB brings to the table the kind of self-contained, experienced, comprehensive, objective evaluations necessary to establish themselves as the leader in the building and roof consulting industry. Impressive accomplishments include the capabilities to assist with Industrial roofing cases while striving to stay out of court acting when at all possible in negotiations/mediations, exercising effective resolve and uncompromising dedication to establishing all definitive facts.

Mr. Bennett strives to keep abreast of all facets of developing technologies with capabilities allowing them to better serve the construction management demands of the market. Moreover up to this date in time Mr. Bennet actively attends advance educational programs while still to this day enters onto active industrial projects hands-on to keep abreast of the ever changing technology and see firsthand to what degree the installation skill level stays in the industry, where added training and quality control may improve the industry.

Following with Mr. Bennett's personal involvement and contributions to the Industrial roofing industry, **AMB** are active in training and developmental studies for roofing technicians, Proponents of Part-time intermittent monitoring of projects producing what Bennett considers to be a much more successful program, which is in the long term also more economical for **AMB** Clients, providing an opportunity for better quality professionals to service **AMB** clients. Where often happens full time monitoring creates semblance of acceptance when not earned by the installer. Mr. Bennett states exceptions occur as in all programs and especially where in just a few hours installation defects may be covered over and hidden through work in progress.

C. W. (CORKY) BENNETT, JR. represents 2nd generation evolution progress by leading **AMB** as the General Manager today. Oversees the quality trained and experienced professional personnel using state-of-the-art technologies along with Mr. Bennett's unique individual consulting concepts and investigative procedures provided the highest quality in industrial and commercial roof evaluation and warranty product services available. Mr. Bennett single handily through the years pushed the quality higher in the entire industry and now his Son carrying on the established quality control and warranty programs.

TODAY AMB on a constant basis is ready, and able to provide the necessary quality criterion based on the highest attainable quality standards. **AMB** develops and directs only quality contractors, through education in the proper techniques of quality in the pre-engineered metal building industry, architectural and Industrial metal roofing applications. Bennett always strives to accent the softer side of the legal end of the industry by promoting neutral negotiations - arbitration and / or mediation, rather than litigations while enjoying a high success record. Bennett continues to develop new programs for manufacturers, owners and contractors alike, independently critiqued with quality standards across the United States & off-shore with Quality Control inspection Programs titled **National Independent Inspection Program (NIIP)**®. While additionally **AMB** are the originator and leading industry 3rd party Warranty provider in Independent Weathertightness Warranties throughout North America and off-shore, called "**AMB Signature 2000 Warranties**".
