Mr. Aronson began his career at the Pennsylvania Association of Notaries (PAN) in 1972 in the manufacturing area, producing notary seals and rubber stamps for PAN's members and well as ensuring that the members received their orders in a timely fashion. During the next ten years he continued his hands-on training as a customer service representative, as the Association bookkeeper, and assisting the Association education department, before becoming President in 1983. Under his leadership, the nation's first state notary association has grown to nearly 50,000 members.

Mr. Aronson has been an expert witness regarding the functions of the notary public, concerning both the Notary Law and the Pennsylvania Vehicle Code. Additionally, he has worked with the Pennsylvania Secretary of the Commonwealth and Pennsylvania legislators in reviewing and drafting legislation to further improve the notary profession. He was instrumental in working with the Secretary's office as they worked towards the first major change to Pennsylvania's Notary Public Law in 50 years. A major aspect of this legislation was gave the Pennsylvania notary public the ability to act as an electronic notary.

As president, Mr. Aronson continues to be closely involved with the everyday needs of notaries. As a hands-on executive, he often answers notarial questions personally. Any member can speak with him any time. He has given, and still occasionally teaches, basic and advanced notary instruction, basic and advanced motor vehicle document preparation, and eNotarization concepts. He has taught thousands of notaries public in his nearly 35 years at the Association.

Additionally, Mr. Aronson has given instruction to members of the American Institute of Banking, Pennsylvania Land Title Association and right-of-way agents. He has provided information on the notary profession as a public service to service clubs, chambers of commerce, church groups and adult education organizations, while also conducting classes for new court reporters and legal secretaries.

Mr. Aronson played a key role in the writing of *PAN's Auto Manual: A Complete Guide to Driver Licensing and the Titling and Registration of Vehicles,* a 1,780–page reference manual that was used by the Pennsylvania State Police Bureau of Patrol, 90 offices of the Pennsylvania AAA Federation and thousands of Pennsylvania motor vehicle dealers, motor vehicle messengers, issuing agents and notaries public.

In 2003 Mr. Aronson was appointed by the Governor of Pennsylvania as a member of the Messenger and Agent Advisory Committee, whose function it was to develop contract language, rules and standards, and education requirements for 18,000 motor vehicle agents in Pennsylvania.

In addition to his role with PAN, Mr. Aronson also serves as President of the United States Notary Association (USNA). USNA was launched to provide the same high quality service that PAN has provided in Pennsylvania to the notaries public of all 50 states and the District of Columbia.

Mr. Aronson is a long time member of the Property Records Industry Association (PRIA). As a PRIA volunteer he serves as the private sector Co-Chair of the PRIA membership committee and is an active member of the PRIA marketing committee. He was the private sector co-chair of a work group within PRIA that was studying the concept of eNotarization and eRecording. When this work was transferred to the American Bar Association, he continued as a representative of his Associations.

Mr. Aronson has also been involved with the Mortgage Industry Standards Maintenance Organization (MISMO) and is a member and advisor on the development of two important guides, the MISMO eMortgage Closing Guide and eMortgage Guide.

He also is a participant in the organization known as Standards and Procedures for Electronic Records and Signatures. (SPeRS). He has also spoken before and advised the Pennsylvania Recorder of Deeds Association (PRODA) as it concerns notarial matters, both in the area of paper notarizations and electronic notarizations.

Mr. Aronson's most current responsibility is as a notary procedures and notary law advisor and member of the OASIS (Organization for the Advancement of Structured Information Standards) Legal XML eNotary Technical Committee.

He has participated in the National Association of Secretaries of State (NASS) Notary Public Administrators (NPA) Committee since the second year of its inception, providing valuable insight and experience to those who administer the 4.5 million notaries public in the United States.

In 2003 Mr. Aronson was the only American notary, and notary association representative, present at the Special Commission of the Hague Conference on Private International Law at The Hague, The Netherlands. This conference concentrated on electronic commerce, electronic notarization and the potential problems of authenticating electronically notarized documents sent from one country to another.

For two years, Mr. Aronson was an active participant as an official observer of a drafting committee of the National Conference of Commissioners on Uniform State Laws (NCCUSL). The resultant work, entitled the Uniform Real Property Electronic Recording Act (URPERA) has been adopted by a number of states, numbers of which are steadily increasing.

In 2004 Mr. Aronson was awarded U.S. patent number 6,829,993 for his invention of the Stamp Clamp™, a locking device that secures a notary's rubber stamp seal. This product, sold exclusively by PAN and USNA, enables notaries in 18 states to comply with statutes that require them to maintain custody and control of their rubber stamp seals and protect the seals from unauthorized use.

Mr. Aronson served in the Armed Forces, seeing action in Vietnam, and subsequently attending the Rochester Institute of Technology (RIT) in Rochester, NY. While at RIT, Mr. Aronson acquired a passion for general aviation; he is an accomplished instrument-rated, multi-engine rated private pilot.
