

Gilbert Kliman, M.D.
Curriculum Vitae
(Updated 11.28.2002)

EDUCATION AND TRAINING: M.D. --Harvard Medical School

Distinguished Life Fellow, American Psychiatric Association. Phi Beta Kappa and B.A. at U. of Cincinnati. M.D. from Harvard Medical School, Boston, MA, 1953. Internship: U. of California Med. Center, San Francisco, CA, 1953-54. Resident in Psychiatry, Montrose V.A. Hosp. and Payne Whitney (combined program), New York, 1954-55. Bronx Mun. Hosp., Bronx, New York, 1957-58. Interdisciplinary Fellow in Science and Psychiatry, and Fellow in Child Psychiatry, Albert Einstein College of Medicine, Bronx, New York, 1958-60. Diplomate in Psychiatry, Certified by American Board of Psychiatry and Neurology, 1962. Graduate of New York Psychoanalytic Institute Adult and Child Psychoanalysis Programs, New York, 1967. Certification by American Psychoanalytic Association in Adult and Child Analysis, New York, 1968. Diplomate in Child Psychiatry, 1970. Recipient of International Literary prize for best book concerning well-being of children (1982). Recipient of over 40 grants for research and service regarding psychological illness and traumatic experiences. Diplomate, American College of Forensic Examiners. Diplomate, American Board of Forensic Medicine.

PUBLIC HEALTH ACTIVITIES :

Over 50 Television and radio appearances: Barbara Walters, Straight Talk, Today Show, 20/20 program, PBS, KRON-TV, KFAS, KQED, and Channel II, San Francisco (Fox News) —all regarding effects of the general population and children in particular of stressful events. These talks have included presidential assassination, the Challenger space shuttle disaster, Loma Prieta earthquake, the Columbine shootings, mass disasters, trauma, child development and family mental health. Dr. Kliman's work in public health aspects of psychological trauma has been the subject of cover stories and feature articles in The New York Times Magazine Section, Family Health, and Parents Magazine. He is a frequent speaker at public health organizations concerning traumatic deaths, family stressors and foster care. His professional publications include books and peer-reviewed medical journal articles on mass disasters, most recently concerning the Attack on America.

Interviewed in 1997 by CBS Dallas TV regarding psychiatric testimony concerning eleven altar boys, testimony which had resulted in a record-making jury verdict against the Archdiocese of Dallas. In April, 1998, Dr. Kliman was interviewed by Channel Four anchorwoman, Linda Yee, concerning his Salvation Army project providing the Cornerstone form of psychoanalytic psychotherapy for homeless preschoolers and toddlers. The Cornerstone project itself was viewed on the Five O'Clock News. KGO TV interviewed Dr. Kliman concerning a forensic testimony, with a focus on a Stanford football player who had allegedly become a child molester. During the Lewinsky-Clinton matter, Kliman was interviewed by Channel 12/20 concerning psychoanalytic views of leaders having exceptional sexual access to partners and the risk of a position of power overcoming the judgement of such leaders.

PROFESSIONAL POSITIONS :

Full time Medical Director : The Children's Psychological Health Center, Inc. (a non-profit agency), San Francisco, 1993- Responsible for clinical treatment, clinical supervision, staff training and forensic evaluations - reporting directly to the Board of Directors. CURRENT TEACHING :

Faculty Member: S.F. Psychoanalytic Institute. Eight 90 minute seminars on Pathogenesis in Early Childhood, with Focus on Psychological Trauma (a course for Candidates in the Child Analysis Program). See also Grand Rounds presentations below.

THESIS CHAIR ACTIVITIES:

Chairperson, Thesis Committee, California School of Professional Psychology, for Thesis of E. Wayrynen, M.A.

concerning "Oppositional Behavior Following Childhood Sexual Abuse." 1998
Chairperson, Thesis Committee, Wright Institute, for Thesis of Miquela Diaz Hope, Ph.D. on IQ and CGAS changes following in-classroom psychotherapy and control group. 1999.
Chairperson, Thesis Committee, Pacific Graduate School of Psychology, for Tina Sovis-Weston, Ph.D., on Early Memory Changes among Twelve Boys Raped by Men. 2001.

RECENT AND CURRENT PROFESSIONAL ASSOCIATION COMMITTEE WORK:

Chairperson, Forensic Subcommittee of S.F. Psychoanalytic Institute, 1993-1996 . Established liaison with San Francisco Bar Association for a series of Continuing Legal Education Credit seminars presented by a panel of psychoanalysts. Topics presented by G. Kliman, 1993-1994: "Post Traumatic Stress Disorder," "Prevention of Stress in the Workplace," and "Prevention of Depressive Reactions during Legal Practice." Place: S.F. Bar Association.

Current:

Member, Child Development Program Committee, San Francisco Psychoanalytic Institute.

Member, Child Analysis Study Group, San Francisco Psychoanalytic Institute.

Member, Committee on Psychoanalysis and the Community, American Psychoanalytic Institute.

RECENT PROFESSIONAL COMMENDATIONS:

A letter of commendation regarding clinical work within a school system:

December 3, 2001

To Whom It May Concern:

This is to report that the San Mateo County Office of Education, Special Education programs, has benefited from the services of The Children's Psychological Health Center, specifically its Cornerstone Therapeutic School Project.

We have worked together for the past six years. Under the leadership of Gilbert Kliman, M.D., the Center has trained members of our teaching and school psychology staff to carry out a mental health service on our premises. We now have a collaborative project in its sixth year for our special education preschool children with Pervasive Developmental Disorders (PDD) and for those with Serious Emotional Disorders (SED) which interfere with their education. As an alternative to sending children to a private nonpublic special education school for extremely intensive mental health services at significant cost, this project has created and provides just such intensive service within a public preschool special class program at 65 Tower Road, San Mateo.

To my knowledge, among the 30 children served so far under the collaborative project, we are seeing cognitive, social and human gains which have decreased the gap between these children and their typically developing peers. Several families and children are thriving with less intensive special education service or returned to regular education class. Not only has the family and child suffering been reduced, the burden to taxpayers is also reduced. The children have been able to remain in the community, and some who were functioning as severely autistic and retarded now appear to be developing within a somewhat normal range. We are pleased

with the quality of special education services our County provides for preschoolers with PDD or SED. We are also gratified with the research results provided by The Children's Psychological Health Center.

We recommend the Cornerstone project to other school systems, so that they consider it an important opportunity should they be able to collaborate similarly with The Children's Psychological Health Center. At California's common cost of \$15,000 to \$40,000 or more a year, for a special education child who needs full time special education services and auxiliary intensive help, the savings for even one child's 12-year career of intensive services in special education can be substantial. The savings from one of the successes we have seen may equal the costs of the entire Cornerstone project with the 30 children helped so far.

We have not yet seen any failures. The agency is showing measurable cognitive gains for our collaborative work which, according to their research, averages 20 to 28 points in independent WPPSI testing of the children in the Cornerstone program. The techniques are far more economical to use than we have found with the Lovaas method, which we also implement for some students. We have also seen the techniques transmitted to special education teachers as well as inexperienced therapists.

I invite you to visit our project in action.

Sincerely,

JAY S. PARNES, Ed.D.
Senior Administrator
Special Education

2001 FORENSIC ACTIVITIES::

EVALUATIONS AND RECOMMENDATIONS HEARD IN FEDERAL COURT, HANNIBAL MISSOURI, November 15, 2001

Under Dr. Kliman's leadership, a Children's Psychological Health Center team of five clinicians and two administrative staff has been at work since May 2, 2001 conducting a behavioral audit regarding the psychiatric conditions and the residential treatment of over 100 children (mostly ages 13 to 17) at Heartland Christian Academy, as requested by the Academy's general counsel.

2001: FEDERAL CASE, AS EVALUATING AND TESTIFYING EXPERT:
[Expert for the Plaintiff child.]Doe vs. Three Springs Treatment Center, Nashville, TN.

STATE COURT CASES:

Some 2001 Cases of public health significance, concerning allegedly traumatized minors in care of governmental or institutional agencies:

Does vs. OK Boys Ranch and State of Washington: 44 children in care at a state-licensed rehabilitation and foster care-related center were allegedly allowed to abuse each other while staff and therapists did not report harmful activities of which they knew, Dr. Kliman opined. The plaintiff children have to date all received settlements in four phases of this litigation over a nine year period, with Dr. Kliman as the principal expert.

York vs. Chaparral/Victor Treatment Facility. Orange County Superior Court. An eleven year old child severely and chronically molested by a residential treatment staff member was evaluated and an opinion given by Dr. Kliman concerning harm and how to rehabilitate the child as much as possible. Implications for standards of residential care are contained within the case.

Carlson vs. Ray-Lara Foster Home. Orange County Superior Court. Dr. Kliman evaluated and testified concerning a twelve year old boy who was allegedly molested by a foster father and had to rescue himself. The foster father's partner was negligent, Dr. Kliman opined. The judge agreed.

2001-2002: ADDITIONAL FEDERAL CASE:

Skudra vs. Berkeley Unified School District. An opinion has been produced at the request of the defense.

2001-2002 PUBLIC HEALTH/ PUBLIC EDUCATION ACTIVITIES:

Seminar for Parents on Crisis Management following 9/11: Convent of Sacred Heart Elementary School Seminar for Teachers on Crisis Management following 9/11: Stuart Hall and Convent of Sacred Heart Elementary Schools Federal Emergency Management Agency: Web-Site Linkage for CPHC's advice to parents and teachers American Academy of Child and Adolescent Psychiatry: Web-Site Linkage for free copies of guided activity workbook for children, parents and teachers.

American Psychoanalytic Association: Web-site linkage for free copies of guided activity workbook for children, parents and teachers.

Channel II: Three interviews on psychological trauma and terror

Channel II: Three interviews on psychiatric treatment of children

2002 Scientific activities

Presentations in 2002

Research and treatment with disturbed and traumatized young children. Wright Institute, Berkeley, Feb 4, 2002

Child Analysis Study Group, San Francisco Psychoanalytic Institute. March and June.

Scheduled:

Publications in Draft:

IQ Rise among Preschoolers with Pervasive Developmental Disorders. Submitted by invitation, to Psychoanalytic Press.

Child Psychoanalytic Contributions to Forensics, submitted by invitation, to Psychoanalytic Inquiry

A Unifying New Theory of Post-traumatic Stress Disorder, submitted by invitation to The Northern California Journal of Psychoanalytic Psychology.

TESTIMONY :

Dr. Kliman has testified in over 200 cases including over 100 trials. His courtroom and deposition testimony experience includes cases of institutional negligence of children leading to psychological trauma, loss of parental services due to wrongful deaths, psychological trauma as part of personal injury of adults and children, childhood molestation, sexual harassment, termination of parental rights, and disputed custody. About 20% of his forensic work has been requested by defense, about 80% by plaintiffs.

Dr. Kliman's evaluations and testimony regarding 16 children negligently cared for and abused at The Kiwanis' OK Boys' Ranch, Olympia, WA, helped lead to settlements and awards, totalling \$25,000,000. Responding to disclosures in that case, many improvements have occurred in the publicly funded and licensed institutional care of children throughout the State of Washington, according to newspaper accounts.

Dr. Kliman's evaluations and opinions, together with that of The Children's Psychological Trauma Center team led by Robert Wynne MFCC, led to record-making \$8,000,000 loss of parental and other services compensation for 17 bereaved subsistence-economy Alaskan Inupiat Native Americans (Smith vs. Ryan Airlines, Anchorage, 1997).

Principal expert regarding institutional negligence and psychological damages in Does vs. Rudolph Kos and the Diocese of Dallas, Dallas 1997. The Catholic Church of Dallas was held liable for institutional negligence, testimony concerning the need for major psychiatric treatment planning was accepted by the jury, and \$119,000,000--including punitive damages against the Church--was awarded to the 11 plaintiffs, by unanimous decision.

PUBLIC SPEAKING

OTHER PUBLIC HEALTH ACTIVITIES AND RECOGNITION:

In response to the mental health needs of families following recent massive firestorms, United Way printed and distributed 10,000 copies of "My Fire Story -- a Guided Activity Workbook for Children, Families and Teachers," co-authored with Edward Oklan, M.D. Copies can be obtained from Family Development Press, 1010 Sir Francis Drake Boulevard, Kentfield, CA 94960. The State of Iowa purchased rights to reproduce 10,000 copies of "My Book about The Attack on America - a Guided Activity Workbook for Children, Families and Teachers", published in 2001.

During 1996 - 2002 Sophie Murvis Foundation, The Windholz Foundation, The Atkinson, Cadence Corporation, Irving Harris Foundation and The Stullsaft Foundations have recently awarded a grants to Dr. Kliman as principal investigator for his Cornerstone Therapeutic Nursery project, serving seriously disturbed preschoolers in the San Mateo Office of Education.

Presentations on The Cornerstone Therapeutic Nursery Project have been made by Dr. Kliman during 1997 through 2002 at the San Francisco Psychoanalytic Institute and the Seattle Institute for Psychoanalysis.

Three documentary videotapes concerning Dr. Kliman's psychotherapies of disturbed children treated by him using this method in a therapeutic special education class are now available for scientific and educational purposes, parental permission having been gained. Such use requires a confidentiality agreement.

Tape I: The Cornerstone Method.

Tape II: Treatment of an Autistic Boy

Tape III: Unique Features of The Cornerstone Method

As a pilot application of his techniques for preschoolers, Dr. Kliman opened a Cornerstone Therapeutic Nursery at the Salvation Army Shelter for homeless families in January 1998, serving seven homeless families with preschool children. He is supervising the project weekly as Medical Director of The Children's Psychological Trauma Center. Unedited videotapes of that project are available to scientists and educators with a confidentiality agreement. The Wright Institute has provided a psychology intern to conduct the treatment under Dr. Kliman's training and supervision. The California School of Professional Psychology has assigned a doctoral thesis candidate to Dr. Kliman's supervision to study the I.Q. rise phenomenon previously documented in Cornerstone therapies.

Peer-reviewed publications of Dr. Kliman's work with foster children appear in Zelman, A: Interventions with High Risk Children, Jason Aronson 1997 (Chapter by Kliman on Controlled Assessment of The Personal Life History Book Method for Foster Children). Results of Dr. Kliman's Cornerstone Method are also reported extensively in that book, focusing on the I.Q. rise phenomenon.

CLINICAL AND SCIENTIFIC TAPES :

STARRED (*) TAPES BELOW ARE A PRECIOUS ARCHIVE OF INFORMATION ABOUT PROBLEMS AND TREATMENT OF SEVERELY STRESSED CHILDREN. THEY ARE NOT FOR SALE OR DISTRIBUTION. THEY MAY BE STUDIED AT CPHC ON-SITE WITH ASSISTANCE OF OUR STAFF BY QUALIFIED RESEARCHERS, CLINICIANS, SPECIAL EDUCATION TEACHERS, ADMINISTRATORS OF NONPROFIT CLINICAL ORGANIZATIONS AND SCHOOLS FOR CHILDREN, SCIENTISTS AND STUDENTS OF RELEVANT DISCIPLINES BY APPOINTMENT AT CPTC HEADQUARTERS. CREDENTIALS, REFERENCES AND CONFIDENTIALITY AGREEMENT ARE REQUIRED. A FEE OF \$225 PER HALF DAY AND 325 PER DAY OF STAFF ASSISTANCE AND FACILITY/EQUIPMENT USE IS CURRENTLY CHARGED FOR STUDY OF THE STARRED TAPES ON SITE. COLLABORATIVE RESEARCH ARRANGEMENTS CAN BE CONTRACTED FOR WITH CONFIDENTIALITY AGREEMENTS AND LONG TERM USE OF THE TAPES.

- *22 The Psychoanalytic Psychotherapy of a Four Year Old Boy, 1999. An ongoing archive made with generous permission of the child's family, now totaling over 25 hours. This child has had severe stressors in his life, and suffers behavioral and overanxious symptoms. He has impulse dyscontrol, attentional deficits, and expressive language difficulties from which he can be seen to be recovering. Two excerpted tapes have been created to illustrate features of the child's pathology, and of the response to interpretive aspects of treatment. Gilbert Kliman, M.D. is the psychoanalyst, and the treatment is conducted three times a week, with parent guidance every two weeks. The videographer is in the room. This may be the only existing videoarchive of a child analysis conducted by a certified child psychoanalyst.
- *23 Cornerstone Treatment Archives: 1995-2002. Ongoing archive of intensive in-classroom treatment of seriously disturbed preschoolers, within their public special education classrooms.
- 24 Thirty four year follow-up of a Cornerstone Treated autistic child, now recovered. Presented at The San Francisco Psychoanalytic Institute, Child Analysis Study Group, 2001. Permission for public viewing granted by the patient.

Data on Cornerstone Method Scientific and Educational Archives under Dr. Kliman's supervision:

With parental permission, Dr. Kliman is collecting unedited treatment documents of a special method of treatment in a real life space, called "The Cornerstone therapeutic preschool method." Now totaling over 200 video archive hours, eight different California therapists working with various educator teams have recorded their Cornerstone therapeutic preschool method work. Beginning in 1995, this archive started with Gilbert Kliman, M.D. working for a year as daily in-classroom therapist in a public special education school. He was assisted by Leanne Runyan and Gail Hernandez as the teachers at the San Mateo Early Childhood Education Center, a preschool special education facility of The County of San Mateo. A second team under his supervision included work at The San Francisco Unified School District (Vanessa Vigilante and Esther Kronenberg). Third and fourth teams were at The Salvation Army Gateway Shelter (Vanessa Vigilante as therapist and Lynda Byrd as teacher, Deanna Reardon as therapist and Lynda Byrd as teacher). A fourth was at The Cadence Cornerstone Site at Mt. Pleasant School, San Jose (Karita Hummer, therapist and Kathy Krall, teacher). Fifth team therapy was provided by Jane Christmas. The sixth team therapists was Dr. Miquela Diaz Hope, the seventh Molly Franklin, MFT. All have been extensively videotaped carrying out the method. An eighth team was assembled in late 2002, when Linda Hirshfeld Ph.D. joined as Fellow in Cornerstone Therapy. In 2001 Mike McDonald, Ed.D. became Special Education Director of Cornerstone School. All the treatments are

have been under principal supervision of Dr. Kliman with additional supervision by Mali Mann, M.D., Myrna Frankel, Ed.D., and Jan Baeuerlen, M.D.
