
Over 14 years experience referring the best selection of high-quality investigative forensic experts and expert witnesses in engineering, science, medicine, construction, and other disciplines to the legal and insurance industries, as well as, other private and public agencies.

What We Do

- Assist at every step of the way until you're fully satisfied.
- Provide free initial phone consultation with experts you choose with no obligation to retain.
- Recruit needed experts for free throughout the United States.

Who We Are

ForensisGroup began in Pasadena, California in 1991 with ten engineers and construction professionals specializing in structural and failure analysis and construction defect investigations. We have since grown to include *over 650 independent consultants* including doctors, nurses, engineers, accountants, appraisers, fire cause and origin investigators, general contractors, and many others available throughout the United States.
