

INTERCITY TESTING & CONSULTING CORP.

For more information, please visit www.intercitytesting.com

Our 30th year as a provider of forensic engineering, consulting and expert testimony to thousands of law offices, insurance companies and government agencies. Our qualified team of engineers and scientists, covering hundreds of areas of expertise, are available to assist you in technical evaluations, scientific analysis, testimony and preparation of cases for trial. Additional experts are available when more than one specialty is required. We also provide constant case and project management to help expedite the needs of your litigation in a timely manner.
