2711 SPRAGUE DRIVE, WALDORF, MD 20601-3022

Highway Crash Reconstruction Experts Serving Since 1987

301-843-0048

## Specializing in the Multidisciplinary Fields

- Highway Crash Analysis & Reconstruction
- Vehicle Components / System Failure Analysis
- Vehicle Crash Data Recorder Downloads & Analysis (CDR/black box)
- Collision / Occupant Kinematics
- Forensic Engineering & Analysis
- Professional Digital Photographic Documentation

## CURRICULUM VITAE

(Biographical Outline)

Of

**CHARLES D. (Chuck) PEMBLETON**

***Collision Reconstruction Specialist/Automotive Systems Analyst***

(Updated: March 4, 2014)

---

## SPECIAL QUALIFICATIONS

Currently, Mr. Pembleton *has over 40 years of experience analyzing and reconstructing highway vehicle collisions, and has been directly involved in over 4,900 collision investigations, collision analysis and/or collision reconstructions. Mr. Pembleton has received several hundred of hours of formal education and training in highway crash analysis and reconstruction, as well as hundreds of hours of formal training, education and experience in forensic evidence preservation, documentation and collection. In addition, he has received hundreds of hours in the fields of forensic and commercial photography and videography, as well as automotive mechanical technology and mechanical engineering technology. Mr. Pembleton has also conducted hundreds of hours of hands-on research and development of controlled testing in the specific areas of dynamic and static friction/skid testing and crash dynamics, as well as achieving continuing education and training in other associated disciplines. He has also provided expert testimony in various courts of law, and has provided sworn testimony at depositions, hearings and arbitrations in hundreds of cases throughout the United States and Central America.*

Mr. Pembleton maintains his expertise in the areas of multidisciplinary highway crash reconstruction and **automotive systems failure analysis**, including the ability to download and **analyze data from crash data recorders (CDR)**. This expertise involves ground transportation collision causal factors analysis, contributory factors, vehicle safety standards compliance and performance, as well as **automotive technology and systems failure analysis**. He actively applies this extensive training and practical experience in collision dynamics, area of impact, vehicle pre-impact, impact and post-impact speed calculations, along with the correlation of the direction of principal force, emphasizing the relative movement and positions of the vehicles. Mr. Pembleton regularly conducts analyses to determine the change in velocity (delta-V), energy dissipation, occupant dynamics and positioning, as well as passive and active occupant restraint system usage/performance. Headlight and taillight examinations are also conducted to determine on/off illumination at impact, trace evidence collection, Referencing pedestrian and occupant points of contact and injury causation and indexing. Mr. Pembleton is also a certified **Crash Data Recorder** (black box) download technician and CDR Analyst.

In addition, Mr. Pembleton also has extensive training and experience with large trucks (both articulated and non-articulated) and motorcycle dynamics, including railroad grade crossing collisions, and emergency vehicle operations, as well as mechanical systems or component function, failure and performance analysis. He also conducts analyses of roadway geometric design, roadway topography, compliance and performance of traffic safety/control devices, including traffic pattern alterations in construction/work areas, as well as environmental and human factors relating to highway transportation safety for daylight and night time driving and collisions. Mr. Pembleton also utilizes forensic photography, videography, laser measuring/mapping technology, CADD site drawings/maps, 3-D models, computer technology and detailed technical reports to support sworn testimony.

Mr. Pembleton is very active in numerous professional organizations and societies which are dedicated to the intellectual development, integrity, consistency and professionalism of individuals, organizations and institutions involved in collision investigation and reconstruction technology. Mr. Pembleton has appeared on such television shows as “Talk Back Live” on CNN and “Good Morning America” on ABC.

## **EXPERIENCE**

- ***Owner/Senior Consultant, C. D. Pembleton Associates:*** *private consulting company specializing in professional highway collision analysis and collision reconstruction, automotive systems failure analysis, and professional forensic/commercial photography services (August 1987 to Present). Mr. Pembleton is also a past President (1988 to 2004) and Chief Administrative Officer for the National Association of Professional Accident Reconstruction Specialists, Inc (NAPARS), 1996 to 2010.*
  - Police Officer (Corporal) and Collision Reconstruction Investigator for the Prince George's County (MD) Police Department (1983 to 1987)
  - Professional Photographer, in both commercial and forensic photography.
  - Police Officer, Prince George's County (MD) Police Department (Sept. 1974 to Aug. 1987)
  - Crash Consultant/Expert to various federal, state, county and local government agencies (1983 to present)
  - Member of the United States Air Force (Security Police), including a one year tour of duty in South Vietnam, conducting criminal investigations and Multidisciplinary accident investigations (1970 to 1974)
  - *Over 17 years in law enforcement*, involving all aspects of accident investigation and reconstruction.
  - Involved in the investigation, consultation, analysis and reconstruction of more than 4000 vehicle collisions.
  - Provides *Expert Testimony* in Maryland District and Circuit Courts, US Federal Courts in Maryland, Virginia and Washington, DC, as well as the local courts in West Virginia, Delaware, Pennsylvania, the District of Columbia and Central American Magistrate Courts.
  - **Actively consults, analyzes and reconstructs; ground transportation collisions involving property damage, personal injury and fatalities for civil and criminal litigation; vehicle mechanical and electrical systems operational condition/failures/performance inspections, examinations and evaluations.**
  - Hundreds of hours of formal training and education dedicated specifically to the field of collision investigation, collision analysis and collision reconstruction.
  - Hundreds of hours of formal training and education dedicated to the field of forensic and commercial photography and videography, and automotive systems technology and safety/operational standards.
  - Hundreds of hours in research, development and testing in the area of static and dynamic skid testing and crash dynamics during controlled vehicle crashes.

## **SPECIALIZED EDUCATION AND TRAINING**

- ***Commercial Photography:*** Graduate of the New York Institute of Photography, New York, New York, October 1970, 240 hours of class room and field instruction. Now more than 35 years of experience.
- ***Traffic Safety-Accident Prevention/Emergency Vehicle Operations:*** USAF, Lackland AFB, San Antonio, Texas, April 1971, 24 hours of class room studies and field training specific to accident prevention and emergency vehicle operations.
- ***Law Enforcement Training/Accident Investigation:*** USAF, Lackland AFB, San Antonio, Texas, 1971, 6 weeks of classroom training in all aspects of law enforcement operations, investigations, including accident investigation, operation of emergency vehicle operations and specialty vehicle operations.
- ***Traffic Accident Investigation Training:*** Prince George's County, Maryland, Police Academy, Forestville, MD, Sept. 1973, 22 weeks of classroom training in all aspects of modern law enforcement, including traffic law, criminal law, emergency vehicle operations and more than 40 hours of specifically dedicated to accident investigation training and education.
- ***Advanced Accident Investigation Training:*** Prince George's County Police Academy, Forestville, MD, Sept. 1983. 20 hours of specialized training in advanced accident investigation.
- ***Master Automotive Technician/Systems Analyst:*** NRI/McGraw-Hill Schools, Washington, DC, Nov. 1983 to November 1985. Two years, approximately 1040 hours, of specific training, education and testing dedicated to automotive engineering and systems analysis.
- ***Advanced Accident Investigation & Accident Scene Mapping & Mathematical Reconstruction I:*** Charles County Community College, La Plata, Maryland. Sept. 1984, 120 hours of classroom instructions, field research and academic testing.
- ***Vehicular Homicide/DWI Training:*** Univ. of Maryland, College Park, Maryland, March 1985. 32 hours of classroom instruction in current technologies and trends.
- ***Forensic Photography Training:*** Prince George's Community College, Largo, Maryland, March 1985 and March 1987. 32 hours of classroom instruction, field training and testing in recognition, identification, documentation and collection of forensic evidence.
- ***Advanced Accident Reconstruction II:*** Charles County Community College, La Plata, Maryland, March 1985. 32 hours of classroom studies, field exercises and academic testing.
- ***Passenger Car Dynamic Skid Testing:*** Dynamic friction testing and automotive braking performance testing on wet and dry surfaces, utilizing both conventional and anti-lock brake systems with a multitude of different types of vehicles, including police cars, fire trucks and buses, Glen L. Martin Airport, Baltimore, Maryland, April 1985. 8 hours of testing and research.
- ***On Scene Mapping and Diagramming:*** Charles County Community College, La Plata, Maryland, June 1985. 32 hours of classroom and field instruction, and academic testing.
- ***Passenger Car Dynamic Skid Testing:*** Capitol Raceway, Crofton, Maryland, Oct. 1986. 8 hours of practical testing, research and analysis.
- ***Motorcycle Dynamic and Static Friction Testing:*** Capitol Raceway,(NAPARS, Inc) Crofton, MD, Mar. 1987, 8 hours of practical testing, research and analysis.
- ***Dynamic Lateral Acceleration Testing:*** Capitol Raceway, (NAPARS, Inc.) Crofton, MD March 1987. 8 hours of research, testing and analysis.

- ***Crash Dynamic Testing:*** Capitol Raceway, (NAPARS, Inc) Crofton, MD, June 1987. 8 hours of field vehicle to vehicle crash testing, research and analysis. Lead participant/coordinator in the research, development, preparation and production of the crash testing and test driver.
- ***Special Problems in Accident Reconstruction Conference:*** Ocean City, MD (Mdatai) May 1988. 24 hours of classroom studies and field testing.
- ***Photography in Traffic Accident Investigation:*** Univ. of North Florida, Institute for Police Technology & Management, Dec. 1992. Study/review course of study.
- ***Advanced Collision Analysis & Reconstruction Seminar:*** Mdatai, NAPARS, NATARI Combined Conference, Ocean City, MD., October 1993 20 CEU's.
- ***Motorcycle Collision Analysis & Reconstruction Conference:*** Mdatai, NATARI, NAPARS, NJAARS Combined Conference. Classroom studies and high speed crash testing, Atlantic City, NJ, October 1992, 20 CEU's.
- ***Vehicle Damage Profile Analysis & Statistical Comparison Crash Testing:*** SOAR, TAARS, WATAI Joint Conference/Training Seminar, Charlottesville, VA, August 1995. 15 CEU's
- ***Human Factors Analysis in Motor Vehicle Collisions:*** NATARI, Mdatai, NJAARS, NAPARS Combined Conference/Seminar, Lancaster, PA, October 1995, 18 CEU's.
- ***High Speed Crash Testing & Research:*** NAPARS, NATARI, Mdatai, NJAAR Combined Conference, Waldorf, MD, (Conference Coordinator), 21 CEU's.
- ***Laser Measuring/Mapping Technology Training:*** Laser Tech, Inc. Baltimore, MD, Sept. 1997.
- ***Low Speed Crash Dynamics Analysis & Tire Failure Analysis:*** NAPARS, NATARI, Mdatai, NJAAR, Combined Conference, Oct. 1997, 20 CEU's.
- ***High Speed Driving Dynamic Testing:*** Richard Petty Driving School, (NASCAR Stock Car Driving School) Charlotte Motor Speedway, Concord, NC, May 1998.
- ***Advanced Motorcycle Accident Reconstruction & Analysis:*** NAPARS, NATARI, Mdatai, NJAAR, NYSTARS, Annual Combined Conference. Classroom studies and field testing & research. Waldorf, MD, October 1998, 19 CEU's
- ***Commercial Vehicle Inspection and Accident Investigation:*** Combined Conference, Allentown, PA, Oct. 1999, 22 CEU's
- ***World Reconstruction Exposition 2000:*** Sponsored by 22 of the leading accident reconstruction associations around the world. 5 days of classroom studies and field testing and research. Texas A & M Univ. College Station, Texas, Sept. 2000, 36 CEU's.
- ***Vericom Computer VC 2000PC (accelerometer) Training:*** Vericom, Bucks County, Police Training Center, Bucks County, PA, April 2001, 12 CEU's.
- ***Accident Reconstruction of Bus/Train & Car Crashes:*** Combined Annual Conference, Albany, NY, Oct. 2001, 19 CEU's
- ***2001 Collision Odyssey "Back to the Basics":*** NAPARS, SOAR, CAARS, TAARS, FARO, Combined Conference, Concord, California, Oct. 2001, 20 CEU's.
- ***Biodynamics & Occupant Kinematics:*** NYSTARS Conference, Yorktown Heights, NY, April 2002, 8 CEU's
- ***Introduction to Event Data Recorders (EDR) and Crush Documentation & Analysis:*** Combined Conference, Ocean City, MD, Sept. 2002, 18 CEU's.

- ***Crash Data Retrieval Certification Training:*** Univ. of North Florida, IPTM, Chesterfield, VA, May 2003, 24 CEU's.
- ***Advanced Topics in Accident Reconstruction and Pole Impact Analysis:*** Annual Combined Conference, Atlantic City, NJ, Oct. 2003, 24 CEU's.
- ***Crash Data Recorder Analyst Course,*** CSI, Chantilly, Virginia, January 2006, 24 CEU's
- ***Factors, Formulae, Forensic Technology:*** Annual Combined Conference, (NAPARS, TAARS, NYSTARS, MdATAI, CATAIR, PSFM, WATAI, Houston, Texas, Sept. 2006 (28 CEU's)
- ***Investigating Eccentric Collisions:*** Combined Annual Conference, (NYSTARS, NAPARS, MdATAI, NJAARS, NATARI, Binghamton, NY, October 2007, 18 CEU's.
- ***Crash Data Retrieval User's Conference:*** Collision Safety Institute, Houston, Texas, January 2008, 16 CEU's
- ***Heavy Vehicle Crash Reconstruction:*** Combined Annual Conference, (NYSTARS, NAPARS, MdATAI, NJAARS, NATARI), Ocean City, Maryland, October 2009, 18 CEU's.
- ***Trailer Underride Collisions:*** Combined Annual Conference, (NYSTARS, NAPARS, MdATAI, NJAARS, NATARI), Ocean City, Maryland, October 2010, 18 CEU's.

## **INVESTIGATIVE TRAINING/EXPERIENCE**

- Prince George's County Police Academy, Six months of State of Maryland Basic Police Training, with 35 hours of in-service training annually. Classroom studies, field training in areas of Criminal Law, Traffic Law, General Investigative training, including accident investigation and witness interviewing.
- Basic and Advanced Accident Investigative Techniques and Collision Reconstruction Training
- Evidence Collection and Preservation Training
- Forensic Photography/Videography Training

## **TEACHING EXPERIENCE**

- Police Training-Prince George's County Police Academy (Guest Instructor), teaching in areas of accident investigation, emergency vehicle operations, pursuit driving, patrol techniques and defensive driving.
- Charles County Community College, La Plata, MD, (Guest Instructor) in areas of Advanced Accident Investigation, Reconstruction and At-Scene Investigative Techniques, Forensic Photography.
- Accident Investigation/Reconstruction Seminars/Mock Trials for Insurance Companies, Claims Adjusters and Practicing Trial Attorneys

## **CERTIFICATIONS**

- Former Certified Law Enforcement Officer, State of Maryland and Prince George's County.
- Professional/Commercial & Forensic Photographer/Videographer (including both film & digital formats)
- Certified Accident Reconstruction Specialist
- Master Automotive Technician/Systems Analyst
- Interim Certification of Qualifications from the Accreditation Commission for Traffic Accident Reconstructionist, (ACTAR)
- Maryland Certified Emergency Medical Technician
- Maryland Emergency Vehicle Operator/Trainer
- Maryland Certified EMS Incident Command Operator
- Maryland Certified EMS Officer
- Maryland Certified Firefighter I & II
- Fire & EMS Safety & Health Officer, Former Deputy Chief of EMS Station
- **Certified Crash Data Retrieval (vehicle black box) Technician and Data Analyst.**

## **RESEARCH ACTIVITIES**

- Research, developed, constructed and field tested several portable "Drag Sleds" for measuring static friction (road/tire surface) coefficient of friction values
- Practical crash testing/dynamics, including the development, production and participation in actual vehicle to vehicle crash testing
- Dynamic friction resistance testing for large vehicle, small vehicles, ABS versus non-ABS braking systems
- Participate in research, development and implementation of a Standardized Training, Testing and Certification process for Accident Investigators.

## **PROFESSIONAL AFFILIATIONS**

- ***National Association of Professional Accident Reconstruction Specialists, Inc (NAPARS)***. Charter member, since 1984, Past National Secretary (1984-1986), National President, (1988-89, and 1996-2004), and member of the Board of Directors since 1989. *Corporate Administrative Officer from 2000 to 2010. Member in good standing since 1984.*
- ***Maryland Association of Traffic Accident Investigators, Inc. (MdATAI)***. One of the founding/charter members since 1984. Served on the Board of Directors (1984-87), Vice President, (1987-89)
- ***Society of Accident Reconstructionist, Inc. (SOAR)***. Member in good standing since 1988.
- ***New York Statewide Traffic Accident Reconstruction Society (NYSTARS, Inc)***, member in good standing since 1997.
- ***Professional Photographers of America (PPA)***: member in good standing since 2006
- ***Accreditation Commission for Traffic Accident Reconstructionist, Inc. (ACTAR)***. Member of the Governing Board of Directors/NAPARS Representative, Past member of the Application Screening Committee, member of the Examination Review Committee and Rotating Examination Proctor (1990 - 1996)
- ***International Network of Collision Reconstructionist (INCR)***, Member in good standing since 2000.
- ***Accident Reconstruction Network (Arc Network)***, Member in good standing since 1999.

## **LOCATIONS OF EXPERT TESTIMONY**

MARYLAND	-	Counties of Prince George's, Allegheny, Baltimore, Cecil, Harford, Calvert, Anne Arundel, Queen Anne's, Charles, Frederick, Garrett, Howard, Montgomery, St. Mary's, Carroll, Washington, and Baltimore City's District and Circuit Courts. And the US Federal District Courts in Greenbelt and Baltimore.
