Litigation Experience

- AVG vs. Microsoft – Patent infringement case. I worked on the 4,761,642 and the 4,694,286 patent cases on behalf of the firm of McKool Smith.
- Harrison vs. Comtech Solutions Worldwide inc. – Software copyright infringement case. I worked on behalf of the firm of Winthrop & Weinstine.
- The Weidt Group vs. Cold Spring Granite company – Software billing dispute. I worked on behalf of the firm of Winthrop & Weinstine.
- Pre-litigation investigation and report for Ogles Law Firm.
- Countryman vs NextMedia – Computer security related dispute. I worked on behalf of the firm of Siebman, Reynolds, Burg, & Phillips
- Virnetx vs. Microsoft – Patent infringement case. I worked on behalf of the firm of McDermott, Will, & Emery. This case involved 3 patents.
- I do occasional pro bono work assisting local law enforcement in computer criminal cases. One point of contact for this has been Detective Jeff Taylor of the McKinney Texas police department.

Education

<u>Year</u>	<u>College or University</u>	<u>Degree</u>
2000	Southeastern Oklahoma State University	Masters of Education
1998	Southeastern Oklahoma State University	B.A.

Additional Graduate work in Computer Science at Northcentral University.
Additional Graduate work in Mathematics at Mountain State University.

Professional Experience

From: 2005
To: Present
Organization: Chuck Easttom Consulting
Title: Chief Consultant
In this time as an independent consultant, I have developed 2 electronic medical records software solutions, several small financial and web based applications, and consulted with various companies on networking and security issues.

From: 2003
To: Present
Organization: Collin County Community College (Professional Development Department)
Title: Adjunct Instructor (Part Time)
I teach professional development courses to IT professionals in programming, web development, networking, and network security. I have also designed computer security courses for the college.

From: 2003
To: 2005
Organization: Great American Insurance Company- Professional Liability Division
Title: Systems Director
Summary: In this position I oversaw all application development, web development, database administration, and network security for a division of an insurance company. This role combined management with hands on work in all of these areas. I was first hired as Systems Manager, then after 12 months promoted to Systems Director. .

From: 2000
To: 2003
Organization: Remington College
Title: Department Chair for Computer Information Systems department
Summary: I was initially hired as an instructor and after 9 months was promoted to associate department chair. After an additional six months, I was promoted to department chair. I taught a variety of computer science courses and managed the Computer Information Systems department. I taught courses in programming, web development, e-commerce, and information security.

From: 1999
To: 2000
Organization: Digital Speech Systems Inc.
Title: Senior Software Engineer
Summary: I began at digital speech as a software engineer and after one year of employment was promoted to senior software engineer. My duties included developing voice mail and related software as well as mentoring new programmers. I worked extensively with C, Visual C++ , SQL Server, and Visual Basic.

From: 1998
To: 1999
Organization: Southeastern Oklahoma State University
Title: Director of Academic Computing
Summary: I began as the Director of Educational Technology for the School of Arts and Letters but then took over the management of the entire universities information systems when I was promoted to the Director of Academic Computing for Southeastern Oklahoma State University. In this position I managed all technical support for the campus as well as all network administration, network security, and web development.

From: 1996
To: 1998
Organization: Alegis Corporation Systems Group
Title: Software Engineer
Summary: I began as a programmer/analyst and after six months was promoted to Software Engineer. I worked developing Windows based financial and collections applications for companies such as Boatman's Bank of St. Louis, Chrysler Financial, and Western Union. I worked extensively with C, C++, and Visual Basic.

From: 1995
To: 1996
Organization: Boeing Aerospace Operations
Title: Contract Programmer/Analyst
