Profile

Certified Safety Professional (C.S.P.) with more than 20 years of practical experience in accident prevention techniques, theory and application. This experience includes occupational safety and health in industry and premise safety and liability for commercial, business recreational and residential properties. Mr. Howarth has a working knowledge of safety codes and standards, such as the Uniform Building Code (U.B.C.) and OSHA standards.

Safety Professional / Expert

Expertise in occupational and public safety, risk management and loss control management with in-depth experience in safety management, workplace OSHA compliance, claims risk management, premises liability and ergonomics.

Mr. Howarth has conducted thousands of accident investigations within industry and at public and private properties. Premises liability include: stairway falls, slip, trip and falls on all types of walking surfaces; ramps; sidewalk displacements; escalators, elevators and automatic doors. Work will include coefficient of friction testing when appropriate. Expertise includes indoor and outdoor lighting surveys for accident prevention and investigation. Expertise also includes development and/or evaluation of safety procedures and policies as they relate to the standard of care.

Regulatory Compliance Expert

Possesses comprehensive knowledge of industry laws and regulations. Hands on experience with Federal and state OSHA regulations. Conversant in DOT, NFPA, ADA and State Workers' Compensation Laws.
