ABOUT ME

Registered nurse with **8+years** of critical care and rapid response experience as well as **24+ years** of cardiac sonography experience. Skilled in analyzing medical records, identifying standards of care and preparing clear, evidence-based case chronologies. Adept at translating complex medical conditions into precise language for attorneys, juries and clients.

EXPERIENCE

• CRITICAL CARE NURSE

Deliver advanced care for medical, surgical, neurological, cardiological and trauma ICU patients.

Implementation and evaluation of advanced medical treatments such as mechanical ventilation, vasoactive medications and hemodynamic support

Collaborate with physicians and risk management on standards of care and documentation

• RAPID RESPONSE TEAM

Respond to critical patient deterioration events across hospital units, initiating immediate life-saving interventions

Review clinical documentation in real time to support accurate diagnosis and care escalation

Identify potential in lapses in care or protocol

• CARDIAC SONOGRAPHER

Collaborate with cardiologists to interpret imaging results and assist in diagnoses of structural and functional heart conditions.

Participate in case reviews involving imaging misreads and quality assurances
