

# CHINEMEREM UGORJI

*Internal Medicine*

## PROFESSIONAL SUMMARY

Internal Medicine physician with 25+ years of clinical and utilization management experience, blending frontline hospitalist practice with medical director and clinical research leadership. Skilled in medical necessity review, inpatient utilization optimization, regulatory compliance, wound care, and data-driven clinical decision-making. Proven ability to lead multidisciplinary teams, manage clinical trials, and deliver clear clinical documentation quality outcomes, clinical expertise and utilization oversight to drive efficient, patient-centered care.

## EMPLOYMENT HISTORY

### IN-PATIENT MEDICAL DIRECTOR

Oct 2025 - Present

*UnitedHealth Group*

- ♦ Led medical necessity and level-of-care reviews to ensure appropriate placement and maintain audit-ready documentation with measurable results.
- ♦ Directed admission and continued-stay management to optimize utilization and reduce unnecessary inpatient days with measurable results.
- ♦ Facilitated peer-to-peer clinical reviews to resolve disputes and improve provider alignment on utilization determinations.
- ♦ Prepared concise clinical summaries for appeals that improved overturn rates and expedited case resolution.
- ♦ Ensured CMS Conditions of Participation compliance through protocol adherence and regular policy audits, improving regulatory readiness.
- ♦ Applied Medicare Two-Midnight Rule criteria to complex cases, clarifying decisions and enhancing audit documentation.
- ♦ Reviewed complex utilization cases and synthesized clinical evidence to support determinations and improve audit readiness.

### RADIOLOGY BENEFITS MEDICAL DIRECTOR

Nov 2024 - Sep 2005

*Evolent Health*

- ♦ Part of utilization management team, focusing on enhancing patient outcomes in a non-clinical setting
- ♦ Case Review: Serving as the physician reviewer for imaging cases that do not initially meet medical necessity guidelines
- ♦ Provider Communication: Discussing determinations with requesting physicians or ordering providers within regulatory timeframes and providing clinical rationale for appeals
- ♦ Guideline Adherence: Utilizing medical and clinical review guidelines to ensure consistency in the review process and compliance with policies and accreditation standards
- ♦ Team Support: Acting as a resource to initial clinical reviewers and participating in ongoing training to maintain inter-rater reliability.
- ♦ Spearheads integration of clinical evidence into reviewer tools to accelerate determinations and support clearer, actionable recommendations for ordering clinicians.
- ♦ Coaches initial reviewers through real-time case debriefs and targeted feedback, fostering reviewer competence and steady gains in adjudication quality.

### INDEPENDENT CONTRACTOR/LOCUMS HOSPITALIST

Oct 2021 - Present

*Memorial Hermann Hospital Katy TX 10/2023-present*
