Curriculum Vitae William C. Easttom II (Chuck Easttom)
chuckeasttom@gmail.com

Education

University Degrees

- **B.A.** Southeastern Oklahoma State University. Major Communications with Minors in Chemistry and Psychology. Extensive coursework in science (chemistry, physics, and biology) as well as specific courses in neuroscience (neurobiology of memory, cognitive science, etc.). Also, additional coursework in computer science including programming and database courses. While attending I was named to the National Dean's List.
- **M.Ed.** Southeastern Oklahoma State University. Coursework included technology related courses such as digital video editing, multimedia presentations, and computer graphics. A statistics course was also part of the coursework. While attending I was named to Who's Who in Colleges and Universities.
- **M.B.A**. Northcentral University in Applied Computer Science. Extensive course work in graduate computer science including graduate courses in C++ programming, C# programming, Computer Graphics, Web Programming, Network communication, Complex Database Management Systems, and Artificial Intelligence. Approximately 30 graduate hours of graduate computer science courses. Additionally, a doctoral level statistics course was included. A semester research project in electronic medical software was also part of the curriculum. I also took several research courses beyond the requirements for the degree.
- **MSSE Master of Science in Systems Engineering**. University of Texas at El Paso. The coursework includes studies in software & system requirements; system integration, verification, and validation; system architecture and design; and systems modeling & simulation. While attending I became a member of Phi Kappa Phi Honor Society and a member of the Gold Key Honor Society.
- **MSDS Master of Strategic and Defense Studies** University of El Paso. Course work includes cyber warfare, information warfare, national security, space operations, low intensity conflict, strategic theory, studies of particular regions (Europe, Asia, Africa, etc.), etc.
- **D.Sc. Doctor of Science** in Cyber Security from Capitol Technology University. The curriculum included a broad coverage of cybersecurity issues. My dissertation topic was "A Comparative Study of Lattice Based Algorithms for Post Quantum Computing". This research focused on analyzing quantum resistant cryptography algorithms.
- **Ph.D. Doctor of Philosophy** in Technology from Capitol Technology University. The focus of this degree was on nanotechnology used in bioengineering. More specifically my studies focused on carbon nanotubes used in bioengineering. Dissertation topic "The Effects of Complexity on Carbon Nanotube Failures". Specifically, this research focused on the impact that complexity in carbon nanotube structures had on the emergence of Stone-Wales defects in the nanotubes. The focus was particularly on nanotubes used in biomedicine such as

genetic engineering and pharmaceutical delivery.

- **Ph.D. Doctor of Philosophy** in Computer Science from University of Portsmouth in England. The emphasis was on computer networking and the application of applied mathematics. Dissertation topic "A Systematic Framework for Network Forensics Using Graph Theory". The study applied a broad spectrum of graph theory tools including algebraic graph theory and spectral graph theory to the modeling of network intrusions.

Industry Certifications

The following is a list of engineering and computer industry certifications I have earned.

Engineering Certifications

Note: some of these appear also in computer industry certifications

1. Associate of Systems Engineering (ASEP) from INCOSE (International Council on Systems Engineering) 275062.
2. Microsoft Certified Systems Engineer (MCSE) Windows Server 2000 Certification Number: A527-9552 (this certification is now retired)
3. EC Council Certified Application Security Engineer - .Net
4. EC Council Certified Application Security Engineer – Java
5. CISSP- ISSEP Information Systems Security Engineering Professional #387731

Hardware and Networking Related Certifications

1. CompTIA (Computer Technology Industry Associations) A+ Certified D76DTT4107
2. CompTIA Network + Certified COMP10163630
3. CompTIA Server+ Certified COMP10163630
4. CompTIA I-Net+ Certified COMP10163630
5. CompTIA Cloud+ Certified COMP001021522764
6. JN0-103 Juniper Networks Certified Associate, Junos JNCIA-Junos
7. Cisco 100-490 Supporting Cisco Routing and Switching Network Devices
8. CompTIA IT Operations Specialist (CIOS) COMP10163630
9. CompTIA Cloud Admin Professional (CCAP) COMP10163630
10. CompTIA Network Infrastructure Professional – CNIP COMP10163630

Operating System Related Certifications

11. CompTIA Linux + Certified COMP10163630
12. CompTIA Systems Support Specialist (CSSS) COMP10163630
13. CompTIA Linux Network Professional – CLNP COMP10163630
14. CompTIA Secure Infrastructure Specialist (CSIS) COMP10163630
15. Microsoft Certified Professional (MCP) – Windows Server 2000 Professional Certification Number: A527-9546

16. Microsoft Certified Systems Administrator (MCSA) Windows Server 2000 Certification Number: A527-9556 (this certification is now retired)
17. Microsoft Certified Systems Engineer (MCSE) Windows Server 2000 Certification Number: A527-9552 (this certification is now retired)
18. Microsoft Certified Technology Specialist (MCTS) Windows Server 2008 Active Directory Microsoft Certification ID: 1483483
19. Microsoft Certified Technology Specialist (MCTS) Windows 7 Microsoft Certification ID: 1483483
20. Microsoft Certified IT Professional (MCITP) Windows 7 Microsoft Certification ID: 1483483 (this certification is now retired)
21. Microsoft Certified Solutions Associate Windows 7 Microsoft Certification ID: 1483483 (this certification is now retired)
22. National Computer Science Academy Windows 8 Certification Certificate : 4787829

Programming and Web Development Related Certifications

23. Microsoft Certified Professional (MCP) – Visual Basic 6.0 Desktop Applications Microsoft Certification ID: 1483483 (this certification is now retired)
24. Microsoft Certified Professional (MCP) – Visual Basic 6.0 Distributed Applications Microsoft Certification ID: 1483483 (this certification is now retired)
25. Microsoft Certified Application Developer (MCAD) - C# Microsoft Certification ID: 1483483 (this certification is now retired)
26. Microsoft Certified Trainer (MCT 2005-2021) Microsoft Certification ID: 1483483
27. Microsoft Certified Technology Specialist (MCTS) Visual Studio 2010 Windows Application Microsoft Certification ID: 1483483
28. Microsoft Certified Technology Specialist (MCTS) Visual Studio 2010 Data Access Microsoft Certification ID: 1483483
29. National Computer Science Academy HTML 5.0 Certification Certificate : 4788000.
30. National Computer Science Academy ASP.Net Certification Certificate : 4788342
31. Certified Internet Webmaster (CIW) Associate CIW0163791
32. EC Council Certified Application Security Engineer - .Net
33. EC Council Certified Application Security Engineer – Java
34. Dynamics 365 Business Central Functional Consultant Associate
35. Microsoft Dynamics 365 Fundamentals Microsoft Certification ID: 1483483
36. Microsoft Certified: Azure AI Fundamentals Microsoft Certification ID: 1483483

37. Section 508 Standards for Web (Web accessibility course/certification from US DOJ Civil Rights Division).
38. What is Section 508 and Why Is It Important (Web accessibility course/certification from US DOJ Civil Rights Division).
39. Certified Secure Software Lifecycle Professional (CSSLP) 387731
40. Certified Professional in Accessibility Core Competency (CPACC) Certification Number 24JFCWE059

Database Related Certifications

41. Microsoft Certified Database Administrator (MCDBA) SQL Server 2000 Microsoft Certification ID: 1483483 (this certification is now retired)
42. Microsoft Certified Technology Specialist (MCTS) Implementing SQL Server 2008 Microsoft Certification ID: 1483483
43. Microsoft Certified IT Professional (MCITP) SQL Server Administration Microsoft Certification ID: 1483483
44. DP-203 - Data Engineering on Microsoft Azure Microsoft Certification ID: 1483483
45. CompTIA Data+ (Data mining and Data science certification)
46. CompTIA DataSys+

Security and Forensics Related Certifications

47. CIW Certified Security Analyst CIW0163791
48. EC Council Certified Ethical Hacker v5 (CEH) ECC942445
49. EC Council Certified Hacking Forensics Investigator v4 (CHFI) ECC945708
50. EC Council Certified Security Administrator (ECSA) ECC947248
51. EC Council Certified Encryption Specialist (ECES)
52. EC Council Certified Instructor
53. CISSP – Certified Information Systems Professional #387731
54. CISSP – ISSAP – Certified Information Systems Architecture Professional #387731
55. CISSP – ISSEP Information Systems Security Engineering Professional #387731
56. CISSP – ISSMP Information Systems Security Management Professional #387731
57. CCFP – Certified Cyber Forensics Professional #387731 (Certification has been retired)
58. Certified Criminal Investigator (CCI) 2015-2017
59. Forensic Examination of CCTV Digital VTR Surveillance Recording Equipment
60. Oxygen Phone Forensics Certified
61. Access Data Certified Examiner (ACE) 2014-2017
62. OSForensics Certified Examiner (OSFCE)
63. Certified Forensic Consultant (CFC) 2015-2017
64. CompTIA Certified Advanced Security Practitioner (CASP) COMP10163630

65. CompTIA Certified Cybersecurity Analyst (CySA+) COMP001021522764
66. CompTIA Pentest+ COMP001021522764
67. CompTIA Security+ COMP001021522764
68. CompTIA SecurityX COMP001021522764
69. CompTIA Security Analytics Specialist-CSAP COMP001021522764
70. CompTIA Secure Cloud Professional-CSCP COMP001021522764
71. CompTIA Network Vulnerability Assessment Professional-CNVP COMP001021522764
72. CompTIA Security Infrastructure Expert -CSIE COMP001021522764
73. CompTIA Security Analytics Expert-CSAE COMP001021522764
74. CompTIA Security Network Professional – CNSP
75. JN0-230 – Juniper Security Associate (JNCIA-SEC)
76. JN0-334 – Juniper Security Specialist (JNCIS-SEC)
77. JN0-635 – Juniper Security, Professional (JNCIP-SEC)
78. Certified Cloud Security Professional (CCSP) 387731
79. SC-300 - Microsoft Identity and Access Administrator

Software Certifications

80. National Computer Science Academy Microsoft Word 2013 Certification Certificate : 5078016
81. National Computer Science Academy Microsoft Word 2000 Certification Certificate: 5078187

Other Certifications

82. CompTIA Project+ COMP10163630

Licenses

Texas State Licensed Private Investigator. Registration Number 827827. Associated with Allegiant Investigations & Security License Number: A18596

81. Easttom, C. (2025). Malicious Use of Artificial Intelligence. IEEE 15th Annual Computing and Communication Workshop and Conference (CCWC).
82. Lee, B., Easttom, C. (2025). A Novel Framework for Malware Analysis: Integrating Large Language Models with Heuristic Techniques. IEEE 15th Annual Computing and Communication Workshop and Conference (CCWC).
83. Easttom, C. (2025). Quantum Resistant Cryptography and Cyberwarfare. ICCWS, 20th International Conference on Cyber Warfare and Security.
84. Easttom C. (2025). Understanding Deepfakes and Countermeasures. ICCWS, 20th International Conference on Cyber Warfare and Security.

Patents

1. U.S. Patent No. 8,527,779 B1 Method and apparatus of performing distributed steganography of a data message.
2. U.S. Patent No. 8,713,067 Stable File System
3. U.S. Patent No. 8,819,827 B1 Method and apparatus of performing data executable integrity verification.
4. U.S. Patent No. 8,825,845 B1 Managing a network element operating on a network.
5. U.S. Patent No. 8,825,810 B1 Domain name service based remote programming objects.
6. U.S. Patent No. 8,984,639 Method and apparatus of performing data executable integrity verification.
7. U.S. Patent No. 9,405,907 Method and apparatus of performing data executable integrity verification (a continuation patent of '639)
8. US Patent No. 9,313,167 Domain name service based remote programming objects.
9. US Patent No. 9,619,656 Method and apparatus of performing distributed steganography of a data message (continuation patent of 8,527,779 B1)
10. US Patent No. 9,686,227 Domain Name Service based remote programming objects (continuation patent of U.S. Pat. No. 9,313,167)
11. US Patent No. 9,755,887 Managing a network element operating on a network.
12. US Patent No. 9,754,108 Method and apparatus of performing data executable integrity verification.
13. US Patent No. 9,753,957 System and method for document tracking
14. US Patent No. 9,984,229 Method and apparatus providing a multiple source evidence application trust model.

15. US Patent No. 10,122,573 Managing a network element operating on a network.
16. US Patent No. 10,242,188 Method and apparatus of performing data executable integrity verification.
17. US Patent No. 10,360,354 Method and apparatus of performing distributed steganography of a data message. A continuation patent of U.S. Pat. No. 9,619,656.
18. U.S. Patent No. 10,469,441 Domain name service based remote programming objects. A continuation patent of U.S. Patent 9,686,227.
19. U.S. Patent No. 10,467,208 System and method for document tracking. A continuation patent of U.S. Patent 9,753,957.
20. US Patent No. 10,621,149 Stable File System. A continuation patent of U.S. Pat. No. 8,713,067.
21. U.S. Patent No. 10,635,815 Method and apparatus of performing data executable integrity verification.
22. U.S. Patent No. 10,708,118 Managing a network element operating on a network.
23. U.S. Patent No. 11,080,396 Secure Downloads
24. U.S. Patent No. 11,165,629 Managing a network element operating on a network.
25. U.S. Patent No. 11,204,999 Method and apparatus of performing data executable integrity verification.
26. US Patent 11,775,477 Stable file system. A continuation patent of U.S. Pat. No. 8,713,067.
27. US Patent 12,155,523 B1 Managing a Network Element Operating on A Network

Standards and Certification Creation

1. Chair of IEEE P3123 Standard for Artificial Intelligence and Machine Learning (AI/ML) Terminology and Data Formats from 2021 to 2024.
2. Vice Chair of IEEE P23026 - Systems and Software Engineering -- Engineering and Management of Websites for Systems, Software, and Services Information from 2018-2021.
3. Member of IEEE Software & Systems Engineering Standards Committee. Working on DevOps 2675 from 2017-2020.
4. Member of the IEEE Engineering in Medicine and Biology Standards Committee. Standard for Unified Terminology for Brain-Computer Interfaces P2731.
5. Member of IEEE Artificial Intelligence Standards Group

1. Editor in Chief for the *American Journal of Science and Engineering 2017 to 2022*
2. Editorial board for the Journal Artificial Intelligence in Medical Imaging
3. Editorial Review Board for *International Journal of Cyber Warfare and*

Terrorism (IJCWT)

4. Reviewer for Journal of Modern Mechanical Engineering and Technology – EBM
5. Reviewer for scientific papers submitted to *IEEE Security & Privacy* and the *IEEE Open Access Journal*.
6. Reviewer for the *International Journal of Network Security (IJNS) 2018-2019*
7. Reviewer for the *International Journal of Computer Science and Security (IJCSS) 2018-2019*
8. Reviewer for the *Journal of Information Warfare (JIW*) for 2019
9. Reviewer for scientific papers submitted to *Digital Forensics magazine* for 2016 to 2018.
10. Editorial board member for the year 2016 for *Journal of Information Security Science & Digital Forensics.*
11. Editorial board for the year 2016 member for *The Forensic Examiner*.
12. Subject matter expert for the Computer Technology Industry Association (CompTIA) Server + exam creation team. I was part of the team that helped create the CompTIA Server+ certification test.
13. Subject matter expert for the Computer Technology Industry Association (CompTIA) Linux+ exam review team. I was part of the team that helped create the CompTIA Linux+ certification test.
14. Subject matter expert for the Computer Technology Industry Association (CompTIA) Security+ exam Job Task Analysis team. I was part of the team that helped create the CompTIA Security+ certification test.
15. Subject matter expert for the Computer Technology Industry Association (CompTIA) Certified Technical Trainer exam revision team.
16. Created the EC Council Certified Encryption Specialist course and certification test. Then I revised the course and certification in 2017.
17. Created the EC Council CAST Advanced Encryption course.
18. Created the EC Council advanced forensics courses for Dark Web investigations; Memory and Malware Forensics; and Cell Phone Forensics.
19. Created the EC Council IoT and IoT security courses.
20. Worked on the Job Task Analysis Team for the Certified Ethical Hacker v8 test.
21. Created the video courses for EC-Council CASE (Certified Application Security Engineer) courses for Java and .Net.
22. Member of the advisory board for Embry Riddle University cyber security program within the Homeland Security degree program 2016-2018.
23. Created the OSCFE (OS Forensics Certified Forensic Examiner) course and test.
24. Advisory board committee for your DOE- National Nuclear Security Administration (NNSA)'s solicitation, "Minority Serving Institution Partnership Program (MSIPP), title TAMUK Cybersecurity Minor / Certificate Program for DOE / NNSA Workforce. Texas A&M University Kingsville.

Professional Awards and Memberships

1. Participated in the University of Arizona Research Leadership Institute (RLI), mentoring a younger professor in launching a research career.
2. Participated in the 2nd Lt J.P. Blecksmith Research Fellowship program, mentoring a Lieutenant in developing research.
3. Distinguished Speaker of the Association of Computing Machinery (2017 to 2020)
4. Distinguished Visitor of the IEEE Computer Society (for the term of 1 January 2020 through 31 December 2022)
5. Senior Member of the IEEE (Institute of Electronics and Electrical Engineers) 92862378
6. Senior Member of the ACM (Association of Computing Machinery) 0447967
7. Member of the ACM Special Interest Group on Artificial Intelligence
8. Member of the International Association of Cryptological Research (IACR)
9. International Association of Accessibility Professionals
10. Member of the ACM Special Interest Group on Security, Audit and Control
11. Member of the IEEE Nanotechnology Society
12. Member of the IEEE Engineering in Medicine and Biology Society
13. Member of the International Council of Systems Engineers (INCOSE) 275062
14. Affiliate Member of the National Academy of Forensic Engineers
15. Member of the American Physical Society (APS). Member of both the Quantum Information and Nuclear Physics divisions from 2018 to 2023.
16. Member of the Association for the Advancement of Artificial Intelligence
17. Associate Member of the American Academy of Forensic Sciences (2015 to 2018)
18. Member of InfraGard (FBI-Civilian group for cyber security) 2013- 2019
19. 1992-1993 National Dean’s List
20. Who's Who in American Colleges and Universities 1998
21. Marquis Who's Who in America
22. Marquis Who’s Who in Education
23. Marquis Who’s Who in Science and Engineering
24. Phi Kappa Phi Honor Society # 12618300
25. Gold Key Honor Society #900058595

Speaking Engagements

1. Mid-Cities PC Users Group September 19, 2003. The topic was computer security

in general.

2. The Harvard Computer Society April 5, 2004. The topic was computer security.
3. The ACM Chapter of Columbia University November 15, 2005. The topic was computer viruses.
4. DeVry/Keller University in Dallas December 2009 Commencement Speaker.
5. Public presentation on computer crime in McKinney Texas in July 2008.
6. Southern Methodist University Computer Science and Engineering Colloquium September 2010. The topic was organized computer crime and computer terrorism. I was an invited speaker.
7. Takedowncon security conference in Dallas Texas, May 2011. The topic was steganography. I was an invited speaker. This included image, audio, and video steganography.
8. An Overview of Modern Cryptography, May 5, 2011, Webinar
9. CAST Conference in Washington D.C. August 2011. The topic was Cryptography: Feistel Ciphers. The audience was primarily Department of Defense personnel and contractors. I was an invited speaker.
10. Digital Certificates: An Expert View, January 12, 2012, Webinar
11. Takedown security conference in Dallas Texas, May 2012. The topic was RSA cryptography. I was an invited speaker.
12. Problems with RSA, November 4, 2012, Webinar
13. Takedowncon security conference in Huntsville Alabama, July 15, 2013. The topic was cryptanalysis. The audience was primarily Department of Defense personnel and contractors. I was an invited speaker.
14. September 25-26, I conducted a 2-day master class in hacking techniques, in Singapore for Clariden Global. I was an invited speaker.
15. March 2014, I conducted a presentation for the University of Texas ACM chapter. The topics were distributed steganography and cryptographic backdoors.
16. May 26-27, 2014. I conducted a 2-day workshop in software testing in Singapore for Clariden Global. I was an invited speaker.
17. June 2014, I conducted a public talk on computer crime and internet safety in Melissa Texas, sponsored by the Melissa Police Department.
18. October 1, 2014, presentation of a talk on cryptographic backdoors at the ISC2 Security Conference in Atlanta Georgia.
19. October 5, 2014, presentation of a talk on cryptographic backdoors at the Hakon convention in Indore, India. I was an invited speaker.
20. October 17, 2014, U.S. Secret Service, North Texas Electronic Crimes (N-TEC) Task Force presenting a talk on the history and current state of computer crime. I was an invited speaker.
21. November 7, 2014, North Texas Crime Commission-Healthcare Cyber Security Symposium presenting a talk on health care breaches. I was an invited speaker.
22. January 27, 2015: Collin County Sheriff's Alumni Association. "Cybercrime and online predators".
23. April 14, 2015, Brighttalk webinar "What you don't know about Cryptography and how it can hurt you".
24. May 4, 2015, North Texas Crime Commission-Healthcare Cyber Security Symposium presenting a talk on the causes and remediation of health care

breaches. I was an invited speaker.

25. May 12, 2015, SecureWorld Houston “What you don’t know about Cryptography and how it can hurt you”.
26. August 20, 2015. Southwest Financial Crimes Forum “7 biggest mistakes of incident response.” I was an invited speaker.
27. September 30, 2015, ISC2 Security Congress “Cryptanalysis for Forensics”.
28. October 3, 2015. Conducted a 1-day workshop in Malware at Hakon India. I was an invited speaker.
29. October 4, 2015. Hakon India Indore India. 2015 “Cyberwar and Terrorism”.
30. November 4, 2015, iSMG Fraud Summit in Dallas Texas “Business Email Masquerading: How Hackers Are Fooling Employees to Commit Fraud”. I was an invited speaker.
31. November 5, 2015, SWACHA Electronic Payments Summit in Irving Texas “Emerging Trends in Cyber Crime”. I was an invited speaker.
32. May 25, 2016 “Improving Professional Standards in Cyber Forensics” Keynote speaker for Association of Digital Forensics Security and Law. I was an invited speaker.
33. June 22, 2016, the topic was “Cyber Security Issues Facing Business” Texas Security Bank Business Institute meeting. I was an invited speaker.
34. August 4, 2016 “Steganography: The in’s and Out’s” DefCon 24, Las Vegas. This included image, audio, and video steganography.
35. September 12, 2016, USMCOC Third North American Sustainable Economic Development Summit Cyber Security, Information Technology & Innovation Panel. I was an invited speaker.
36. September 13, 2016, Tarleton State University CyberSecurity Summit at the George W. Bush Institute. The topic was "A template for incident response". I was an invited speaker.
37. September 28, 2016, Secure World Dallas. A presentation on "Analyzing Forensic Evidence -Applications of graph theory to forensic analysis”.
38. October 2, 2016, Hakon India (Indore India). A presentation on “The Dark Web Markets – Implications for Law Enforcement and Counter Terrorism”. I was an invited speaker.
39. October 18-19, 2016, Jordan Cyber Security & Forensics Forum (JCSFF-2016) Presenting two presentations. The topics were “Zero Day Exploits” and “How to forensically analyze Zero Day Exploits”. I was an invited speaker.
40. December 1-2. I conducted a 2-day advanced workshop on cyber-threat intelligence in Singapore for Clariden Global. I was an invited speaker.
41. January 17, 2017, the 2nd International Congress of the International Association of Law and Forensic Science (IALFS), in Cairo Egypt January 17, 18, 19. The topics were “Improving Digital Forensics” and “Applying Graph Theory to Model Forensic Examinations”. I was an invited speaker.
42. February 11, 2017. North Texas Cyber Security Association bimonthly meeting. Speaking on Dark Web Markets and their impact for law enforcement and intelligence agencies. Plano Texas Collin College Courtyard Campus.
43. February 17, 2017. American Academy of Forensic Sciences 69th Annual Meeting. Speaking on a novel approach JTAG phone forensics.

44. March 3, 2017. University of North Texas. A presentation on Applying Graph Theory to Analyzing Digital Evidence.
45. May 24, 2017. Enfuse 2017 conference in Las Vegas. A presentation on Applying Graph Theory to Analyzing Digital Evidence.
46. July 27, 2017. Defcon 25 2017 conference in Las Vegas. A presentation entitled "Windows: The Undiscovered Country" on undocumented features of Windows and SQL Server that can be used for hacking and penetration testing.
47. September 25, 2017, ISC2 Security Congress in Austin Texas. A presentation on" Applying Graph Theory to Analyzing Digital Evidence".
48. September 27 and 28, 2017. Secure Jordan conference in Amman. I presented two talks. The first is "An overview of current challenges in phone forensics". The second is "How to address dark web markets".
49. October 18-19 SecureWorld Dallas 2017. A presentation on "Cryptography, what you don't know and how it can hurt you".
50. January 8 to 10th Annual IEEE Computing and Communication Workshop at the University of Nevada in Las Vegas, a presentation on my paper "A Generalized Methodology for Designing Non-Linear Elements in Symmetric Cryptographic Primitives". I also chaired a session on Artificial Intelligence, and another session on Computer Architecture and VLSI.
51. February 2018, Provost Marshal General's Annual Army Worldwide Antiterrorism Training Seminar. I spoke on terrorism and the dark web.
52. March 8 to 9 ICCWS conference (13th International Conference on Cyber Warfare and Security) presenting my paper "The Role of Weaponized Malware in Cyber Conflict and Espionage". Also presenting a research poster on "A Modified McCumber Cube as a Basis for a Taxonomy of Attacks"
53. March 23, 2018, presenting "Penetration Testing as a Profession Rather than a Dark Art". at the ISC2 Dallas Chapter Meeting in Murphy Texas.
54. April 11, 2018, University of Texas at Dallas ACM chapter hosted my Distinguished Speaker of the ACM Talk "Quantum Computing and Lattice Based Cryptography."
55. May 7, 2018, Princess Sumaya University for Technology in Amman Jordan hosted my Distinguished Speaker of the ACM Talk "Applying Graph Theory to Digital Forensics."
56. May 17, 2018. SecureWorld Houston 2018. Presentation on "Quantum Computing and Cryptography."
57. May 17, 2018, speaking on "Quantum Computing and Post Quantum Cryptography" at SecureWorld Houston.
58. September 17-19, 2018, I presented presenting "Dark Web Market Investigations" at the San Antonio Techno Security & Digital Forensics Conference
59. September 25, 2018, I presented "Dark Web Market Investigations" at the Global Security Exchange (GSX) 2018 (formerly the Annual Seminar and Exhibits) in Las Vegas Tuesday, September 25, 2018 (11 am Session 5127)
60. October 8-10, 2018 "An exploration of quantum computing and post quantum cryptography" ISC2 Security Congress in New Orleans.
61. October 10-11, 2018, speaking on "Quantum Computing and Post Quantum Cryptography" at SecureWorld Dallas.

62. October 23-24, 2018, IEEE International Symposium on Technologies for Homeland Security. Presenting my paper "A Systems Approach to Indicators of Compromise Utilizing Graph Theory"
63. January 7-9, 2019. On 9 January at 10:30 I was the keynote speaker at the IEEE CCWS conference in Las Vegas presenting a talk on "The impact of complexity and emergent properties on engineering". During the conference I am also presenting my papers "A Modified McCumber Cube as a Basis for a Taxonomy of Cyber Attacks" and "An Analysis of Leading Lattice-Based Asymmetric Cryptographic Primitives"
64. February 11th, an invited talk on "Application of Graph Theory for Digital Forensics" at Seton Hall University.
65. March 7-8, 2019, The International Conference on Data Sciences, Security and Applications (ICDSSA, 2019) Delivering two invited talks: "Overview of Cryptographic Backdoors" and "S-Box Design in symmetric cryptographic primitives" as part of the Distinguished Speakers of the ACM program.
66. March 14-15, 2019. Future of Information and Communication Conference (FICC) 2019 in San Francisco. I presented my Distinguished Speaker of the ACM talk: "Quantum Computing and Lattice Based Cryptography" as an invited keynote speaker.
67. April 4, 2019, Cyberintelligence Summit - Identifying Emerging Threats & Defenses. Fayetteville Arkansas. Speaking on "What Computer Science and Digital Forensics Can and Cannot Do for You in any Case". This is at the University of Arkansas School of Law, Fayetteville, Arkansas.
68. April 5, 2019, Cyberintelligence Summit - Identifying Emerging Threats & Defenses. Fayetteville Arkansas. Speaking on "What Computer Science and Digital Forensics Can and Cannot Do for You in any Case". This is at the Arkansas Bar Center, Little Rock, Arkansas.
69. May 23-24, 2019. ACM Colloquium on Information Assurance, Cybersecurity, and Management CIACAM in Minneapolis. Delivered my Distinguished Speaker of the ACM talk on "Quantum Computing and Lattice Based Cryptography".
70. September 27-28. ICCSIE –International Conference on Computer Science and Information Engineering in Beijing China. Presenting two papers as well as a keynote address "The current state of Quantum Computing"
71. October 11, 2019. Hacker Halted, presenting a talk on "The State of Dark Web Investigations".
72. October 26, 2019, Colloquium on Analytics, Data Science and Computing (CADSCOM 2019). Keynote talk on Quantum Computing and AI.
73. October 28-30, 2019. ISC2 Security Congress. Presenting on machine learning and cybersecurity.
74. November 6, 2019. IEEE Quantum Education Summit 2019. Speaking on master's degree curriculum in quantum computing.
75. February 26-27, 2020. 5th International Conference on Quantum and Particle Physics in London, England. Delivering a talk entitled "Space-Time and Gravity as Emergent Quantum Properties."
76. September 2, 2020, National Centers for Academic Excellence invited talk:

"Quantum Computing and how it relates to security."

77. September 10, 2020. International IOT, Electronics and Mechatronics Conference Delivering a keynote address "The impact of complexity and emergence on engineering."
78. November 19, 2020. Distinguished Visitor of the IEEE talk on "The impact of Emergence, Nonlinear Dynamics, and Chaos Theory on Engineering."
79. December 18, 2020. US-Korea Conference Sustainable Development & the Future. I am an invited speaker presenting on "Applications of Machine Learning to BCI (Brain Computer Interface)"
80. February 12, 2021. Arizona ISACA Meeting. I spoke on criminal activity on the Dark Web.
81. 24 February 2021. "The Current Status of Quantum Computing" This is an IEEE Distinguished Visitor Program talk presented to the IEEE Region 4.
82. 25 March 2021. "The Current Status of Quantum Computing" This is an IEEE Distinguished Visitor Program talk presented to IEEE Rock River Valley Computer Society chapter and IEEE Rock River Valley Section and IEEE Women in Engineering.
83. 25 April 2021 “Applications of Machine Learning to Cybersecurity” GIDS 2021 conference.
84. September 21, 2021. Delivered a talk on Quantum Resistant Cryptographic Algorithms for the Silicon Valley/SF Bay Area IEEE Computer Chapter.
85. October 5, 2021. Delivered a talk at Hacker Halted on The Impact of Machine Learning on Cybersecurity.
86. October 27, 2021, Keynote speaker at CIIS2021 conference. Delivered a talk on Bringing Mathematical Rigor to Cybersecurity.
87. December 3-5, 2021, Keynote speaker at International Symposium on Automation, Information and Computing (ISAIC 2021) Delivering a talk on Fuzzy logic and its impact on machine learning and AI.
88. October 3, 2022, Speaker at Hacker Halted on the topic of Quantum Computing and its impact on cybersecurity.
89. December 08, 2023, Speaker at an ICAC Conference. ICAC is the Internet Crimes Against Children task force. I spoke on malicious applications of artificial intelligence and machine learning.
90. January 10, 2024, Speaker at ICAC national conference. ICAC is the Internet Crimes Against Children task force. I spoke on malicious applications of artificial intelligence and machine learning.
91. March 1, 2024, Speaker at Indiana ICAC meeting. ICAC is the Internet Crimes Against Children task force. I spoke on malicious applications of artificial intelligence and machine learning.
92. October 30, 2024, Keynote speaker at Hacker Halted 2024 “AI uses by malicious actors.”
93. February 18, 2025. "The Future of Computing: Exploring Quantum Leaps and Incremental Advances" – IEEE Distinguished Lecturer Program IEEE Computer Society, Mohan Babu University India.
94. May 20, 2025 “The current state of quantum computing and cryptography” – IEEE Distinguished Lecturer Program IEEE Computer Society, IEEE

CS/CIS Montreal Chapter.

Litigation Support Experience

I have worked for both plaintiffs and defendants in computer science related cases. These cases include software copyright, trade secret cases, patent cases, and computer crime related cases. In patent cases I have opined on both infringement and validity issues. I have also testified as to the valuation of computer software.

1. 2004-2005 AVG v. Microsoft, consulting for the firm of McKool Smith on behalf of the plaintiff AVG. This was a patent infringement case involving six patents. I was the testifying expert for one patent (the '286 patent) and a consulting expert for the others. This case involved software analysis for several hundred gigabytes of software source code as well as preparation of claim charts. This case concluded.
2. 2006 Harrison v. Comtech Solutions Worldwide Inc., consulting for the firm of Winthrop & Weinstein on behalf of Comtech Solutions. This was a software copyright infringement case. I was a consulting expert for this case.
3. 2006 The Weidt Group v. Cold Spring Granite Company, consulting for the firm of Winthrop & Weinstein on behalf of The Weidt Group. This was a software copyright infringement case. I was a consulting expert for this case. This case concluded.
4. 2008 Countryman v. NextMedia Inc., consulting for the firm Siebman, Reynolds, Burg, & Phillips on behalf of the plaintiff, Countryman. This case involved an alleged breach of network security. I was a testifying expert; the case settled before trial.
5. 2008-2009 Virnetx v. Microsoft, consulting for the firm of McDermott, Will, and Emery on behalf of the plaintiff Virnetx. This was a patent infringement case. This case involved software analysis for several hundred gigabytes of software source code. I was a consulting expert for this case. The case went to trial in 2010.
6. Virnetx v Apple, case 6:10-cv-00417 consulting for firm of McDermott, Will, and Emery on behalf of the plaintiff Virnetx. This was a patent infringement case. This case involved software analysis for several hundred gigabytes of software source code. I was a consulting expert for this case.
7. 2010 SSL Services LLC v. Citrix Systems Inc., consulting for the firm of Dickstein and Shapiro LLC on behalf of the plaintiff SSL Services. This was a patent infringement case. I was a consulting expert for this case. Case No. 2-08-cv-158 (E.D. Tex.).
8. 2009-2012 Uniloc v. multiple defendants, consulting for the firm of Ethridge Law Group on behalf of Uniloc. This was a patent infringement case. I consulted and performed the analysis of over 100 potential defendants, determining if the products in question infringed. This involved analyzing the

software utilizing standard network forensics techniques as well as reviewing source code. The case also required me to prepare over 100 claim charts. This was a patent case. Case numbers including No. 6:14-cv-00415 (E.D. Tex.) (ArcSoft, Inc.), No. 6:14- cv-00420 (E.D. Tex.) (Canon U.S.A., Inc.), No. 6:14-cv-00424 (E.D. Tex.) (Embarcadero Technologies, Inc.).

9. 2011-2012 Virnetx v. Cisco et al.; Virnetx v Mitel, et al., consulting for the firm of McKool Smith on behalf of Virnetx. This was a patent infringement case. I was a consulting expert for this case. This case involved software analysis for over 20 gigabytes of software source code for various Cisco products. This was a patent case. I also worked on the related Alcatel case and reviewed source code for those products as well. Case No. 6:10-cv-00417 (E.D. Tex.)
10. 2011 Parallel Networks v. Abercrombie & Fitch, multiple defendants, and multiple law firms on behalf of approximately 80 defendants. This was a patent infringement case. Most of the defendants I was working on behalf of won summary judgement Case No. 6:10-cv-00111 (E.D. Tex.). This case concluded.
11. 2011 Nuance v. Vlingo, consulting for the firm of Hays, Bostic, & Cronnin, on behalf of Vlingo. This was a patent infringement case. I was a consulting expert for this case that involved extensive source code review. Case No. 1:09-cv-11414 (D. Mass.). This case concluded.
12. 2011 Eolis v. Adobe Systems Inc., et al., Consulting for the firm of Locke, Lord, Bissel, and Liddell on behalf of defendant Citibank. This was a patent infringement case. I was a consulting expert for this case. Case No. 6:09-cv-00446 (E.D. Tex.). Case settled.
13. 2012 Smartphone case v. Apple on behalf of the firm of Hayes, Bostic, and Cronin on behalf of Smartphone. This was a patent infringement case. I was a consulting expert for this case. This was a patent case. As part of my work on this case I reviewed Apple iOS source code. Case No. 6:13-cv-00196 (E.D. Tex.). Case settled.
14. 2012 Smartphone case v. Android (HTC and Sony) on behalf of the firm of Nelson, Bumgardner, and Castro on behalf of Smartphone. This was a patent infringement case. I was a consulting expert for this case. As part of my work on this case I reviewed source code for several Android based phones. This was a patent case. Case No. 6:10-cv-00580 (E.D. Tex.). Case settled.
15. 2012-2013 Market One Models v. Tekcenture. For the plaintiff. This was a software copyright infringement case. This case also involved valuation of software and intellectual property. I was a testifying expert in this case. The case was settled during trial. Dallas County CAUSE NO. CC-10-05682-A.
16. 2012-2013 Allstate v. Nationwide consulting for the firm Banner & Whitcoff, on behalf of AllState. This was a patent infringement case; I was a consulting expert for this case. 124. William Childers v. Cox Communications. National Arbitration and Mediation Case No. 1000266371. Hired by the firm of Taylor-Copeland Law

for the plaintiff. This is a cybersecurity case. Case settled.

125. Technology Ventures, LLC v Vyla, INC., a Colorado Corporation. Hired on behalf of the plaintiffs. JAG Case No.: 2024-0438A. The case went to arbitration.
126. IonQ vs. Patrick Yang. Hired by the firm of Quinn Emanuel. This is a trade secrets case.
127. Adeia Guides INC. v Videotron (Canadian Court). Hired by the plaintiffs' attorney Goodmans LLP. This is a patent infringement case.
128. Mary Heather McAfee, Zaher Murray and George Wright, On Behalf of Themselves and All Similarly Situated Individuals, Plaintiffs in The United States District Court for The Eastern District of Virginia Richmond Division Civil Action No. 3:23-Cv-439 V. Meridianlink, Inc., Defendant. Hired by the firm of Berger Montague on behalf of the plaintiff. This case relates to cybersecurity issues.
129. Edge Networking Systems LLC v. Amazon.Com, Inc., et al. in support of IPR OF U.S. Patent No. 11,695,823. Hired by the firm of Latham & Watkins LLP.
130. Intellectual Ventures v American Airlines and Southwest Airlines in support of the IPR of U.S. Patent No.7,324,469. Hired by the firm of McKool Smith.
131. Intellectual Ventures v American Airlines and Southwest Airlines in support of the IPR IPR2025-00987 of U.S. Patent No. 8,407,722. Hired by the firm of Munck Wilson Mandala LLP
132. Intellectual Ventures v American Airlines and Southwest Airlines in support of the IPR2025-00987 of U.S. Patent No. 8,027,326. Hired by the firm of Munck Wilson Mandala LLP.
133. XMISSION, L.C., A Utah Company Vs PRIMAL HEALTH, LP,UNITED STATES DISTRICT COURT DISTRICT OF UTAH, CENTRAL DIVISION Case No.: 2:21cv539-HCN-JCB. The case involves the CAN-SPAM act. Hired by the firm of Cameron Ringwood for the plaintiff.
134. April Kay Moore, Yvette Mckinley, Kimberly Joy, individually and on behalf of all others similarly situated v Centrelake Medical Group, Inc Superior Court for the State of California County Of Los Angeles. This was a cybersecurity breach case. I was hired by the firm of Wilshire Law Firm, PLC on behalf of the plaintiff. Case has settled.
135. Cognipower LLC vs Fantasia Trading, LLC D/B/A ANKERDIRECT and Anker Innovations Limited in The United States District Court for The District of Delaware. C.A. No. 19-cv-2293-JLH-SRF. Hired by the firm of Nixon Peabody LLP for the defendant. My role was a digital forensics examination. My role in the case has concluded.
136. Courtney Garner, Jeryl Luciani, and Michael CRAIN, on behalf of themselves and a class of similarly situated person v. AT&T, INC., Hired by Levin Sedran & Berman on behalf of the plaintiff. This was a cybersecurity breach case. Case has settled.
137. RFCyber Corp. v. Starbucks Corporation, Case No. 2:24-cv-00550-JRG

(lead case). Hired on behalf of the defendants Electrify America, LLC ("Electrify America"); Starbucks Corporation ("Starbucks"); and The Kroger Co. ("Kroger") by the law firms Sterne, Kessler, Goldstein & Fox P.L.L.C.; Ropes & Gray LLP; Pillsbury Winthrop Shaw Pittman. This is a patent infringement case.

Testifying Experience

I have testified at 72 depositions,12 trials, 4 arbitrations, and 9 hearings. Specifics are listed below.

1. May 2, 2025. My deposition was taken in the matter of Western Digital Technologies, Inc. v Viasat, Inc., United States District Court Northern District of California Oakland Division Case No.: 4:22-Cv-4376-Hsg
2. February 5-6, 2025, I testified at the trial of Adeia Guides INC. v Videotron (Canadian Court).
3. October 14, 2024, I testified at the arbitration of Technology Ventures, LLC v Vyla, INC.
4. August 13, 2024, my deposition was taken in the matter of Mastercard Incorporated and Mastercard International Incorporated Petitioner v Ov Loop, INC. IPR2023-01289.
5. June 28, 2024, my deposition was taken in the matter of Childers v Cox Communications.
6. May 5, 2024, my deposition was taken in the matter of Gabriela Miguel, Emilio Pensadof Jr., And Robert Herrera, Individually, and on Behalf of All Others Similarly Situated, v Apple Inc. Superior Court for The State of California County of Los Angeles Case No. 21STCV08348.
7. January 10, 2024, testified in the arbitration hearing regarding Blue Bear Waste Services, LLC, v Bond Enterprises, INC.
8. December 20, 2023, my deposition was taken in the matter of Convexity Limited, v Ivan Novikov, Wallarm, INC.
9. November 28, 2023. My deposition was taken in the matter of Blue Bear Waste Services, LLC, v Bond Enterprises, INC.
10. November 21, 2023. I testified in a hearing in the matter of BaseCap Analytics Inc., v Robert Amenn, United States District Court Southern District Of New York, case 1:23-cv-09370-MKV.
11. November 14, 2023. My deposition was taken in the matter of Ceiva Opco, LLC v Amazon.Com Inc in The United States District Court Central District of California
12. November 7, 2023. My deposition was taken in the matter of Juan Alcazar v Fashion Nova Inc.

13. October 25th, 2023. My deposition was taken in the matter of Sopris Systems, LLC v South Texas Electric Cooperative.
14. September 7, 2023. My deposition was taken in the matter of In Re Edward D. Jones & Co., L.P. Securities Litigation,
15. May 11, 2023, my deposition was taken in the matter of Brian M. Douglas & Associates, LLC v Conquest Solutions, LLC.
16. April 18 through April 25th, 2023, I testified in the trial of WhereverTV v Comcast on both patent infringement and invalidity. United States District Court of Florida, Ft. Myers Division.
17. April 13, 2023, my deposition was taken in the matter of Jacqueline Delling vs R & C Transportation, LLC, and Michael Wilkinson State of Missouri Cause No. v 21SL-CC03800.
18. April 4, 2023, my deposition was taken in the matter of IPR2022-00600 Apple Inc. v CPC Patent Technologies PTY LTD. I was retained by CPC Patent Technologies.
19. February 2023, my deposition was taken in the matter of IPR2022-00601 and IPR2022-00602 Apple Inc. v CPC Patent Technologies PTY LTD. I was retained by CPC Patent Technologies.
20. January 30, 2023, my deposition was taken in the matter of CPC Patent Technologies PTY LTD, v HMD Inc. regarding validity issues.
21. January 12, 2023, my deposition was taken in the matter of CPC Patent Technologies PTY LTD, v HMD Inc. regarding infringement issues.
22. November 14, 2022, my deposition was taken in an IPR related to Boxcast INC. v Resi Media LLC.
23. October 19, 2022, my deposition was taken in the matter of Cisco v Wilson Chung/Poly.
24. September 8, 2022, my deposition was taken in the matter of Arkeyo, LLC v Saggezza.
25. August 31, 2022, my deposition was taken in the matter of F45 TRAINING PTY LTD v BODY FIT TRAINING USA INC.,
26. July 14, 2022, my deposition was taken in an IPR related to Boxcast INC. v Resi Media LLC.
27. June 21 and June 22, 2022, I testified at a Markman hearing in the matter of WHEREVERTV, INC. v Comcast LLC.
28. June 13, 2022, my deposition was taken in the matter of Walter Peters v Apple Inc. Case No. 19STCV21787.
29. May 2, 2022, I testified in the trial of Appian Corporation v Pegasystems INC. and Mr. Youyong Zou
30. May 1, 2022, my deposition was taken in the matter of Allscripts Healthcare, LLC. v Andor Health

31. March 24, 2022, my deposition was taken in the matter of Hunter Aldridge v Kenny Nation. The case involves phone forensics.
32. March 11, 2022, my deposition was taken regarding pre-sale bar in the matter Boxcast Inc. v Resi Media LLC.
33. March 10, 2022, my deposition was taken in the case of Todd Rands v Jason T. Saur Circuit Court of St. Louis County, State of Missouri No. 20SL-CC00536. The case involves phone forensics.
34. February 18, 2022, my deposition was taken regarding claim construction in the matter Boxcast Inc. v Resi Media LLC.
35. January 17, 2022, I testified in the arbitration hearing in the matter of LWCC v Insurity.
36. January 15, 2022, my deposition was taken in the matter of Appian v Pegasystems.
37. January 5, 2021, my deposition was taken in the matter of Boxcast INC. v Resi Media LLC.
38. December 22, 2021, my deposition was taken in the matter of Peloton vs. iFit regarding trade secrets.
39. November 5, 2021. I testified in an arbitration hearing in the matter of Cuker v Pillsbury, Winthrop, Shaw, Pittman. AAA CASE NO. 01-18-0001-5005
40. November 1, 2021, my deposition was taken in the matter of IPR2021-00342 Petition
41. October 15, 2021, my deposition was taken in the matter of OnQuest Concierge LLC v App Quest Technologies LLC, et al., hired by the firm of Platt Cheema Richmond PLLC on behalf of the plaintiff.
42. September 17, 2021, my deposition was taken in the matter of Cisco v Williams.
43. July 27, 2021, my deposition was taken in the matter of WhereverTV v Comcast.
44. July 7, 2021, my deposition was taken in the matter of The Douglas Stewart Company v HIQO Solutions.
45. July 5, 2021, my deposition was taken in the matter of Huawei v Verizon.
46. December 21, 2020, I testified at a hearing in the matter of Icon Health & Fitness, Inc. v Peloton Interactive, Inc.
47. November 18, 2020, my deposition was taken in the matter of Icon Health & Fitness, Inc. v Peloton Interactive, Inc.
48. November 10, 2020, my deposition was taken in the matter of Mid America Mortgage, Inc. Red Rock Mortgage, v Kelly Griigs, Greg Mahaney, and Interlinc Mortgage Services LLC.
49. September 1, 2020, I testified in an evidentiary hearing in the case of Madison Inc. v Lederer.
50. July 14, 2020, my deposition was taken in the matter of Ida Marie Estrada v HEB LP Cause No. C-4093-18-J.
51. My deposition was taken on April 1 & 2, 2020. My deposition was taken in the matter of Uniloc 2017 LLC v Samsung Inc. Case No. 2:18-

cv-00508-JRG.

52. February 25, 2019, my deposition was taken in the matter of Uniloc 2017 v Samsung Civil Action No. Case No. 18-cv-00506.
53. December 12, 2019, my deposition was taken in the matter of Uniloc 2017 LLC v Motorola Mobility LLC.
54. June 25, 2019, my deposition was taken in the matter of Array Technologies Inc. v Mitchell, NextTracker, et al.,
55. January 10, 2019, my deposition was taken on the matter of IPR2018-00361.
56. December 20 & 21, 2018 my deposition was taken in the matter of Uniloc v Samsung, Civil Action No. 2:17-cv-651-JRG on patent infringement and validity issues.
57. October 12, 2018. My deposition was taken in the matter of IPR2018-00294.
58. September 21, 2018. My deposition was taken in the matter of IPR2017-02148.
59. August 6, 2018. My deposition was taken in IPR2017-01799, IPR2017-01800, IPR2017-01801 and IPR2017-01802.
60. August 3, 2018. My deposition was taken in IPR2017-01797 and IPR2017-01798.
61. July 25, 26, and 27 2018 I testified at trial in the matter of Dale Oliver v Bruce Johanson Blair Johanson, and DB Squared LLC. Case No. 5:17-cv-05129-TLB.
62. July 19, 2018. My deposition was taken in the matter of Uniloc USA, Inc. v Apple Inc., Case No.: 3:18-cv-00365-WHA.
63. June 28, 2018. My deposition was taken in Google LLC v Uniloc regarding the following IPR2017-01683, IPR2017-01684, IPR2017-01685. Google LLC v Uniloc IPR 2017-02080, and IPR 2017-02081.
64. March 02, 2018. My deposition was taken in the matter of Dale Oliver v Bruce Johanson, Blair Johanson, and DB Squared LLC.
65. December 22, 2017, I testified at a hearing in the matter of John M. Money, LLC dba Auditors Recovery Service v AmWins Specialty Auto, Inc. Cause No. DC-16-05483 101st Judicial District Court.
66. November 27, 2017. My deposition was taken in the case of: Case IPR2017-00221, U.S. Patent 7,535,890; Case IPR2017-00222, U.S. Patent 8,243,723; and Case IPR2017-00225, U.S. Patent 8,995,433.
67. July 13 and 14, 2017. I testified at trial regarding patent invalidity in the case of Evicam International, Inc. v Enforcement Video, LLC, d/b/a WatchGuard Video.
68. June 27, 2017. My deposition was taken in the case of Thomas Sisoian v IBM. United States District Court for the Western District of Texas Austin Division Case No. 1-14-CV-565-SS.
69. June 17, 2017. My deposition was taken in the case of Evicam International, Inc. v Enforcement Video, LLC, d/b/a WatchGuard Video, on the issues of patent invalidity.
70. April 17 and 18, 2017. I testified at trial in the case of Walmart Stores Inc.

v Cuker Interactive LLC. July 12, 2016. Case No. 5:14-CV-5262.

71. December 12, 2016. I testified at a hearing regarding multiple motions in the case of Walmart Stores Inc. v Cuker Interactive LLC. Case No. 5:14-CV-5262
72. July 12, 2016. My deposition was taken in the case of Walmart Stores Inc. v Cuker Interactive LLC. Case No. 5:14-CV-5262
73. June 7, 2016. I testified in the trial of United States v Michael Thomas.
74. My deposition was taken in the case of Federal Trade Commission and State of Florida v Inbound Call Experts, LLC, et al. Case No. 14-81395-CIV-Marra/Matthewman US District Court Southern District of Florida.
75. October 9, 2015. I testified in the trial of Suncoast Post-Tension LTD v Peter Scoppa, et al.
76. September 25, 2015, and September 28, 2015, I testified in the trial of United States of America v Anastasio N. Laoutaris.
77. August 27, 2015, my deposition was taken in the Suncoast Post-Tension LTD v Peter Scoppa, et al. case.
78. May 22, 2015, my deposition was taken in the Attorney General of Florida v ASAP Tech Help LLC case.
79. December 17, 2014, I testified at a non-jury trial/hearing in the Federal Trade Commission v PC Cleaner Pro Inc. case.
80. November 24, 2014, I testified at a non-jury trial/hearing in the Federal Trade Commission v Boost Software Inc. case.
81. On November 13, 2014, my deposition was taken in the Neomedia Inc. v Dunkin Brands Inc. case relating to patent indefiniteness/invalidity issues.
82. July 9, 2014, my deposition was taken in the Geotag v AT&T case relating to validity issues.
83. June 11, 2014, my deposition was taken in the Geotag v AT&T case relating to infringement issues on.
84. May 15, 2014, my deposition was taken in the Geotag v Starbucks et al. case relating to invalidity issues regarding the defendants Dominos and Darden.
85. May 14, 2014, my deposition was taken in the Geotag v Starbucks et al. case relating to infringement issues regarding the defendant Darden.
86. 24 January 2014, my deposition was taken in the Geotag v. Frontier Communications et al. case relating to infringement issues regarding the defendants Gander Mountain and Abercrombie and Fitch.
87. 23 January 2014, my deposition was taken in the Geotag v Frontier Communications et al. case relating to infringement issues regarding the defendants Trane and Genesco.
88. 22 January 2014, my deposition was taken in the Geotag v Frontier Communications et al. case relating to infringement issues regarding the defendants Cinemark, Spencer's Gifts, and Regis Corp.
89. 21 January 2014, my deposition was taken in the Geotag v Frontier Communications et al. case relating to infringement issues regarding the defendants Walmart, Nike, and Advanced auto.
90. January 2014, my deposition was taken in the PiNet v J.P. Morgan

Chase case relating to invalidity.

91. My deposition was taken in the Geotag v. Frontier Communications et al. case relating to infringement issues regarding the defendants in Judge Gilstrap's court in December 2013. This was multiple defendants.
92. My deposition was taken in the Microsoft v Geotag case regarding Google in December 2013.
93. I testified at an evidentiary hearing in the matter of Macroniche Software Inc. v 4 Imaging Solutions LLC, et al. Southern District of Texas Houston Division.
94. I testified at the trial of Market One v Tekcenture case in the Dallas County Courts in February 2013.
95. My deposition was taken in the Geotag v Frontier Communications case regarding the defendant Yellow Pages in September 2013.
96. My deposition was taken in the Market One v Tekcenture case in December 2012.
97. My deposition was taken in 2011 in Eolas Tech. Inc. v Adobe Systems, Inc., et al., Civil Action No. 6:09-cv-446 (E.D. Tex.) (On behalf of defendant, Citibank).

Academic Experience

1. I am currently an adjunct professor for Vanderbilt University in their Master of Computer Science program. Specifically, I am teaching graduate courses in quantum computing; quantum algorithms and information theory; secure software engineering, and digital forensics. Specific courses I teach or have taught for Vanderbilt are:
    a. Introduction to Quantum Computing
    b. Quantum Information Theory
    c. Secure Software Engineering
    d. Algorithm Analysis
    e. Digital Forensics
2. I am currently an adjunct lecturer for Georgetown University. I teach graduate courses in cybersecurity, cryptography, cyber threat intelligence, and systems engineering courses. Specific courses I teach or have taught for Georgetown are:
    a. Requirements engineering
    b. Cryptography
    c. Cyberthreat Intelligence
    d. Systems Integration
    e. Introduction to Artificial Intelligence
3. I developed a graduate digital forensics course for the University of Dallas. I also taught this course for the University as an adjunct professor from 2019 to 2022.

4. I have taught classes at community colleges, technical colleges, universities, and corporate environments since 1998. These classes include programming courses (C, Java, C++, Objective C, C#/.Net, and others), software engineering, computer networking, system security, and digital forensics courses.
5. During 2019 I was a Professor of Practice with Capitol Technology University teaching graduate courses (master's and doctoral) in computer science, cybersecurity, electrical engineering, and research methods as well as chairing several doctoral dissertation committees. I was also the director for the Quantum Computing and Cryptography Research Laboratory at Capitol Technology University. I have chaired the following students to successful defense of their doctoral dissertations:
    a. Dr. Kellep Charles, dissertation title "A quantitative approach using the experimental design to evaluate the effects automated vulnerability security scanners have on cent-os server system services."
    b. Dr. Natalie Marini-Wear, dissertation title "A qualitative case study: software security in devops"
    c. Dr. Tomas Pena, dissertation title "A deep learning approach to detecting covert channels in the domain name system."
6. I have worked on numerous scientific conference committees. The following is a sample:
    a. At the 2018 Annual IEEE 8th Annual Computing and Communication Conference at the University of Nevada in Las Vegas, I chaired a session on Artificial Intelligence, and another session on Computer Architecture and VLSI.
    b. At the 2019 Annual IEEE 9th Annual Computing and Communication Conference I was a keynote speaker presenting a talk on "The impact of complexity and emergent properties on engineering". I also chaired a session on "IOT, Robotics and Machine Vision" as well as a session on "Mobile and Wireless Communication, Network".
    c. On the technical committee for "Wireless & Sensor Networks & Cybersecurity; Mobile Computing and Security" IEEE IEMCON 2019 Conference.
    d. Technical Program Co-Chair for the 2019 International Symposium on Blockchain Computing and Applications
    e. On the technical committee for "Wireless & Sensor Networks & Cybersecurity; Mobile Computing and Security" IEEE Ubiquitous Computing, Electronics & Mobile Communications Conference (UEMCON) 2019 Conference.
    f. Technical program chair for International Conference on Cyber Security: Recent Threats and Trends (ICCSTT) 2019
    g. Program committee member for 2020 The 1st Workshop on Verification & Validation of Quantum Applications.

h. General Chair for the 2020 Quantum Computing and Engineering Conference (CQEC).

i. Technical program committee member for the inaugural IEEE International Conference on Quantum Computing and Engineering (QCE) 2020.

7. I have presented research talks at University of Texas at Dallas, Texas A&M San Antonio, Seton Hall University, Southern Methodist University, Columbia ACM Chapter, Harvard Computer Society, and Princess Sumuya University in Amman Jordan.

8. I am currently or have been previously a reviewer for several scientific journals:

a. Editor in Chief for the *American Journal of Science and Engineering (2017 to 2020).*

b. Editorial board for the Journal of Artificial Intelligence in Medical Imaging

c. Reviewer for the *International Journal of Cyber Warfare and Terrorism (IJCWT) (2016 to 2020).*

d. Reviewer for scientific papers submitted to *IEEE Security & Privacy* and the *IEEE Open Access Journal*.

e. Reviewer for the *International Journal of Network Security (IJNS)*

f. Reviewer for scientific papers submitted to the *Journal of Information Warfare*

g. Reviewer for scientific papers submitted to the I*nternational Journal of Network Security*.

Professional Experience

From:	2005
To:	Present
Organization:	Chuck Easttom Consulting
Title:	Computer Scientist/Consultant

As an independent consultant, I have developed 2 electronic medical records software solutions, several small financial and web-based applications, microcontroller programming, and consulted with various companies on networking and security issues. My consulting work has included security audits, penetration tests, and forensic analysis. I have also done corporate training and college teaching in a wide range of topics including network administration, network security, web development (HTML, JavaScript, CSS, ASP, ASP.Net etc.), programming (C, C++, C#, Rust, Python, Perl, Java, VB, etc.) and database operations (MS SQL Server, MySQL, PostGres, Microsoft Access, Oracle, etc.).

Since 2016 I have worked extensively with the DoD including software engineering, systems engineering and aerospace engineering consulting and training. This includes weapons systems, hypersonics, and related topics.

I have worked extensively on cybersecurity projects including authentication (with smart cards, multi factor, digital certificates, etc.), zero-trust, security audits, penetration tests, and related topics.

I also developed the advanced cryptography course for the EC- Council. I developed the EC Council Certified Application Security Engineer courses for .Net, Java, and C++. I also developed the EC-Council DevSecOps course. I developed training courses for various companies such as SkillSoft and SimpliLearn in topics such as NoSQL, MongoDB, VMWare cloud, Information Systems Auditing, CSSLP certification prep, Secure software engineering, CISA certification prep, and others.

I frequently consult with various companies on computer security, cryptography, forensics, machine learning/artificial intelligence, DevOps, blockchain, software engineering, and related issues.

I work extensively in software engineering. That includes teaching and consulting on DevOps, secure software engineering, software standards including, but not limited to: NIST SP 800-27 – Life Cycle; IEEE 830-1993; IEEE 29148:2011; IEEE 15288; IEEE 829-1998 IEEE Standard for Software Test Documentation; IEEE 1008-1987 (R1993) IEEE Standard for Software Unit Testing; IEEE 1012-1998 Standard for Software Verification and Validation; IEEE 1028-1997.

My consulting activities have included a variety of government agencies including U.S. and Foreign governments. Consulting topics have included software engineering, cybersecurity, digital forensics, AI/ML, and computer networking. My consulting clients have included:

- Visa: Working on cybersecurity onboarding for their acquired entities. Conducting training in zero trust security, cloud security, and related topics.
- EC Council - Creating and teaching cybersecurity courses. I have worked on the EC Council cryptography courses, secure software engineering courses, blockchain courses, and advanced forensics courses.
- Skillsoft - Creating a range of technology-related training videos. This includes software engineering, database, and cybersecurity related courses.
- Collin County College - Teaching a range of computer science and security courses.
- Saudi Aramco - Teaching and consulting on cybersecurity issues
- Consulting with DoD related groups on a variety of engineering and cybersecurity projects
- Brand Protect - training and consulting on Dark Web investigations.
- SimpliLearn - Creating cybersecurity courses.
- TSTC - Tshukudu Technology College (Netherlands) - Teaching a variety of cybersecurity and cryptography courses.
- Allegiant Investigations- performing digital forensics investigations. Including smart phone, macOS, Windows, video, and image forensics.
- College of the Ozarks - Threat Intelligence Consulting
- Department of Defense – Embedded systems, systems engineering, DevSecOps, Android forensics, aerospace engineering, hypersonics, and cybersecurity.

From: 2003
To: 2013
Organization: Collin College (Professional Development Department)
Title: Adjunct Instructor (Part Time)

I taught professional development courses to IT professionals in programming (C, Java, C++, and C#), web development (HTML, JavaScript, CSS, and .net), networking, and network security. I have also designed and taught computer security courses for the college. These courses include:

- CompTIA Security+ Certification Prep.
- CISSP Certification Prep
- Hacking & Penetration Testing
- Computer Forensics
- Network Administration

Note from 2013 to 2019 I was paid as an outside training provider

From: 2003
To: 2005
Organization: Great American Insurance Company- Professional Liability Division
Title: Systems Director

Summary: In this position I oversaw all application development including complex insurance Windows applications, web development including extensive online systems, database administration with SQL Server, network administration on a Windows based network, and network security for a division of an insurance company. This role combined management with hands-on work in all of these areas. I was first hired as Systems Manager, then after 12 months promoted to Systems Director. While in this role I oversaw and participated in the development of a web portal to allow customers to apply for insurance, renew policies, and check status. This includes software processes, such as Agile, and other methods.

I personally developed an extensive reporting application. I also oversaw and participated in a complete re-writing of the underwriting application used by our underwriters. Development was primarily using .Net with Microsoft SQL Server as a backend.

I was responsible for all network administration and security. This included securing endpoints, security policies, security technology, authentication methodologies, etc.

.

From: 2000
To: 2003
Organization: Remington College
Title: Department Chair for Computer Information Systems department
Summary: I was initially hired as an instructor but was later promoted to department chair. I taught a variety of computer science courses and managed the Computer Information Systems department. I taught courses in programming (software design, Java, C++, etc.), systems analysis, web development (HTML, JavaScript, Java Applets, and .Net), e-commerce, and information security.

From: 1999
To: 2000
Organization: Digital Speech Systems Inc.
Title: Senior Software Engineer
Summary: I began at digital speech as a software engineer and was later promoted to senior software engineer. My duties included developing voicemail and related software as well as mentoring new programmers. The programming work included work on voicemail server software, unified messaging software, and related applications. I worked extensively with C, Visual C++, SQL Server, and Visual Basic.

From: 1998
To: 1999
Organization: Southeastern Oklahoma State University
Title: Director of Academic Computing
Summary: I began as the Director of Educational Technology for the School of Arts and Letters but then took over the management of the entire university's information systems when I was promoted to the Director of Academic Computing for Southeastern Oklahoma State University. In this position I managed all technical support for the campus as well as overseeing all network administration, network security, and web development.

From: 1996
To: 1998
Organization: Alegis Corporation Systems Group
Title: Software Engineer
Summary: I began as a programmer/analyst and was later promoted to Software Engineer. I worked developing Windows based financial and collections applications for companies such as Boatman's Bank of St. Louis, Chrysler Financial, and Western Union. I worked extensively with C, C++, and Visual Basic (Versions 4.0 and 5.0). I also developed and oversaw the website or the company using HTML, JavaScript, and Cascading Style Sheets

.

From: 1995
To: 1996
Organization: Boeing Aerospace Operations
Title: Contract Programmer/Analyst
Summary: I worked as part of a team developing a Windows application to manage the maintenance and engineering tasks for the NATO AWACS. I worked with C, C++ and Visual Basic (starting with version 3.0) as well as Microsoft SQL Server.

From: 1991
To: 1995
Organization: Worked various technical support and computer related jobs while attending college. From late 1993 to 1995 a great deal of time was spent developing websites with HTML (1.0), JavaScript (beginning with its release in late 1995). Among the websites I created were websites for: a computer store, two martial arts studios, a quarter horse ranch, and a university chess club. During that same time period I worked extensively with some of the early browsers such as Mosaic and Netscape (late 1994). Prior to 1992, from 1991 to 1993 I worked building and repairing PC's.

From:	1987
To:	1991
Organization:	United States Army HHC 5/21 Infantry Battalion 7th Light Infantry Division
Title:	Highest rank E-4
Summary:	Awards received – Army Service Ribbon, National defense medal, marksman badge with grenade component. Honorable discharge.

Continuing Professional Education

I am always interested in updating and expanding my education, and therefore participate in seminars, webinars, online courses, continuing education/professional development training, etc. In some cases, I retake introductory or intermediate courses as a refresher. Here is an exemplary list of such courses.

- Paul Deitel, Teaching Strategies for Visual C# 2008 from Pearson Publishing – 2010.
- Design and Analysis of Algorithms from Massachusetts Institute of Technology – 2012.
- Parallel Computing from Massachusetts Institute of Technology – 2013.
- Microsoft Technet - Windows 7 Feature Overview – 2011.
- Programming Methodology from Stanford University Center for Professional Development – 2012.
- Perl fundamentals from the Association of Computing Machinery 2012.
- Key Issues in Distributed Systems from Stanford University Center for Professional Development – 2013.
- Introduction to HTML5 and CSS3 from the Association of Computing Machinery – 2013.
- Software Program Control Flow Fundamentals from the Association of Computing Machinery – 2013.
- Harvard Extension School CS 50 Intensive Introduction to Computer Science. This was an intensive coverage of C, PHP, MySQL, Algorithms, and Data Structures. I took this course as a refresher – 2014.
- The Fundamentals of Conducting an Internal Investigation from Guidance Software (webinar) – 2015
- Carnegie Mellon University Software Engineering Institute - Trends and New Directions in Software Architecture (webinar)- 2015
- Analyzing Evidence from Mobile Devices, Including Hidden and Deleted Data. Oxygen Forensics (webinar) – 2015
- Technical Debt in Large Systems: Understanding the Cost of Software Complexity. Massachusetts Institute of Technology (webinar) – 2015
- Current Trends in Computer Security. Stanford University (webinar) – 2015

- Windows FE and Live Forensic Triage (webinar) Forensic Magazine. – 2015
- American College of Forensic Examiners course - Forensic Examination of CCTV Digital VTR Surveillance Recording Equipment. 2015
- American College of Forensic Examiners course - Developmental and Motivational Factors of Transnational Terrorists. 2015
- American College of Forensic Examiners course - Psychological Profiles of Terrorists. 2015
- Oxygen Forensics Trainer Certification Course – 2015
- Access Data FTK Online training course – 2015
- American College of Forensic Examiners course - Digital Forensics in the 21st Century – 2016
- Specialized Forensic Photography and Diagramming – June 2017
- IEEE Course: Integrated Circuit Digital Design Methodology November 2017
- IEEE Course: Integrated Circuit Digital Design Methodology: Advanced Analysis and Simulation November 2017
- IEEE Course: 4G Broadband LTE December 2017
- IEEE Course Analyzing the Security of Bluetooth Low Energy. 2021
- IEEE Course BlueScan: Boosting Wi-Fi Scanning Efficiency Using Bluetooth Radio. 2021
- IEEE Continuing education course "Thermo-Mechanical and Mechanical Reliability of Electronics" 2021
- IEEE Course Bottleneck Analysis of Traffic Monitoring using Wireshark. 2021
- IEEE Continuing education course “Making and Qualifying Reliable Extreme Environment Electronics” 2022
- 2023 Private Investigator Continuing Education Course on DNA Evidence
- 2023 Private Investigator Continuing Education Course on Ethics
- 2023 Private Investigator Continuing Education Course on Suspicious Death and Bodily Injury Investigations.
- 2023 Private Investigator Continuing Education Course on Motor Vehicle and Bodily Injury Investigations.
- 2024 IEEE Continuing Education Course “5G System Principles 1.1 What Makes a 5G System.”
- 2025 Private Investigator Continuing Education on DNA and Fingerprint Identification.
- 2025 Private Investigator Continuing Education on Motor Vehicle Death & Serious Bodily Injury Investigations
- 2025 Private Investigator Continuing Education on Scene Investigations in Death & Serious Bodily Injury
- 2025 Private Investigator Continuing Education on Identity Theft: Detection, Prevention and Protection
- 2025 Private Investigator Continuing Education on DNA and Fingerprints: Evidence and Identification
- 2025 Microsoft’s Accessibility fundamentals course[1]
- 2025 Dequeue University -Fast Tack to Accessibility for Web Developers Part I: Core Concepts.

[1] https://learn.microsoft.com/en-us/training/paths/accessibility-fundamental/

- 2025 Dequeue University -Fast Track to Accessibility for Web Developers, Part 2: Advanced Concepts
- 2025 Dequeue University - Accessibility Fundamentals - Disabilities, Guidelines, and Laws
- 2025 Dequeue University - WCAG 2.2: Semantic Structure and Navigation

References to my work

The following sections are provided as examples of the impact my work in computer science has had in the field.

Media References

My computer science expertise has been sought out by reporters including:

- CNN Money interviewed me regarding alleged unbreakable cryptography http://money.cnn.com/2011/09/02/technology/unhackable_code/
- Techopedia interviewed me regarding cybersecurity advice for businesses https://www.techopedia.com/sme-cybersecurity-dr-chuck-easttom-advice
- CBS SmartPlanet interviewed me regarding NSA and cryptography http://www.smartplanet.com/blog/bulletin/nsa-proof-products-protective-or-a-profit-motive/
- "NSA proof products: protective or a profit motive?" also appeared on ZDNet. https://www.zdnet.com/article/nsa-proof-products-protective-or-a-profit-motive/
- E-book's directory lists my "Moving from Windows to Linux" book as one of the top 10 Linux books http://www.e-booksdirectory.com/linux/top10.html.
- Lawrence Journal World interviewed me for a hacking story that was published August 6, 2006. The article was entitled "Hacker's infiltrate Web site".
- GoCertify.com Author Interview "Author Interview: CCFP Certified Cyber Forensics Professional All-in-One Exam Guide" January 2015
- ISMG interviewed me regarding the JP Morgan Chase Breach of 2015 http://www.bankinfosecurity.com/interviews/what-jpmorgan-chase-breach-teaches-us-i-2982
- CIO Magazine (Nov 14, 2016) in the article "12 steps to lower your espionage risk" references my book Computer Security Fundamentals 3rd Edition.
- Forensic Focus Magazine (June 2017) interviewed me regarding my work in applying graph theory to digital forensics.
- Sputnik Press Interviewed (June 2021) me regarding the Biden-Putin cybersecurity talks. https://sputniknews.com/analysis/202106161083169993-putin-biden-cybersecurity-talk-may-mark-end-of-wild-west-era-in-cyberspace-expert-says/

steganography https://www.vice.com/en/article/m7e9n3/the-motherboard-guide-to-steganography

References to publications

My books and articles have been referenced by numerous computer scientists, including being referenced in several Ph.D. dissertations and master's Thesis'. My books are used as textbooks at over 60 universities around the world.

Training

Since the late 1990's I have been teaching at least on a part-time basis. I have taught courses at colleges, technical schools, corporate training environments, and on site for companies and government agencies. Some of my training courses are through my own training company CEC-LLC, which is approved by the U.S. Department of Homeland Security National Initiative for Cyber Security Careers and Studies (NICCS) https://niccs.us-cert.gov/training/search/cec-security-llc
I have taught courses on the following topics:

1. HTML (including HTML 5 and CSS3)
2. JavaScript (including advanced courses)
3. Java
4. C and C++
5. VB.Net, ASP.Net, and C#
6. Objective C/SWIFT iPhone programming
7. Microsoft SQL Server
8. Oracle
9. DevOps
10. Containers (Docker and Kubernetes)
11. Microsoft Access
12. NoSQL (including MongoDB and CouchDB)
13. Computer Networks (routers, switches, virtualization, SDN, NFV, etc.)
14. Computer Hardware (motherboards, chips, etc.)
15. JTAG techniques for phone forensics
16. Certification preparation courses for the following certifications: CompTIA A+, CompTIA Network+, CompTIA Security+, CISSP, ISSAP, CEH, CISA, CSSLP, ECES, CND, and CHFI.
17. Computer forensics (phone forensics, Windows forensics, general forensic science, etc.)
18. Computer security (principles, IDS/IPS, Honey Pots, policies, DRP/BCP, SIEM, cyber threat intelligence, etc.)
19. Cryptology (including advanced courses)
20. Math for cryptography including statistics, number theory, combinatorics, abstract algebra, graph theory, and related topics.
21. Windows Server (NT 4.0, Server 2003, Server 2008, Server 2012, Server 2019)
22. Secure programming (including web programming)
23. Linux

24. Hacking and penetration testing
25. Machine learning
26. Systems Engineering
27. Cloud Computing
28. Embedded systems
29. Systems Engineering

I have conducted computer security (computer forensics, network security, penetration testing cryptography, etc.) related courses for a variety of government and law enforcement agencies, various law enforcement officers, friendly foreign governments, and a variety of corporations. I volunteer my time teaching digital forensics and related materials to organizations that combat crimes against children such as the Internet Crimes Against Children Taskforce (ICAC) and have done so in Texas, North Dakota, Utah, and Illinois.

I have also created a number of video courses for companies such as Skillsoft and Pearson Press on topics such as Secure Programming, MongoDB, NoSQL, DevOps, Virtualization, Cloud computing, Digital Forensics, Quantum Computing, and other topics.

Technical Skills

The Following is an exemplary list of technologies. This is not meant to be an exhaustive list, but rather to provide a sample of areas within which I have expertise. I have experience and/or knowledge with:

Computer Hardware: CPU architecture, motherboard structure, chip programming/testing (using HDLs, System Verilog, etc.), battery power (Lithium-Ion, NiCad, Nickel-hydrogen, Nickel-Metal-Hydride, Lithium Polymer, etc.), and testing, etc.

Quantum Computing: Quantum concepts, quantum physics, quantum programming (QASM, Q#, Qiskit, Qiskit metal, etc.), quantum algorithms, quantum information theory, quantum hardware (ion trap, Bose Einstein condensate, nitrogen vacancy, superconducting, photon based, etc.).

Embedded Systems: Arduino, SystemC, SpecC, System Verilog, etc.

Electronic Cards: Smart cards, near field communications, ISO/IEC 7810 standard for identification cards, ISO/IEC 7816 standard for electronic cards for identification, ISO/IEC 14443 standard for contactless integrated circuit cards, etc. EMV, and related standards and technologies.

Alternate Computer Systems: Neuromorphic computing, molecular computing, etc.

Container Technology: Containers such as Docker, Kubernetes, gVisor,

Singularity (for High Performance Computing), Podman (for Red Hat Linux originally but now also for MacOS and Windows), etc.

Programming Languages: C, C++, Assembly, .Net (C#, VB.Net, etc.), Go, Swift, Rust, Pascal, Python, PHP, Ruby, Perl, Objective C, Java, Kotlin, and SmallTalk. This list is exemplary and not exhaustive.

Software Engineering: Design and testing methodologies. ISO 9000, ISO 15504, ISO 27001, Software Process Improvement Capability Determination (SPICE), UML, SWEBOK, software complexity measurements, etc.

Web development technologies: HTML, JavaScript, PHP, CSS, ColdFusion, Flash, and Dream Weaver. Web compliance with ADA, WCAG (2.0-2.2), Section 508, F18, and ISO/IEC 40500:2012 standards. Also experienced with web servers including Apache and IIS.

Engineering Methods: Systems architecture, systems modeling, engineering processes, requirements engineering, reliability engineering, circuit design, chip design, and related topics.

Artificial Intelligence: Expert systems, Fuzzy Logic, and AI Programming. Machine learning includes TensorFlow, Python, LLM, and similar tools. I also have experience in large language models (LLM), deep fake videos, and related AI topics.

Blockchain: Bitcoin, ethereum, decentralized apps (DApps), Decentralized Autonomous Organization (DAO), and related topics.

Internet of Things (IoT): IoT operating systems, protocols, and networking. I have experience with IoT protocols such as MQTT (Message Queuing Telemetry Transport);CoAP (Constrained Application Protocol);AMQP (Advanced Message Queuing Protocol); 6LoWPAN; NB-IoT (Narrowband IoT);NB-IoT (Narrowband IoT); etc. I have experience with IoT operating systems including: Contiki;RIOT OS; FreeRTOS; Apache Mynewt; LiteOS;Tizen; etc.

Software: Expertise with medical software including Electronic Medical Records, financial software, banking software, Business Process Management software (BPM), as well as other types of software.

Business Intelligence: Business intelligence methods, trade secret protection, and related topics.

Cryptography: I have extensive knowledge of cryptographic algorithms such as: DES, Blowfish, Twofish, AES, Serpent, RSA, Diffie-Hellman, ElGamal, MQV, ECC, GOST, KRYSTALS-KYBER, NTRU, Lattice Based Cryptography, and others. Also, Cryptographic hashes, message authentication codes, and cryptographic protocols.

Mathematics: Discrete math, number theory, graph theory, linear algebra, statistics, and

algorithm analysis, etc.

Compression Algorithms: Lempel-Zev, Lempel-Ziv-Welch, Burrows Wheeler, Adaptive Transform Acoustic Coding (ATRAC), Huffman coding, Cartesian Perceptual Compression, etc.

Mobile Devices: I am experienced with iOS and Android. I have worked with both operating systems extensively, including teaching programming for both operating systems and reviewing source code for both operating systems. I am also familiar with the hardware for both devices, including details regarding integrated circuits, batteries, display, etc, in both devices.

Networking: Network protocols, routers, switches, servers, IPv4, IPv6, Network models and concepts (TCP/IP, OSI, etc.), telecommunications, and network management. Networking protocols including ANT+, Bluetooth, Zigbee, 6LowPAN, etc. I am also familiar with video related networking protocols such as Quadrature Amplitude Modulation (QAM), Carrierless amplitude phase modulation (CAP), etc. Also, I am very familiar with cloud computing with both theoretical knowledge and hands-on experience with VMWare cloud, Azure, and AWS.

Satellite communications: L-Band (1-2 GHz): Used for GPS, maritime, and aviation communications; S-Band (2-4 GHz): Used for weather and some scientific satellites; C-Band (4-8 GHz): Used for satellite TV and VSAT systems; X-Band (8-12 GHz): Used primarily for military and deep-space communication; Ku-Band (12-18 GHz): Used for satellite broadcasting and internet services; Ka-Band (26.5-40 GHz): Used for high-speed satellite internet and advanced communication systems; Modulation: BPSK, QPSK, 8PSK, 16QAM, etc. Protocols such as LTP (Licklider Transmission Protocol);DVB-S/DVB-S2 (Digital Video Broadcasting-Satellite);CFDP (CCSDS File Delivery Protocol);Inter-Satellite Links (ISL), etc.

Video: Video transmission protocols and standards including DOCSIS (Data Over Cable Service Interface Specification), MoCA (Multimedia over Coax Alliance), NTSC (NTSC-M, N, J, etc.), Phase Alternating Line (PAL), SMPTE 2110, etc. Broadcast and streaming methodologies, set top boxes, OTT programming, interactive programming guides (IPGs), etc.

Databases: MySQL, SQL Server, DB2, PostGres, Progress, Microsoft SQL Server, MS Access, Oracle, and SQL Anywhere. I have also worked with NoSQL databases including MongoDB, Hadoop, and CouchDB. This experience includes data mining and data analysis. I have worked with data stores that are used for medical data, financial data, banking data, educational data, and other data domains.

Computer/Network Security: PCI standards, Common Criteria, cybersecurity standards, penetration testing, computer viruses and other malware, disaster recovery planning, cryptology, firewalls, IDS, Honey Pots, chip security, cyber threat intelligence, cyber threat intelligence, competitive business intelligence, penetration testing, and

security policies & procedures.

Biometrics: Fingerprint, facial recognition, voice recognition both algorithms and hardware.

Cyber Forensics: PC forensics, network forensics, cell phone forensics (including JTAG). I have experience with a wide range of tools, including but not limited to: Guidance Software Encase, Access Data FTK, Cellebrite, Paraben Sim Seizure, Oxygen Forensics, OSForensics, WindowsFE, and various open-source tools.

Domains: The domains within which I have practical IT experience include finance & banking, insurance, education, customer management, geographical mapping/tracking, defense department applications, and medical applications (including electronic medical records and medical billing).

Soft Skills: I have experience in valuing software and intellectual property as well as IT management related issues.

Aerospace Engineering: Hypersonics, Bernoulli's Principle, airfoil design, the Coandă effect, shock relations/effects, Euler's Buckling Load, Prandtl-Meyer function, Navier–Stokes equations.
