Professional Experience: Clinical & Forensic

Private Clinical Practice, Newport Beach (1981-present)

Mental Status Examinations, Clinical and Diagnostic Consultations, and Psychological Testing

Consultations performed at various levels from screening to comprehensive, depending on need, clinical issues, and circumstances. Consultations include forensic workups of psychiatric illnesses, brain function, emotionally related traumas, cognitive functioning, including memory, concentration, and attention span and related issues, post-traumatic stress disorder, as well as intellectual potential. Child and adolescent evaluations for attention deficit disorders, academic problems, and aptitudes, emotional impact resulting from various traumas, post-concussive and other brain injuries.

Competence and capacity evaluations in estate planning.

Individual, Family, Marriage, Child, and Adolescent Psychotherapy Consultations and Psychological Testing and Evaluation

- Over 35 years of experience in use of psychological tests for evaluation, diagnosis, analysis of psychological profiles, psychiatric illnesses, post-traumatic stress disorder (PTSD), intellectual abilities, aptitudes, brain function, neuropsychological deficits, and Fitness for Duty.
- Held contract with State of California, State Personnel Bureau, for evaluation and assessment of Fitness for Duty for 29 state agencies that are required by state law to have mental health evaluation and clearance prior to hiring. The agencies include California Highway Patrol, Department of Youth Authority, District Attorney's Office, Firefighters, Department of Justice, State Park Peace Officers, Alcohol and Beverage Control, Lottery Officials, Lifeguard, Department of Insurance Fraud Investigators, Fish and Game officers, Forestry, and several other departments.
- Evaluation involves clinical interview and review and interpretation of Psychological Testing, including MMPI-II, Millon Personality Inventory IV.
- Experienced in use and interpretation of most standardized psychological testing which form an important part of the Fitness for Duty Evaluation, particularly the "blue chip" tests which include, the Wechsler Intelligence Scale, MMPI-2, Millon-IV wide range of neuropsychological tests, Delis-Kaplan Executive Function System, academic achievement and potential instruments, and Detailed Assessment of Post-Traumatic Stress, and other tests for trauma related disorders, California Verbal Learning Test, Boston Naming Test and others.

Extensive Experience in Personal Injury

- Evaluations focusing on demonstrating cognitive and mental impairments through effective testing and dynamic clinical evaluation. Forensic psychological evaluations for psychologically traumatized patients of all ages. Expert witness for both Plaintiff and Defendant. .

Lecturer in Psychology at Los Angeles Professional Psychology Institute Beverly Hills, California (1981-1983)

Taught courses to masters and doctoral level students on psychopathology, diagnosis of mental disorders, use of various psychological tests including academic, neuropsychological and personality tests, including MMPI, Rorschach, Millon, and other similar instruments, psychological report writing, ethical issues, etc. special focus on neuropsychological testing including a variety of instruments designed to measure memory, attention span, concentration, dementia related issues, post-concussive syndrome and brain

injury issues, behavioral and functional measurements arising out of brain injury, disease and deterioration.

**Staff Psychologist, Charter Hospital, (formerly Long Beach Neuropsychiatric Institute)
Long Beach, California (1978-1981)**

Director - Partial Hospital Day Treatment and Outpatient Departments

Developed Inpatient treatment programs on adult and adolescent units; individual and group psychotherapy with inpatient population; medico-legal evaluation on involuntary hold patients for continuing care under 5150/5250 state law requirements; psychological testing and evaluation of children, adolescents, adults, elderly, and forensic cases.

Development of Partial Hospitalization and Outpatient Services for the Hospital; Individual and Group Psychotherapy; Psychological Testing; Supervision of psychological assistants in all aspects of psychological testing, neuropsychological testing, comprehensive evaluation of all ages, psychotherapy group and individual modalities.

Departmental Administration, staffing and operations.

Senior Clinical Psychologist, Sterkfontein State Hospital, and Johannesburg General Hospital South Africa (1975-1978)

Training of interns: duties include supervision and teaching of psychological testing, neuropsychological evaluation of dementia, Alzheimer's disease, post-concussive syndrome's, brain injuries, and all functional evaluation of behaviors arising out of neurological diseases and injuries.

Director of Research Project on Schizophrenia, Senior Drug Trial Consultant to several Pharmacological companies regarding the development of drugs for Alzheimer's disease and dementia which required assembly of neuropsychological test batteries administration of these test batteries to clinical samples in double-blind drug studies evaluating behavior, cognitive functioning, specifically memory and overall cognitive issues. Drug trials conducted within hospital setting, and conducted through University Medical School, Senior member of Committee for Drug Trials.

Director of Community Psychiatry Program: Coordination of Rehabilitation Service; Inpatient and Outpatient therapies. Psychological Testing of broad clinical population. Departmental Administration.

**Department of Psychiatry, University of the Witwatersrand, Medical School
Johannesburg, South Africa (1974-1978)**

Senior Lecturer

- Teaching Courses to Masters Level, Doctoral Level, students and Psychiatric Residents on psychopathology, group dynamics and psychotherapy techniques as well as psychological evaluation, testing and reporting. Specific focus on neuropsychological testing at the doctoral level of all relevant instruments devoted to dementia, Alzheimer's disease, brain injury, various brain diseases, concussive injuries, ADHD and broad domains of psychiatric symptomatology.
- Development of Curriculum for improving the teaching of Psychiatry and Clinical Psychology to students of the Medical School. Consulted on ways to improve recruitment of graduating physicians to specialty of psychiatry. Oral Examiner for final year Medical School Examinations in Psychiatry.
- Completed 4-year Longitudinal Schizophrenic Research Project, resulting in several publications; established community wide network of outpatient mental health centers, for primary and secondary prevention; conceived and executed a peripatetic community nurse program to service the chronic population with ongoing treatment needs, in their homes, halfway houses and the workplace. Established job-training programs in both sheltered employment and open labor markets for chronic patients who had been institutionalized for years. Created public awareness

program through newspaper articles, magazines, and TV appearances, bringing the issues of the deinstitutionalized patient in the outside world, to the public's attention.

- Served as Consultant to Government Panel set up to evaluate and revamp labor Laws as they related to chronically ill patients in the workplace.
- Senior Research assistant in designing drug trials for major Pharmaceutical Companies, required to establish behavioral and psychological criteria and parameters to measure effectiveness of certain psychopharmacological drugs.

Director of Research (1972-1973)

- Two-year Research Program on anxiety and depressive disorders in children with learning disabilities and attention deficit disorders, (ADHD)

Staff Psychologist on Pediatric Ward of Children's Hospital (1971-1972)

- Diagnosed and treated psychological problem critically ill children. Bereavement counseling.

Professional Affiliations

- Member of International Society for Traumatic Stress Studies

Education

University of Southern California - 1993

Diploma: Management Development Program in Health Care

Licensed in California - 1980

License #: PSY 6456 - California Board of Psychology

Ph.D., Clinical Psychology - 1977; University of South Africa

PhD program in South Africa, primarily within the so-called British Medical Model, with specific focus on neuroscience, neuropsychology, clinical psychological evaluation of all neuropsychological and psychiatric disorders, dementia, Alzheimer's disease, brain injury, post-concussive disorders, and all behavioral and functional disorders arising out of neurological and neuropsychiatric diseases. Training conducted in conjunction with the University Medical School Department of Psychiatry and Neurology. Broad clinical practice opportunities during residency within the community psychiatry programs in multiple outpatient clinics, senior center homes, dementia or Alzheimer's facilities for evaluation of patients, clinical diagnostic training, introduction to EEG and MRI scanning, drug trial evaluations for major pharmaceutical companies, grand rounds in Department of psychiatry and neurology.

Doctoral Dissertation: A Critical Evaluation of a Rehabilitation and Resocialization in a Schizophrenia Program in a Halfway House

M.A., Clinical Psychology - 1972; University of South Africa

Broad Master's Degree level of training with focus on neuroscience, neuropsychology, brain dysfunction in children leading to attention deficit disorders, learning problems, and dyslexia, as well as affective and behavioral disorders in children. Extensive training in the administration of all children psychological evaluation instruments devoted to psychiatric problems of children and adolescents, attention deficit disorder, all learning disability issues, with practical internships within schools for children with special needs, developmentally disabled, learning disabled, and in-patient adolescent psychiatry units. Two years of rotation through all aspects of child psychiatry and psychology units with special focus on psychological evaluation, report writing, and representation to school programs for remediation.

Master's Thesis: The Role of Manifest Anxiety in Children with Reading Disability

B.A., Psychology and Sociology Majors – 1969; University of Witwatersrand, South Africa

Clinical Internship – 1974-1975
Weskoppies Hospital, Pretoria, South Africa

Clinical internship at large state hospital above, involving rotations through all units including admission units for general anxiety disorders, major depressive disorders, bipolar disorders, schizophrenia, and dementia. Forensic training and evaluation within the state hospital to evaluate patients for the insanity Defendant, committed to the hospital for 28 days of evaluation prior to trial. Specific training and practice in all aspects of forensic evaluation and participation in report presentation representing the State. Intense training in neuroscientific underpinnings of all psychiatric and psychological disorders and appropriate psychological tests used it in in forensic and clinical evaluations.

Clinical Residency – 1975-1978; Sterkfontein State Hospital, South Africa

Forensic Work

Highly experienced clinical psychologist with extensive experience in testimony, depositions, and psychological evaluations. Very effective communicator. Consults on a broad range of psychiatric and psychological issues including neuropsychological deficits in personal injury, post-traumatic stress, post-concussive syndrome, medical malpractice, mental competence, appropriateness/limitations of neuropsychological tests. Qualitative assessment of cognitive and mental impairments through effective testing and dynamic clinical evaluation. Forensic evaluations for psychologically traumatized patients of all ages.
