Damon M. Dell'Aglio, MD, FACEP

Emergency Physician, Medical Toxicologist Dell'Aglio Medical Consulting, P.C.

3610 E Kachina Drive Phoenix, AZ 85044 (267) 679-1091 dr.dellaglio@gmail.com

Board certified in Emergency Medicine and in Medical Toxicology with over twenty years of clinical practice. Experience as an emergency department medical director in two emergency departments over six years; duties included service on multiple hospital committees and hospital administrative functions. Faculty positions in emergency medicine with active bedside and didactic teaching. Years of consultation experience in numerous legal cases with experience in deposition and trial testimony. Legal areas have involved medical malpractice, product liability, dram shop, personal injury, family law, drug court, licensing board actions, wrongful death, and criminal law cases. Dual certification allows for enhanced review of circumstances involving emergency medical care, drug interactions, pharmacology, forensic toxicology, laboratory interpretation, overdoses, adverse drug reactions, drug testing analysis, drug and alcohol impairment cases, and drug withdrawal, and is especially helpful in cases where many of these factors coexist and interact.
