### PROFILE:

Mr. David S. Riddle, P.E., MBA, Esq., is the Director of the West Palm Beach office within The Falcon Group. Mr. Riddle brings over 30 years of experience to Falcon as an engineer and expert witness.

As the Director of the West Palm Beach office, Mr. Riddle is responsible for providing technical guidance and expertise to the team throughout the design and construction phases, maintaining a strong understanding of relevant regulations, codes and standards to ensure compliance. He performs and supervises a wide range of testing, including but not limited to material testing, analysis and performance evaluation. Mr. Riddle also oversees and assists with producing field reports detailing observations, measurements, and findings from site visits and inspections.

As Director, he also develops and maintains strong relationships with clients, industry partners, and stakeholders. He is responsible for developing and implementing effective marketing and business development strategies to expand Falcon's client base and market presence. He helps drive regional growth by identifying new business opportunities and expanding Falcon's footprint in the market.

As a Testifying Expert, Mr. Riddle evaluates facilities to identify potential construction defect, prepares expert disclosure reports to opine on construction defect cause and liability, and supports counsel during mediations and trial by providing expert testimony.

Within the previous Senior Account Executive/Performance Contracting Engineer position, Mr. Riddle communicated with customers to understand needs and apply my knowledge and experience with building systems to provide solutions instead of just throwing components at their problems, analyzed energy and operational savings to drive facility improvement projects, member of team that included sales, operations, and management that developed, procured, and executed performance contracts. He prepared and participated in sales proposals and presentations, lead cross functional teams to develop and design facility improvement projects, prepared and presented financial models to demonstrate ROI, lifecycle cost, and other financial calculation to demonstrate project justification.

Other previous positions held include Energy Engineer, Limbach Company; Project Manager/Owner's Rep, ASC Services; Engineer, Speer Mechanical; Senior Manufacturing Engineer, Robertshaw Controls; Field Engineer, Providence R.E.E.S.; Mechanical Engineer (Captain), US Air Force.
