Worked with clients with a diverse range of clinical issues including depression, anxiety, grief, interpersonal relationship problems, anger management, physical and mental abuse, sexual abuse, bipolar disorder, substance abuse, and adjustment problems. Completed Medi-Cal paperwork required for clients to receive and maintain psychotherapy.

Awake Overnight Counselor

Seneca Center**August 2007 – February 2010**

Supervised children with a high level of emotional disturbance in a group home setting. Children age ranges were 5-13. Supervised morning hygiene, quiet activity, play activities, transition to school and the cleaning of rooms. Helped children develop, maintain, and independently utilize both effective social skills and coping skills to replace maladaptive behaviors. Provided children with crisis intervention while also providing emotional and behavioral support. Transported children to school. Charted bed checks and morning behaviors of children. Wrote mental health notes and incident reports as needed. Trained in Pro-Act, ethics and professional boundaries, privacy laws, mandated reporting, and sexual abuse reporting.

Mental Health Worker Volunteer**Sharp Mesa Psychiatric Hospital****March 2006 – May 2007**

Facilitated and co-facilitated cognitive group therapy. Assisted with recreational group therapy and behavioral modification programs. Assisted children with social interactions and conflict resolution. Supervised and ensured safety of children during free time. Discussed children's behaviors with the program social worker. Provided guidance and leadership to children. Supervised daily hygiene routine. Received supervision and consultations from psychologists, social workers, psychiatric nurses, and behavioral therapists.

San Diego State University Counseling and Psychological Services**August 2006 – May 2007****Peer Educator:**

Worked actively with campus psychologists and social workers to create and execute outreach events to decrease the stigma associated with receiving counseling. The events also provided education and interventions on topics such as coping with stress, promoting positive body image, adjustment to college life, establishing and maintaining healthy relationships, preventing domestic violence, substance abuse issues, and general psychological services awareness. Received mentoring from a psychology graduate intern. Learned presentation skills, counseling skills, motivational interviewing, and reflective listening.

Resilience Coach: Bounce Back Program

Served as a resilience coach to college students on academic probation. Co-facilitated large and small group discussions using basic counseling skills to help motivate students to improve academically and develop healthy coping skills to manage college life. Provided leadership and guidance to college students. Offered emotional and educational support. Received supervision from a licensed psychologist.
