drcrain@dclocumsandmedicallegalconsulting.com

Founder and CEO of Dominique Crain Locums and Medical Legal Consulting LLC (Formerly Dominique Crain Locums LLC). Clinically active board-certified Family Medicine physician with extensive experience in high acuity hospital medicine as a hospitalist with current experience in multiple states. Prior experiences in primary and urgent care settings among other states. Former affiliated staff member of Stanford University. Former nominated GA Top Doc 2021.

CURRENT PRACTICE

Common Spirit North Georgia Memorial Hospital, Ringgold, GA (2026-present)

Locums Physician Hospitalist; Hospital Medicine

I oversee the admission, assessment, and management of acutely ill adult patients from the emergency department, referring facilities, and outpatient practices. I deliver medical care to individuals in medical-surgical, intermediate/step-down, and intensive care units.

Piedmont Eastside Hospital, Lawrenceville, GA (2024-present)

Locums Nocturnal Physician Hospitalist; Hospital Medicine

Responsible for the overnight evaluation, admission and management of acutely ill adult patients presenting from emergency departments and outside transferring facilities.

Emory University Hospital, Johns Creek, GA (2024-present)

Locums Nocturnal Physician Hospitalist; Hospital Medicine

Mid-shift admitting hospitalist assessing and admitting patients from the ED and accepting transfers from outside facilities.

Norton Audubon Hospital, Louisville, KY (2024-present)

Locums Attending Physician Hospitalist; Hospital Medicine

Responsible for the admission, evaluation, and management of acutely ill adult patients presenting from the emergency department, transferring facilities, and outpatient settings. I deliver medical care to patients in the medical-surgical, intermediate/step-down and intensive care units. Provide hospice services in collaboration with hospice specialists for terminally ill patients' end of life care.

North Knoxville/Turkey Creek Medical Center, Knoxville, TN (2024-present)

Locums Nocturnal physician hospitalist; Hospital Medicine

Responsibilities include admission and management of acutely ill patients from the emergency room, outside transferring facilities or direct admissions from outpatient facilities. Admit to the medicine-surgical unit, intermediate/step down unit and ICU. I respond to acutely decompensating patients in the units; sometimes necessitating emergent lifesaving interventions such as code blues.

PRIOR PRACTICE

University of Alabama Providence Hospital, Mobile, AL (2023-2024)

Attending Hospitalist Physician; Hospital Medicine

Admit and manage acutely ill patients from emergency room, transferring hospitals and direct admissions from outpatient facilities. Provide care to patients in med-surgical units, intermediate/step down units and ICU. Other responsibilities included outbound transfers and discharges.

Piedmont Urgent Care, Atlanta, GA (2021-2024)

Locums Attending physician, Family Medicine

Provide medical management for varying minor acute illness and/or injuries in a clinical setting. Delineated cases that warrant an escalation in care and execute transfer of care to a higher acuity treatment facility.

Stanford University Healthcare, Emeryville, CA (2022-2023)

Locums Attending physician, Family Medicine

Provide primary care to patients in a clinical setting.

Kahlihi Palama Health Center, Honolulu, HI (2022)

Locums Attending Physician, Family Medicine

Provide medical care to local and native communities on the island of Oahu. I helped manage and treat chronic medical conditions and collaborated on patient care with social services and case management.

Peachtree Immediate Care, Atlanta, GA (2021)

Locums Attending Physician, Family Medicine

I provided urgent immediate services for minor acute illnesses and injuries. Procedures include but not limited to laceration repairs, splinting, incision & drainage. I formulated diagnostic conclusions in immediate settings often delineating what warranted escalation of care. I communicated with respective staff at nearby hospitals and EMS to execute patient transfers
