

Dustin Phillips

CDL Instructor

11401 W 152nd Street

Overland Park, KS 66221

702-497-2745 Dustin@kingdomtruckingacademy.com

SKILLS

For the last seven years I have been a CDL instructor. I have had the highest graduation rates of any instructor in the nation. I have streamlined the teaching process to effectively train each student to pass the CDL exam. I have maintained a 100% passing rates for all my contracts over the last three years.

I spent three years at Johnson County Community College as a contract worker. I have taught several variations of Class A, pintle hook, gooseneck, bumper-hitch and fifth wheel. I am proficient in Passenger, School Bus and Class B.

I was the director for the contract for Union Pacific Railroad for 15 months. I oversaw the entire contract, dealing with the client directly. I helped handle CSTIMS for all my clients. I grew the class in less than a year from 1 truck to 3 trucks and 3 instructors. I handled the scheduling for the calendar year, the curriculum and the training of all the instructors. The class was a manual and the class ran for 6 days on the 7th they tested.

I worked for two years for Apex CDL Institute. The last year of my employment I helped grow the class sizes from 8 to 16 during my tenure. I maintained a 90% passing rate.

I have taught and graduated 2000+ students over the last seven years.

In 2023 I founded Kingdom Trucking Academy and operate KingdomTruckingAcademy.com where we offer online training videos to help pass your CDL exam. We provide on-site CDL training for companies and their employees. We are currently in the process of opening our first public CDL training school in Olathe, Kansas. Kingdom Trucking Academy is the only school in the United States that has a copyrighted training curriculum through the Library of Congress. I designed and tested the Kingdom Driver Training Program using 252 students. We had 100% rate using the program.

I own and operate Phillips Consulting LLC. Where I provide expert testimony and opinion queries for Law Firms in trucking related cases.

I own and operate Candyland ME Productions. Candyland ME is a production company that focuses on commercials, music videos and documentaries. To this date

To this date we have filmed several commercials and music videos. We have completed an original narrative short film and a mini documentary. We have produced two feature length music documentaries.

2 years prior I helped on Flip or Flop Las Vegas with a close friend Bristol Marunde.

I ran large jobs supervising several employees for Patriot Contractors. I have in depth knowledge of plans, grading, finish, sub grading. Owner of three small companies, college and professional athlete, former member U.S Team, 2004 Olympic Trials Qualifier, World University Qualifier, 2x All-American, KS High School State Champion, former world record holder and Retired Professional MMA Fighter.
