---

## CLINICAL EVIDENCE COMMUNICATION

---

Dr. Perper has spent 28 years in medical communications, co-founding Science Branding Communications and AnimationMD, and serving as Medical Director at Hybrid Medical Animation. He has designed and produced more than 100 medical animation and science presentation projects for academic medical centers and medical device manufacturers. This background gives him documented experience translating complex clinical findings into organized, accessible analysis for non-physician audiences, including legal teams, judges, and juries.

---

## PEER-REVIEWED PUBLICATIONS

---

Nesto RW, Phillips RT, Kett KG, Hill T, Perper E, et al. Angina and exertional myocardial ischemia in diabetic and nondiabetic patients: assessment by exercise thallium scintigraphy. *Ann Intern Med.* 1988;108(2):170-175.

Perper E and Segall GM. Safety of dipyridamole-thallium imaging in high-risk patients with suspected or known coronary artery disease. *J Nucl Med.* 1993;222:102-115.

---

## PROFESSIONAL AFFILIATIONS
