

FARAH HAROON, D.D.S., M.S.D.; BOARD-CERTIFIED PERIODONTIST

WORK EXPERIENCE

Azar & Kopic Periodontics & Dental Implants
Upland, California
Part-Time Associate Periodontist
Treatment rendered includes comprehensive periodontal treatment including scaling/root planning, osseous surgery, guided tissue regeneration, crown lengthening, implant surgery. Assisted office manager with managing staff job requirements and productivity.

August 2022 – Present

West 38th Dental
Indianapolis, Indiana
Associate General Dentist
Responsibilities include treating children and adults; treatment rendered includes comprehensive exams, preventive treatment, direct restorations, endodontics, routine and surgical extractions, removable and fixed prosthodontics, and non-surgical periodontal therapy.

April 2018 – June 2019

Urgent Dental Center and Family Dentistry
Indianapolis, Indiana
Associate General Dentist
Responsibilities include treating children and adults; treatment rendered includes comprehensive exams, preventive treatment, direct restorations, anterior and premolar endodontics, routine and surgical extractions, removable and fixed prosthodontics, and non-surgical periodontal therapy.

July 2017 – April 2018

Temple University Maurice H. Kornberg School of Dentistry
Philadelphia, Pennsylvania
Faculty Member and Clinical Manager of Off-Site Faculty Practice
Responsibilities included clinical teaching with junior and senior dental students as well as first and second year residents in the AEGD program; practicing general dentistry in an off-site faculty practice primarily focused on treating geriatric patients, including operative, fixed and removable prosthodontics, anterior and premolar endodontics, non-surgical periodontal therapy and extractions.
In addition to treating patients, I oversaw general management of clinic policies, chart auditing, updating office materials, and orchestrating organization of all materials and supplies.

August 2016 – June 2017

EDUCATION

Specialty Residency in Periodontics; Master's Degree
Roudebush VA Medical Center; Indiana University
Indianapolis, IN
Three year residency program in the field of Periodontology. Completed periodontal treatment for VA patients, including non-surgical therapy, osseous surgery, guided tissue regeneration, functional and esthetic crown lengthening, mucogingival surgery, crestal and lateral sinus lifts, ridge preservation, ridge augmentation, and surgical/restorative implant therapy. Worked in collaboration with General Practice Residency program directors and residents, as well as endodontics residents and faculty and staff oral surgeon. Completed emergency dental treatment (e.g. incision/drainage, post-op bleeding management) during on-call duties.

July 2019-June 2022

Albert Einstein Medical Center Philadelphia; Maxwell S. Fogel Department of Dental Medicine
General Practice Residency, PGY-2
Philadelphia, Pennsylvania
Optional 2nd year involved leadership and administrative role in working closely with the program director to manage first year residents' on-call schedule and duties, updating the program manual, off-site on-call (i.e. "second call") duties, clinical teaching, and clinical case presentations.
Further clinical training in non-surgical and surgical periodontal treatment including scaling/root planing, implant placement, second stage surgery, internal sinus lift, osseous surgery, connective tissue grafting, extraction with ridge preservation, ridge augmentation, lateral sinus lift with PRF. Planning and restoring full arch/full mouth crown and bridge cases (both implant and natural tooth supported). Routine dental

July 2015-June 2016

procedures including operative, endodontics, removable and fixed prosthodontics, oral surgery, and treatment of pediatric patients.

Albert Einstein Medical Center Philadelphia; Maxwell S. Fogel Department of Dental Medicine
General Practice Residency, PGY-1
Philadelphia, Pennsylvania

July 2014-June 2015

Hospital-based general practice residency program providing training in treatment of medically compromised hospital inpatients and outpatients, as well as weekly 24-hour on-site on-call responsibilities included managing odontogenic infections, dental trauma, and maxillofacial trauma.

Clinical experiences included non-surgical and surgical periodontal treatment including implant placement, endodontics, removable and fixed prosthodontics treatment, oral surgery, and treatment of pediatric patients.

University of California, Los Angeles; School of Dentistry
Doctor of Dental Surgery

August 2010- June 2014

Virginia Commonwealth University
B.S. Biology
Minor, Chemistry
3.98 Cumulative GPA, 4.0 Science GPA

August 2006 – May 2010

PUBLICATIONS

Haroon, F., Gregory, R. L., Hara, A., Blanchard, S. B., & Hamada, Y. (2022). In vitro comparison of root surface roughness and bacterial adhesion following treatment with three different instruments. *Journal of Periodontology*, 93(5), 83-91.
