## EMPLOYMENT HISTORY

### CHIROPRACTOR

Oct 2024 - Present

#### *Acu-care Acupuncture & Chiropractic*

- Chiropractic treatment for initial, follow-up, and returning patients using diversified, synthrop, flexion/distraction table, activator, drop table, decompression, and rehabilitation exercises and documentation.
- ♦ **Multidisciplinary Collaboration:** Refer and collaborate with other healthcare professionals to enhance patient outcomes (the acupuncturist and massage therapist). Delivered comprehensive chiropractic care, significantly enhancing patient mobility and alleviating pain through tailored treatment plans.
- ♦ Partnered with acupuncturists and massage therapists to create integrated care strategies, improving patient outcomes and satisfaction.
- ♦ Evaluated patient histories and treatment responses, applying evidence-based practices.
- ♦ Fostered a welcoming environment for patients, building trust and encouraging open communication to enhance therapeutic relationships.
- ♦ Cultivated strong patient relationships by fostering trust and open communication, enhancing overall patient satisfaction and retention.
- ♦ Implemented personalized treatment plans that improved patient mobility and reduced pain levels, leading to marked gains in health outcomes.

### CHIROPRACTOR

May 2025 - Aug 2025

#### *Norwalk Chiropractic Injury Clinic*

- Manage the personal injury clinic, perform an initial examination, treatment plan, treatments, re-exam, and rehab exercises.

### ASSOCIATE CHIROPRACTOR

May 2024 - May 2025

#### *Health Advantage Physical Medicine*

- Initial examination, re-examination, treatment plan, adjustment, decompression, ultrasound, e-stimulation, and documentations.
- **Collaboration with the nurse practitioner, acupuncturists, and massage therapists** at the integrative clinic for a continuity of care, including PRP injection, IV therapy, hormonal therapy, PEMF, and nutritional consultation.

### REGISTERED NURSE

2007 - 2017

#### *St Jude Medical Center*

- ♦ **Administration of chemotherapy agents and biotherapy in oncology acute care setting, ensuring patient safety, monitoring, and achieving high treatment adherence rates.**
- ♦ **Provided compassionate post-surgical care, fostering patient recovery and enhancing overall satisfaction with hospital services,** for an example, prostatectomy, mastectomy, chest tube insertion, etc., in the acute care setting.
- ♦ Monitored patient vitals and responses to treatments, leading to timely interventions and improved clinical outcomes.
- ♦ **Collaborated with multidisciplinary teams** to develop personalized care plans, strengthening patient management and care continuity with MD, specialists, physical therapist, occupational therapist, speech therapist, case manager, and patient/family members.
- ♦ Maintained accurate patient records and medication administration logs, supporting compliance and enhancing care quality.
