

Double-Board-Certified Neurologist & Interventional Pain Specialist

Highly accomplished neurologist and interventional pain physician with extensive experience in advanced pain procedures, neuromodulation, spine interventions, and comprehensive medical pain management. Recognized for consistent top-tier academic performance (97–98th percentile on Residency In-Training Exams for three consecutive years) and exceptional commitment to evidence-based medicine, research, and patient-centered care.

Brings over a decade of clinical, academic, and procedural expertise spanning interventional pain management, complex neuropathies, headache medicine, movement disorders, and spine-related pain syndromes. Experienced in ASC and office-based procedures, multidisciplinary team leadership, and medical education.
