8730 Cincinnati Dayton Road
Suite 873
West Chester, Ohio 45069-9998

Partnering with clients to solve complex challenges, Mr. Webber often delivers appraisals, risk mitigation strategies, tree and plant condition analysis and best management practices. Our companies mission is to deliver reliable, accurate solutions while upholding the highest standards of integrity and professionalism.

Mr. Webber provides investigations, reports, and expert testimony related to tree condition, maintenance, removal, plant health, and various agricultural, arboricultural, and horticultural matters. His expertise encompasses the management of arboricultural, horticultural, and agricultural operations; dendrochronology; pesticide application; and assessing crop and tree damage caused by both biotic and abiotic factors. He is skilled in evaluating the condition of damaged crops, trees, and plants, analyzing tree failures, and addressing a wide range of issues within these fields. Mr. Webber is an active member or participant in approximately forty industry organizations, including the American Society of Consulting Arborists, Ohio Chapter of the International Society of Arboriculture, Chartered Institute of Horticulture, International Dendrology Society, Tree-Ring Society, American Phytopathological Society, and the Occupational Safety and Health Administration (OSHA) Small Business Advocacy Review Panel for Tree Care

Industry Rules. He has been recognized as a court-qualified expert witness in Ohio, Massachusetts, Michigan, New Jersey, New York, North Dakota, Pennsylvania, Washington, and California, and he is also qualified to testify in federal court proceedings.

Mr. Webber has been working in farming, landscaping, tree care, and nursery and farm businesses since 1975. He remains active in his industry by serving on various committees and boards and as the Founder/Co-owner of an arboricultural and horticultural firm. In this capacity, he often provides a full range of technical assistance regarding various arboricultural, apiculture, agricultural, dendrochronological, and horticultural assignments. Mr. Webber often provides clients with tree evaluations, tree risk and condition assessments, plant inventories, and lawn care, weed, and pest control advice. Additional services include professional opinions regarding drainage improvements, soil health and nutrient levels, root system location and management, tree management during construction, retaining wall installation near trees, consulting, and other related areas. Mr. Webber has worked as a Research Assistant for BASF Corporation, conducting trials of fungicides, insecticides, and herbicides on a diverse range of economically important agricultural and horticultural crops. He also served as an Apiary (Honeybee) Technician for The Ohio State University.

Mr. Webber earned an Associate of Applied Science and a Bachelor of Science in Agriculture, majoring in Horticultural Science with a minor in Agricultural Economics, both from The Ohio State University. He is a Board-Certified Master Arborist with the International Society of Arboriculture. He is a Tree Risk Assessment Qualified Arborist with additional Municipal and Utility arboriculture certification. Mr. Webber is a Master Nursery Technician by the Ohio Greens Industry Association, formerly the Ohio Nursery & Landscape Association. He is designated as a MArborA by the United Kingdom's Arboricultural Association. Mr. Webber is also a New Jersey Licensed Tree Expert (LTE #639) and is a Licensed Arborist in multiple states. The American Society of Horticultural Science board has designated Mr. Webber as a Certified Professional Horticulturist. Mr. Webber is an admitted member of the Chartered Institute of Horticulture in the United Kingdom. The Chartered Institute of Horticulture has designated Mr. Webber as an MCIHort. Mr. Webber is an admitted member of the Society of American Foresters (SAF) and is designated a Certified Urban and Community Forester (CUCF). Mark is admitted to the American Society of Consulting Arborists (ASCA). ASCA has credentialed Mr. Webber as a Tree & Plant Qualified Appraiser (TPAQ) and Registered Consulting Arborist (RCA) 706.

EXPERT NOT RETAINED

- Investigated a tree limb failure that was allegedly damaged by lightning—Tennessee 2026
- Tree risk assessment for hazard trees for park district—Ohio 2026
- Assess tree conditions and make recommendations for new tree plantings—Ohio 2026
- Tree Risk Assessment of a Golf Course—Minnesota 2026
- Tree Protection Plan for a private property having a public sewer installation. Ohio 2026
- Assess trees' potential damage by the installed water and sewage lines. Ohio 2026

Dendrochronology work involving assignments.

- Determined if Burr Oak (*Quercus macrocarpa*), Yellow Buckeye (*Aesculus flava*) and Boxelder (*Acer negundo*) trees were adversely affected by a flood event—Ohio (2009)
- Determined the age of two Lilacs (*Syringa vulgaris*) in a property-line dispute—Ohio (2012)
- Determine the approximate time frame when a wire fence was installed by conducting tree ring analysis of a wound found in a Black Cherry (*Prunus species*) tree—Ohio (2013)
- Determine the adverse effects of Aminocyclopyrachlor (Imprelis) on Eastern White Pine (*Pinus strobus*) and Norway Spruce(*Picea abies*)—Minnesota (2014)
- Determined the age of tree saplings (Maple- *Acer species*), Oak (*Quercus species*), Hickory (*Carya species*) affected by flood and hillside collapse events—Ohio (2015)
- Determined of how long a Scarlett Oak (*Quercus coccinea*) was dead by collecting and conducting a wood ring analysis of Chinese Privet (*Ligustrum sinense*)—Texas (2015)
- Determination if a Pear(*Pyrus species*) tree was treated with herbicide—West Virginia(2016)
- Determination of a Pitch Pine *(Pinus rigada*) growth rate and bark beetle injuries—New Jersey (2016)
- Determined the growth rate of a White Ash(*Fraxinus americana*)tree prior to its failure—Ohio (2016)
- Determined the age of defects of a Pin Oak (*Quercus palustris*) tree—Ohio (2017)
- Determined the age of a dead-branch stub of a Pecan (*Carya illinoinensis*) tree—Virginia (2017)
- Determined the age of a tree wound on a Black oak (*Quercus velutina*) tree—Ohio (2018)
- Determined the age of Sassafras (*Sassafras albidum*) affected by constant and periodic exposure to electrical conductors—Pennsylvania (2018)
- Determined the age of tree wounds on a Pin Oak (*Quercus palustris*) tree—New Jersey (2018)
- Determined the age of tree wounds on a Norway Spruce (*Picea abies*) tree—Pennsylvania (2018)
- Determined the age of tree wounds and water sprouts on an American Basswood (*Tilia americana*)—Minnesota (2018)
- Determined the age of a Red Maple (*Acer rubrum*) tree's trunk wound—Pennsylvania (2019)
- Determined the age of Red Oak (*Quercus rubra*) tree's wound—Ohio (2019)
- Determined the age of wounds related to "wood-screw" installation in a White Ash (*Fraxinus americana*)—Ohio (2019)

EXPERT NOT RETAINED

- Vegetation injury due to pesticide runoff—Kentucky 2025
- Tree limb failure of Red Oak –Indiana 2025
- Pre/Post burn condition of vegetation in separate fires-Texas 2025
- Canopy change analysis related to pesticide use—Ohio 2024
- Silver Maple tree exposure to pesticides—Ohio 2020
- American Sycamore health assessment—Ohio 2020
- Burr Oak health assessment—Ohio 2020
- Swamp White Oak health assessment—Ohio 2020
- Black Oak health assessment—Ohio 2020
- Black Locust health assessment—Illinois 2019
- Pin Oak failure—Ohio 2019

Professional Experience

- Mark Webber's Arboricultural & Horticultural Consultancy L.L.C. 2020 to Present
  (Senior Technical Consultant)
  - Providing arboricultural and horticultural consulting services to clients, including technical investigations, analysis, and reports involving Apiculture, Agricultural, Botany, Dendrochronological and Horticultural issues.
  - Agriculture: pesticides affect crops, soils, and surrounding plant life, farming methods, crop growth modeling, productivity, and valuations.
  - Apiculture: beekeeping practices including public safety, worker safety, pollination services, honey production, sudden colony collapse, effects of pesticides, and the keeping of bees in urban centers.
  - Arboricultural: tree failures including branches, trunk, sudden branch drop, uproot, and others.

EXPERT NOT RETAINED

© Copy Written Work Product of Mark Webber's Arboricultural & Horticultural Consultancy LLC

Tree failures due to abiotic and biotic factors. Municipal tree inventory practices, pruning practices, cabling, propping and bolting practices, effects of hardware installed into trees, work, and business practices, cutting methods, equipment use and operation, tree risk assessment practices, tree-root-hardscape interface, tree-root-pipe interface, tree appraisals, dendrology, dendrochronology, wood decay, wound closure, growth rates, physiology, tree/plant fluid movement, tree sap, tree structure elements, ring-porous trees, diffuse-porous trees, autotrophic tree species, tree/plant morphology, tree growth modeling, and wood identification. Utility arboriculture, including tree and plant compatible communities, pruning systems, clearance requirements, worker safety, pruning cycles, use of GIS/GPS data, tree risk assessment and management, tree conditions influenced by electrical exposure, and inspections.

- Botany: algae, moss, and plant identification, life cycle, structure, and growth conditions.
- Dendrochronology: Tree stand age, trees establishment dates, trees conditions altered by fire, floods (flood trained trees), herbicide injuries, soil movements causing geotropic conditions, eccentric ring patterns, false rings, absent rings, biotic agents, other abiotic conditions, cross-dating, and pith-locator techniques.
- Horticulture: plant failure caused by abiotic and biotic conditions, plant identification, plant selection, plant growth modeling, plant value determinations, planting and establishing plants, fruit & nut drop management, landscape design, garden center operations, nursery production, work, and business practices, fertility and pesticide use, and application, soils, stone fruit production, apple production(pomology), small fruit production, viticulture, vegetable production(olericulture), weed control, maintenance, site drainage, hardscaping, parks, farming practices, bike/hike paths, retaining walls, street trees, herbicide injury, irrigation practices, and methods including organic and conventional means.

- Rimkus Consulting Group, Inc. ..... 2020 - Present
  Principal Consultant - Forensic Arborist
  - Provides arboricultural and horticultural consulting services to clients, including, but not limited to, technical investigations, analysis, reports, and testimony toward the resolution of commercial and personal injury litigation involving Agricultural, Apiculture, Arboricultural, Botanical, Dendrochronological, and Horticultural issues.

- Robson Forensic, Inc. 2012 to 2020
  - Associate

  Provided technical investigations, analysis, reports, and testimony toward the resolution of commercial and personal injury litigation involving Apiculture, Arboricultural, Botany, and Horticultural issues.

- Mark Webber's Landscaping Company, Dayton, OH 1997 to 2023
  - Founder/Co-owner
  - Started and actively managed a landscape design and build, tree, property-care, consulting, and plant

EXPERT NOT RETAINED

production nursery business. Started and actively managed a landscape design and build, tree, property-care, consulting, and plant production nursery business for 26+years. Those activities included rezoning of a property, Chemical Applications, Trimming and Edging Flower Beds, Mulching Gardens, Tree Removals, Tree Risk Assessment, conducting Levels #1, #2, #3 ,Working aloft, Climbing trees with ropes and utilizing aerial devices, removal of trees with cranes, and Power Trimming. Landscape Pruning of trees near power lines, plant placement in and near energized conductors, working near energized conductors, Project Management, Landscape Design, Pruning and Trimming, Task Delegation, Project Scheduling, Layout Designs, Fertilizer Safety, Worksite Safety, Employee Performance Evaluation, People Management, Team Management, Training & Development of Employees, Personal Protection Equipment Use and Application, Customer Service, Supervision & Leadership, Maintenance & Repair of equipment, Delegated work to staff, setting priorities and goals., Planned and delivered training sessions to improve employee effectiveness and address areas of weakness. Proposed or approved modifications to project plans., Pruned trees and bushes to improve visibility and shape, Troubleshot mechanical issues and completed basic repairs to keep equipment working at peak levels., Maintained garden areas and landscaping greenery to enhance property appearance and plant health, cleared pathways of overgrowth, debris, and snow to reduce hazards., Applied mulch and burlap coverings to bushes and trees for winter, Radial and vertical aeration of tree root systems, root collar inspection, Trimmed shrubbery and trees to help plants produce more flowers and fruit to benefit wildlife, operated landscaping equipment to maintain grounds and remove trees., Cut and trimmed lawns using power mowers and edgers. Performed preventative maintenance to keep equipment in excellent working condition., Utilized automatic sprayers to mix and spray fertilizers and herbicides onto grass and trees., Picked and chose new shrubs and plants according to bedding and sunlight., Built pergolas, retaining walls, decks, and large and different-scale water features to enhance the grounds. Pruned and trimmed trees and shrubs with shears and pruning saws., Pruned and trimmed trees and hedges with shears, pruners, bucket trucks, use of cranes or chain saws., Planted trees, shrubs, bushes, and flowers in decorative planters and displays., Trimmed flowers and cleaned flower beds., Adjusted amount of water consumption using irrigation methods to prevent waste., Followed landscaping designs to determine placement of sod, flowers or foliage., Cared for lawns by mulching, aerating, weeding or grubbing, Mixed and sprayed or spread fertilizers, herbicides, or insecticides using hand or automatic dispensers, Maintained or repaired tools or equipment for safety and longevity, Winterized irrigation systems and restarted systems in spring, Raked, mulched and composted leaves, Propagated various species of plants, Developed soilless potting mixes, Monitored soluble salts and nutrient needs of nursery crops, Harvested nursery stock by hand digging and with machine harvestings, Green log weight calculations, Provided proper upkeep of planters, paved areas or other grounds features, Trimmed or edged around flower beds, walks, or walls, Shoveled snow and plowed snow and spread salt on walkways and parking lots., Set support stakes and attached wires from planted trees. Water lawns, plants, or trees, using sprinkler systems or watering cans as part of the overall maintenance plan. Built or maintained greenhouses, polyhouses, fences or benches. Advised customers on plant, flower or shrubbery care. Pruned trees and trimmed bushes and hedges to keep grounds neat and inviting. Applied weed and pest control

chemicals to protect customer lawns. Removed debris and trash from surrounding areas and disposed of recyclable materials properly. Used hand-held tools to maintain green spaces. Used heavy equipment, mowers and trimmers safely to prevent accidents. Fertilized, cultivated and weeded soil to deliver steady supply of nutrients to plants. Checked machinery and performed routine maintenance to prevent malfunction. Prepared property for winter conditions using weather-proofing materials. Mowed lawns and trimmed grass around sidewalks, flower beds and walls. Lifted and removed fallen or damaged branches using hand and power tools. Moved leaves and grass clippings using leaf blower. Swept and power washed hard surfaces to remove grime. Transported mulch, soil and sand using shovel and rake. Scheduled regular landscaping services to promote optimal growth and maintain attractive appearance of lawns and facility grounds. Managed business responsibilities Plan landscapes with proper plant recommendations for locations Determined pricing for products or services based on costs and competition. Analyzed financial statements and trends to manage cash flow and make business decisions. Improved company's quality and productivity by streamlining systems and processes. Mentored and trained new hires on sales techniques and customer service procedures. Set pricing structures according to market analytics and emerging trends. Managed sales presentations to promote product and brand benefits. Analyzed client business needs and assisted in determining appropriate resources and strategies. Supervised performance of workers with goals of improving productivity, efficiency and cost savings. Oversaw staff hiring, initiating new training and scheduled processes to streamline operations. Promoted business on social media platforms to maximize brand identity and generate revenue. Hired and trained new department managers to increase team oversight and productivity. Created and implemented employee onboarding and training programs to promote employee retention and team collaboration. Developed safety plans and traffic control at job sites. Developed and instructed employees regarding safety, including Electrical Hazard Awareness. Negotiated with vendors to gain optimal pricing on products, resulting in a substantial increase in profit margin. Oversaw project execution, phase progress, workmanship, and team performance to drive on-time completion of deliverables. Established favorable relationships with vendors and contractors, facilitating contract negotiation and development of marketing and sales strategies. Managed operations budgeting, accounts payable, accounts receivable, and payroll. Supervised company social media and marketing efforts to expand brand awareness and attract new customers. Kept records for production, inventory, income, and expenses. Interviewed, trained and supervised employees. Kept up to date on regulatory changes affecting business operations. Resolved issues quickly through meticulous research and quick decision-making.

- Currently providing consulting services to clients regarding agronomic, arboricultural, and horticultural assignments.

- Tru-Gro Landscaping; Dayton, OH 1995 to 1997
- Owner/Manager

  Directed sales, operations, and managed 25 plus employees doing tree and landscaping operations involving commercial and residential accounts.

EXPERT NOT RETAINED

© Copy Written Work Product of Mark Webber's Arboricultural & Horticultural Consultancy LLC

- WHIO; Dayton, Ohio 1989-2025
  - Radio Talk Host of a weekend talk show titled "Garden Talk with Mark Webber" offering expert advice and answering callers questions regarding arboricultural, horticultural, and agronomic issues.

- WDTN/WKEF; Dayton, OH 1986 to 2000
  - Consultant for Television News Station

  Provided on live on-air expert advice on the care and management of plants and trees.

- Farmer Dan's; Dayton, OH 1986 to 1995
  - Manager/Owner

  Production and garden center sales of Bedding Plants, Cider, Christmas Trees, Nursery Stock, Stone Fruit, Apples, Pears, Raspberries, Blueberries, and Vegetables. Started a landscape design and build division.

- Aichholtz Farms; Newtown, OH 1984 to 1986
  - Crop Manager

  Responsible for pest control and took part in the production and harvesting, packaging, marketing, and shipment of over 300 acres of vegetable and small fruit crops.

- Steiner's Bee Farm, Van Buren, Ohio 1980-1983

  Worked as an apprentice beekeeper. Cleaned and built bee hives. Assisted with swarm collection. Assisted with comb and bottled honey production, transport, and hive placement for both honey and pollination services.

- 1983 BASF Corporation; Parsippany, NJ 1983
  - Research Assistant

  Involved with implementing experimental trials of herbicides/fungicides/insecticides on crops: Corn, Mint, Stone Fruits, Apples, Small Fruits, Soybeans, Wheat, Cotton, and Christmas Trees.

- The Ohio State University; Columbus, OH 1981 to 1984
  - Honeybee Technician/Apiculture

  Repaired equipment. Assisted with research data collection. Kept and maintained Honeybee Colonies.

- Turkenburg Nursery; Madison, OH 1980
  - Intern

  Worked in all phases of nursery plant propagation. Involved with the day-to-day operations.

EXPERT NOT RETAINED

- Day's Nursery; Findlay, OH 1975 to 1979
  Worked in all phases of nursery production, landscaping installation, and sales.

Education and Certifications

- 1984- A.A.S., BS, in Agriculture with a major in Horticultural Science, and a minor in Agricultural Economics, The Ohio State University, Columbus, OH. These degrees included specialized education, and training involving plant identification, plant nomenclature, crop botany, plant morphology, arboriculture, irrigation, drainage, soil science, landscape horticulture, landscape & nursery management, plant propagation, plant sciences, plant physiology, entomology, plant pathology (plant diseases), pomology, olericulture, viticulture, animal science, forage crops, weed science, and agricultural business management.
- 1997- Present- Ohio Commercial Pesticide Applicator 6A, 6C, 8
- 2005-Present- Master Nursery Landscape Technician, Ohio Nursery & Landscape Association (ONLA), Columbus, OH.

  Expertise in three areas of specialization: Core basics of plant science, Garden Center Management, and Plant Grower and Landscape operations and management. Once a person successfully obtains all three specializations, they are granted the Master Technician status.
- 2013-Present- I.S.A. Board Certified Master Arborist OH-0824BUM, International Society of Arboriculture, (I.S.A. Certified Arborist, 1998-2013)
- February 2013-2017. (Requalified 2017-2023) (Requalified 2023-2028.) Tree Risk Assessment Qualified (TRAQ), International Society of Arboriculture.

  Expertise in: Identification of tree defects, causes of tree failures, determination of target risk exposure, quantification and qualitative of tree risk to targets, determination of impact on targets affected by tree failures, tree failure analysis of weather conditions that are caused by wind, rain, snow, ice, derechos, tornadoes, and hurricanes.
- 2014-Present- Wildlife Protector Certification, Wildlife Training Institute.
- 2016- Present- Licensed Arborist in Rhode Island
- 2016- Present- Licensed Arborist in Minnesota
- 2016- Present- First Class Landscape Licensed Arborist in Maine
- 2016- Present- First Class Utility Arborist
- August 2016- August 2017- Certified Tree Expert #639, Board of Tree Experts, Jackson, NJ.
- August 2017-Present- Licensed Tree Expert #639, Board of Tree Experts, Jackson, NJ.
- 2017- Present- Certified Professional Horticulturist #30086, American Society for Horticultural Science, Alexandria, Virginia.
- 2017-Present- Licensed Arborist in New Jersey
- 2018-Present- Certified Urban Forest Professional (Formally the Certified Municipal Arborist Specialist)

EXPERT NOT RETAINED

© Copy Written Work Product of Mark Webber's Arboricultural & Horticultural Consultancy LLC

Expertise in: Municipal tree management, tree inspections, tree root public sidewalks and infrastructure conflict, tree hazards, tree volume needs, employee training and supervision and tree planting.

- 2018-Present- I.S.A. Certified Arborist Utility Specialist, International Society of Arboriculture.
  Expertise in: Growth rates of trees, pruning systems, pruning cycles, safe work practices in and near energized conductors, electrical conductivity in trees, tree removal and rigging near conductors, vegetation management in and near conductors, growth regulators, and customer relations.
- 2018-Present- MArborA, designated by the Arboricultural Association, United Kingdom.
  MArborA is the second-highest arboricultural designation in the United Kingdom.
- 2019- Present- Sky Warn Weather Spotter Training Certification, National Weather Service.
- May 2019-2024. (Requalified 2024-2029) Tree and Plant Appraisal Qualification (TPAQ), American Society of Consulting Arborists.
- 2020- Graduate from ASCA (American Society of Consulting Arborists) Consulting Academy in Sacramento, California.
- 2020-Present- Registered Consulting Arborist #706, American Society of Consulting Arborists.
  Expertise in higher skills in technical areas related to trees and tree care, providing objective, independent opinions, with training for higher communication, presentation, and report writing skills.
- 2024-Present Certified Urban and Community Forester CUCF. Society of American Foresters 2024-Present
  This credential promotes the holistic nature of urban and community forestry that's focused on resource conservation across the canopy intersected with the complex and dynamic infrastructure and stakeholder ecosystem.
- 2024-Present Certification of Completion of the Proper Tree Planting Program. Ohio Chapter ISA-2024
