

Mike Milinkovic

DOCTOR OF CHIROPRACTIC

Professional Summary

As an experienced Chiropractor for the past 18 years in the state of California, I have learned to blend clinical excellence with legal acumen, ensuring patient care stands up both in healing and in court. My attributes include:

- Evidence-based treatment plans that align with current research and standards
- Thorough, objective documentation of patient injuries, progress, and causation
- Clear understanding of medico-legal terminology and standards for admissible reports
- Translate clinical findings into legal language for attorneys and insurers
- Collaborate well with attorneys, case managers, and other providers

Authorized to work in the US for any employer

Work Experience

Doctor of Chiropractic

GEO Chiropractic Clinic-San Marino, CA

January 2006 to Present

- Perform comprehensive chiropractic examinations and assessments to diagnose musculoskeletal conditions
- Develop personalized treatment plans for patients based on their specific needs and goals
- Administer manual adjustments, spinal manipulations, and other chiropractic techniques to alleviate pain and improve mobility
- Utilize diagnostic imaging, such as X-rays or MRI scans, to aid in the diagnosis of complex cases
- Collaborate with other healthcare professionals, including physical therapists and massage therapists, to provide integrated care for patients
- Educate patients on proper posture, ergonomics, exercise routines, and lifestyle modifications to prevent future injuries or chronic conditions
- Provide therapeutic exercises and stretches tailored to each patient's condition to enhance their recovery process
- Monitor patient progress through regular re-evaluations and adjusted treatment plans accordingly for optimal results
- Maintain accurate medical records documenting patient history, examination findings, diagnoses, treatments provided, and outcomes achieved
- Stay up-to-date with advancements in chiropractic research and techniques through continuous professional development activities
- Manage a diverse caseload of patients with varying ages ranging from children to elderly individuals
- Demonstrate empathy towards patients' concerns while providing reassurance throughout the treatment process
- Ensure compliance with all relevant healthcare regulations and ethical guidelines
- Participate in professional conferences and seminars to enhance knowledge and skills

- Develop strong relationships with patients, fostering trust and loyalty
- Implement electronic health record (EHR) system to streamline documentation processes
- Implement patient education materials, including brochures or online resources, to enhance patient understanding of treatment options and self-care practices
- Conduct regular staff meetings to ensure effective communication among team members
- Develop marketing strategies aimed at attracting new patients through community events or online platforms
