

CURRICULUM VITAE

ROBERT HOLMER, PE, GE PRINCIPAL ENGINEER

AREAS OF EXPERTISE

SWIMMING POOL ACCIDENT INJURY AND CONSTRUCTION DEFECT

- Engineer of Record for over 30,000 residential and 500 public swimming pool projects.
- Performed over 100 Forensics Investigation of swimming pool construction defects/failures
- 20 years expert witness experience including over 40 depositions and testimony at 7 trials
- Special Expert on the Technical Advisory Committee with the Uniform Swimming Pool, Spa, and Hot Tub Code
- Numerous publications in conference proceedings and trade magazines on various topics for best practices of swimming pool construction
- Numerous speaking engagements at conferences and trade shows on various topics for best practices of swimming pool construction
- Degrees in Civil Engineering from California Polytechnic State University and the University of Colorado
- Registered Civil and Geotechnical Engineer and licensed in nine states
- Engineering license exam development with the California Board of Professional Engineers
- Past Director for the California Geotechnical Engineers Association

PROFESSIONAL EXPERIENCE

Rob is the President of H2 Engineers Inc, an engineering consulting firm specializing in the design, engineering and construction of swimming pools and aquatic facilities. Prior leadership roles have included Principal Engineer and Sacramento Office Manager with Terracon Consultants, Inc (2014 to 2019), Director of Aquatic Engineering Services, Director or Field and Laboratory Testing Services, and Chief Operations Officer of Neil O. Anderson & Associates (2000 to 2014). In 2005, Rob opened the Concord office of NOA and managed both Sacramento and Concord offices.

Expert witness consulting makes up approximately 50% of Rob's practice. His clients have included owners, contractors, attorneys, insurance companies, and public agencies. He has been retained by both plaintiff and defense and has testified more than 30 times at deposition and trial.

SWIMMING POOL ENGINEERING EXPERTISE

Rob has served as the Engineer of Record for the successful construction of over 30,000 residential and 500 commercial swimming pool projects. Rob specializes in the most challenging swimming pool projects including large residential and commercial facilities, rooftop pools, competition pools, public and private recreation facilities, and water parks. His engineering consultation services includes structural, geotechnical, mechanical systems, hydraulics, water treatment, materials engineering, risk management, and code compliance.

Education

California Polytechnic State University, Bachelor of Science in Civil Engineering, 1994

University of Colorado, Master of Science in Geotechnical Engineering, 1998

Certifications

Registered Civil Engineer: CA, FL, NV, TX, CO, HI, MO, PA, NM

Registered Geotechnical: CA

GEOTECHNICAL ENGINEERING EXPERTISE

Over the span of his career, Rob has authored over 1000 Geotechnical reports and investigations. He is an experienced expert in many geotechnical disciplines including: soil mechanics, deep and shallow foundations, expansive soils, ground water monitoring, temporary and permanent construction dewatering, pavement design, slope stability analysis, liquefaction, geosynthetics, retaining walls, and materials testing.

FORENSICS ENGINEERING EXPERTISE

Rob has performed forensic investigations to diagnose the cause of defects at more than 100 swimming pools throughout the United States. Using a combination of both destructive and non-destructive test methods, Rob carefully and comprehensively evaluates construction materials, foundation systems, mechanical equipment, plumbing, and water treatment for compliance with construction documents, industry standards and building codes. Rob is an expert in reverse engineering and diagnosing construction defects and structural failures related to all phases of swimming pool construction including structure settlement, structure heave, concrete (shotcrete) workmanship defects, reinforcement workmanship defects, waterproofing failures, porcelain and stone tile failures, plaster failures, water treatment deficiencies, and mechanical system failures. Field methods used to perform investigations have included, but are not limited to, visual inspection, concrete coring and testing, geotechnical drilling and sampling, ground penetrating radar, and laboratory testing.

PROFESSIONAL AFFILIATIONS

Uniform Swimming Pool, Spa, and Hot Tub Code, Technical Advisory Committee Member, 2015 – 2021 Pool and Hot Tube Alliance – International Code Council Drafting Committee for Rooftop Pools California Geotechnical Engineers Association (CGEA), Board of Directors 2002 ~ 2008 California Board of Professional Engineers, Geotechnical License Exam Development, 2005~2006 Forensics Expert Witness Association (FEWA), Member
