## OBJECTIVE

---

I am a fourth-generation gem and jewelry professional and the owner of a dual-certified gemological laboratory. I hold professional designations across multiple organizations specializing in diamonds, gemology, and jewelry appraisal methodology. My valuation services cater to a diverse clientele, including attorneys, estate planning professionals, retail jewelers, pawnshops, insurance companies, private clients, fellow appraisers, and federal law enforcement agencies. All Appraisal Reports and Appraisal Review Reports I produce adhere to the Uniform Standards of Professional Appraisal Practice (USPAP), ensuring accuracy and compliance with industry best practices. I am actively seeking new opportunities in expert witness services and estate appraisals.

## EXPERIENCE

---

In addition to providing appraisal services for private clients and industry professionals, I have been subcontracted to assist in the valuation of jewelry and watches seized by federal law enforcement agencies, including the U.S. Secret Service (USSS), Internal Revenue Service (IRS), Department of Homeland Security (DHS), Customs and Border Protection (CBP), Immigration and Customs Enforcement (ICE), and the U.S. Coast Guard (USCG). I also have expert witness experience, having provided testimony in multiple cases involving gems and jewelry.
