SEARCH GRANTS AND FELLOWSHIPS RECEIVED:

Current Grants

6/29/22 to 5/31/27 — UCLA CTSI UL1 grant award
Role: Investigator – 0.05% annually x 5 years

Agency: CTSI Special Populations program

Funding cost: $ 2,235,360, 0.05% effort

Project Goal: The mission of the UCLA CTSI is to catalyze research that translates discoveries into tangible improvements in health care and disease prevention and treatment in the ethnically, socially and economically diverse population of Los Angeles County, and ultimately to see this research impact

health care throughout the United States. Key to achieving this mission are the abilities to perform innovative, well-designed research safely, efficiently and reliably, and to engage individuals of all ages, races and socioeconomic backgrounds in these research efforts.

Past Grants

Summer 1993	American Heart Association Research intern UCSF School of Medicine; Alan Verkman M.D., Ph.D. Biophysics research to examine if the cell cytomatrix acts a sieve for solutes in cytoplasm using fluorescence recovery after photobleaching.
Summer 1998	John A. Hartford Foundation/AFAR summer research scholarship UCLA School of Medicine; David Reuben, M.D. Research culminating in Reuben DB, Talvi SLA, et al, Journals of Gerontology: A Biol. Sci. Med. Sci. 2000 55: M618-M624.
2006 - 2007	Donald W. Reynolds Faculty Development to Advance Geriatrics Education (FD~AGE) at UCLA grant to develop an educational tool, with the aim to use it in clinical practice to assist geriatricians in making decisions about whom to recommend screening mammography.
1/1/2018-1/1/2021	LEAP: Expanding community based exercise programming for older adults to enable them to age in place and address social isolation. Role: Co-Investigator – 0.025 FTE annually x 3 years Agency: AARP Foundation Project Goal: The Cedars-Sinai Medical Network, with help from community partners, will provide additional older adult opportunities to engage in evidenced based community exercise programs to improve their wellness, decrease their risk of falling, and improve social connectedness. The Grant funds a community health coach and additional locations for exercise programs. We will eliminate common barriers by assisting with transportation costs and utilizing physician referrals for outreach.

9/1/18 – 6/30/23 A Multicenter RCT of Pharmacist-Directed Transitional Care to Reduce Post-Hospitalization Utilization

Role: Geriatrician Leader – 0.05 FTE annually x 5 years

Agency: National Institute on Aging (NIH), R01AG058911 (Pevnick)

Funding Cost: $3,194,835, 0.05% % effort

Project Goal: This project studies implementation of known methods of reducing medication errors, with focus on involving pharmacists in the care of older adults after hospital discharge. The goal of this project is to create new knowledge to make it easier for more hospitals and health systems to leverage these known methods, so that they can reduce harm caused by medication errors.

5/1/18 – 5/31/22 UCLA CTSI UL1 grant award

Role: Investigator – 0.025% annually x 3 years
Agency: CTSI Special Populations program

Funding cost: $ 2,278,550, 0.025% effort

RESEARCH FOCUS AND INTERESTS

My research and clinical interests include optimal models of care in the Age-Friendly Health System, safe transitions of care and safe prescribing in older persons, social determinants of health, population health strategies in Medicare Advantage, atypical presentation of disease and comprehensive geriatric assessment. I am the he author of multiple chapters and research publications in these areas, and a national and internal speaker on my original research and geriatric models of care.
