Professional Summary

Senior safety, compliance, and investigations executive with over 20 years of experience leading enterprise-level regulatory and risk-management programs in highly regulated transportation and public-safety environments. Proven ability to design, implement, and oversee scalable compliance systems aligned with federal and state regulatory requirements, including DOT/FMCSA and hazardous-materials regulations, while balancing operational efficiency and risk reduction. Experienced leader of multidisciplinary teams responsible for audits, investigations, training, and continuous improvement, with a demonstrated record of improving safety performance, strengthening internal controls, and delivering defensible outcomes. Strategic partner to executive leadership, providing clear guidance on regulatory exposure, incident response, and enforcement risk, and translating complex regulatory requirements into practical, business-ready processes that support organizational objectives.

Core Competencies

- Enterprise Safety, Compliance & Investigations Leadership
- DOT / FMCSA Regulatory Compliance (49 CFR)
- Hazardous Materials & Transportation Safety Programs
- Regulatory Risk Assessment, Mitigation & Governance
- Internal Audits, Compliance Reviews & Investigations
- Incident Response, Root Cause Analysis & Corrective Action
- Safety Management Systems (SMS)
- Policy Development & Organizational Governance
- Executive Reporting & Board-Level Briefings
- Cross-Functional & Multidisciplinary Team Leadership
- Training Systems, Credentialing & Safety Culture
- Regulatory Analytics & Continuous Improvement

Professional Experience

Owner | Southeast Consulting & Analysis, LLC

Armuchee, GA | 2020 – Present

- Lead delivery of regulatory compliance, safety, and investigative advisory services for transportation, industrial, and enforcement-sensitive clients operating in highly regulated environments, serving as an embedded compliance and risk-management partner to executive leadership.
- Design, implement, and oversee internal compliance programs aligned with DOT/FMCSA and hazardous-materials regulations, strengthening audit readiness, regulatory defensibility, and operational continuity.
- Conduct internal audits, compliance reviews, and incident investigations; synthesize findings into executive-level recommendations that reduce regulatory exposure, mitigate enforcement risk, and improve safety performance.
- Partner with executive leadership, legal counsel, and operational stakeholders to support litigation preparedness, regulatory response, and enforcement actions, ensuring defensible positions grounded in regulatory standards and documented controls.
- Develop and deliver targeted training programs and governance tools that standardize compliance execution, strengthen internal controls, and support sustainable safety cultures.

Operations & Applications Specialist | Radiation Solutions, Inc.

Mississauga, ON | 2020 – Present

- Provide technical advisory support, training, and operational integration for radiological and nuclear detection systems supporting counterterrorism and Preventative Radiological Nuclear Detection (PRND) missions.
- Design and deliver specialized training programs to enhance operational effectiveness, system utilization, and field-level decision-making for PRND teams.
- Support product development through customer feedback, operational requirements analysis, and applied field expertise to improve system usability and mission alignment.
- Lead installation, demonstration, and operational deployment of detection systems, including mobile, backpack, and unmanned aerial (drone-based) platforms.
- Support business development and stakeholder engagement across government and security-sector partners.

Georgia Department of Public Safety

2003 – 2020

Lieutenant, Special Operations | 2014 – 2020

- Directed statewide safety, compliance, and special-operations programs within a complex, multi-jurisdictional regulatory environment, advising executive leadership on enforcement risk, operational performance, and regulatory exposure.

- Led development of the Department of Public Safety Strategic Plan and served on the Governor's Office of Highway Safety committee responsible for drafting the State Highway Safety Plan.
- Assisted in planning, execution, and oversight of an annual operating budget exceeding \$50 million, ensuring alignment with organizational priorities, grant requirements, and performance objectives.
- Led federally funded safety and compliance initiatives tied to FMCSA and national transportation-safety objectives, overseeing program governance, reporting, and performance controls.
- Oversaw development and implementation of statewide policies, SOPs, and compliance regulations.
- Drafted intrastate regulations governing operation of commercial motor vehicles within the State of Georgia.
- Provided executive level reporting and strategic guidance on regulatory trends, incident response, and compliance risk to command staff and state leadership.
- Drafted legislation to submission to the Georgia General Assembly and provided testimony in support of legislation.
- Appointed to a congressionally mandated Federal Motor Carrier Safety Administration working group to revise national policy and guidance for all states and U.S. territories under the Motor Carrier Safety Assistance Program.

Sergeant First Class | 2012 – 2014

- Supervised regional compliance and investigative operations, managing teams conducting more than 1,000 audits and investigations across commercial vehicle and hazardous materials operations.
- Oversaw quality control for compliance investigations, inspections, and enforcement actions, ensuring adherence to national standards and internal performance expectations.
- Served as lead instructor and program coordinator for compliance investigations, hazardous materials, and cargo-tank inspection training.
- Supported leadership with performance reporting, trend analysis, and corrective-action planning related to compliance deficiencies and enforcement outcomes.

Officer / Corporal / Sergeant | 2003 – 2012

- Served as Executive Assistant to the Commanding Officer (2008–2011).
- Conducted compliance audits, safety inspections, and investigations of motor carriers and hazardous-materials shippers under federal and state regulatory authority.
- Managed adjudication and resolution of inspection challenges and data disputes, improving data integrity and enforcement credibility.
- Served in supervisory and operational leadership roles supporting safety audits, compliance reviews, and special projects aligned with organizational risk priorities.

National Instruction & Program Development

Federal Motor Carrier Safety Administration – National Training Center

Associate Staff Instructor

- Delivered national level instruction in North American Standard Inspection Part A and B, Hazardous Materials, Cargo Tank, Compliance Investigations, and Enhanced Investigative Techniques.
- Contributed to development and refinement of national compliance and investigative curricula.

Commercial Vehicle Safety Alliance (CVSA)

Level VI Enhanced Radiological Inspection Instructor

- Conducted Level VI Enhanced Radiological Inspection recertification training

Georgia Department of Public Safety / POST Council

Certified Instructor

- Designed and delivered instruction in CMV safety, case-law updates, hazardous materials, and enforcement tactics.
- PRND program development in coordination with DOE and state partners.
