Legal and Expert Witness Experience

Over a decade of experience as a medical-legal consultant and expert witness. Reviewed and provided expert opinion in **hundreds of emergency medicine-related cases**, including:

- **Delayed diagnosis and delayed care**
- **Pharmacologic management and medication errors**
- **Stroke and other neurological emergencies**
- **Myocardial infarction and cardiovascular emergencies**
- **Emergency Medical Services (EMS) systems and prehospital care**
- **Surgical and perioperative emergencies**
- **Orthopedic trauma and management**
- **Sepsis, shock, airway management, and resuscitation**

Legal work includes:

- Authoring expert opinion reports grounded in clinical evidence.
- Interpreting complex medical records for legal teams.
- Providing articulate, authoritative deposition and courtroom testimony.

Professional Standing: Holds **impeccable professional credentials** with an unblemished record. Never been subject to any legal action, lawsuit, disciplinary investigation, or sanction. No hospital privileges have ever been revoked or restricted.
