PUBLICATIONS BY HUGH W. MCGEE

“Safety Effects Resulting from Approval of the National Highway System” (Co-author), Final Report to AAA Foundation for Traffic Safety, July 1995.

"Conceptual Requirements for an Interactive Highway Design Model" (Co-author), Final Report to Federal Highway Administration, May 1992.

"Reducing Runaway Truck Accidents Through Weight-Based Advisory Speeds" (Co-author), Report No. FHWA-IP-89-023. Federal Highway Administration, September 1989.

"Are Basic Engineering Assumptions About the Driver Valid?", (Co-author), Proceedings of the Conference on the Role of the Civil Engineer in Highway Safety, American Society of Civil Engineers, September 19-21, 1983.

"Driver Perception-Reaction Time: Are Revisions to Current Specification Values in Order?", (Co-author), Transportation Research Record 904, Transportation Research Board, 1983.

"Corrections to Driver Characteristic Specifications and Standard Formulations for Intersection Sight Distance," (Co-author), Transportation Research Record 904, Transportation Research Board, 1983.

"Decision Sight Distance for Highway Design and Traffic Control Requirements," Report No. FHWA-RD-78-78, Federal Highway Administration, February 1978. (Also published in Transportation Research Record # 736, Transportation Research Board.)
