

Curriculum Vitae
JAMES J. CONNORS, PH.D.

DEGREES

Ph.D., University of South Alabama, marine sciences, 2007 (dissertation research: contaminant transport via submarine groundwater discharge)

M.S., University of Alabama, geology, 1990 (thesis research: structural geology, southern Appalachians)

B.S., University of South Alabama, geology, 1983

PROFESSIONAL/HONOR ORGANIZATIONS

The American Institute of Hydrology
Member/Certified Professional Hydrologist
Board of Directors Member (present)
Treasurer (present)

The Geological Society of America
Life Member
Membership and Fellowship Committee Member (present)
Professional Development Committee Member (2020-2023) and Chair (2022-2023)

Sigma Xi, The Scientific Research Honor Society
Member
Past Chapter President

The Society of Sigma Gamma Epsilon, The National Honor Society for the Earth Sciences
Life Member

PROFESSIONAL AWARDS/HONORS

Listed as one of the *50 Outstanding Faculty Members* in the history of the University of South Alabama, 2013

Principal Emeritus of Eco-Systems, Inc. (now Allen Engineering & Science), 2013

Chang Award for Humanitarian Service, University of South Alabama, 2013

Outstanding Service Award, University of South Alabama College of Arts & Sciences, 2011

Elected Sigma Xi Scientific Research Honor Society Chapter President, University of South Alabama, 2011-13

Three Mortar Board Top Prof awards, University of South Alabama Chapter, 2011-12

Elected Faculty Senate President, University of South Alabama, 2010-11

Faculty Member of the Year Award, University of South Alabama, 2010

Inducted into Sigma Xi Scientific Research Honor Society, 2009

Faculty Member of the Year Award, University of South Alabama, 2009

Elected President, Southwest Alabama Geological Society, 2007-09

Teaching Excellence Award, University of South Alabama College of Arts & Sciences, 2007

Most Outstanding Young Professional Award, Woodward-Clyde Consultants, 1992

Inducted into Sigma Gamma Epsilon National Honor Society for the Earth Sciences, 1983

PROFESSIONAL LICENSES/CERTIFICATIONS

Licensed Professional Geologist (No. 1468), State of Alabama

Registered Professional Geologist (No. 0941), State of Mississippi

Licensed Professional Geologist (No. 311), State of New York

Licensed Professional Geoscientist (No. 80), State of Louisiana

Licensed Professional Geoscientist (No. 4065), State of Texas

Certified Professional Hydrologist (No. 23H05014), American Institute of Hydrology

Stormwater, Erosion, and Sedimentation Control Inspector (No. 40130), Florida Department of Environmental Protection

PROFESSIONAL EXPERIENCE

Private-Sector

Applied Hydrological Education & Consulting, Inc., Mobile AL, 2016-present
Principal Scientist

James J. Connors & Associates, LLC, Fairhope AL, 2013-present
Principal Scientist

Eco-Systems, Inc., Jackson MS/Fairhope AL, 1993-2013
Senior Principal Scientist and Principal Emeritus, 2/93-2/13

Exsorbet Industries, Inc., Little Rock AR/Jackson MS, 1995-1999
President/Chief Executive Officer/Chairman of the Board of Directors, 2/97-2/99
Chief Operations Officer, 1/97-2/97
Interim President, Emergency response/industrial services subsidiary, 9/96-1/97
Executive Vice President, Business Development, 4/96-1/98
Senior Principal Hydrogeologist, 12/95-4/96

Woodward-Clyde Consultants, Jackson MS, 1989-1993
Vice President and Office Manager/Senior Project Scientist, 5/89-8/90

Geraghty & Miller, Inc., Tampa FL/Baton Rouge LA, 1986-1989
Senior Scientist/Division Manager for Hydrocarbon Services, 5/88-5/89
Staff Scientist, 5/87-5/88
Scientist, 6/86-5/87

P.E. LaMoreaux & Associates, Inc., Tuscaloosa AL/Lakeland FL, 1985-1986
Field Hydrogeologist/Computer Modeler, 7/85-6/86

Academic: University of South Alabama, Mobile AL, 2003-2016

Faculty Positions

Associate Professor, Department of Interdisciplinary Studies, 1/15-1/16

Assistant Professor, Department of Interdisciplinary Studies, 8/12-12/13

Assistant Professor, Department of Earth Sciences, 1/08-3/12

Instructor, Department of Earth Sciences, 1/05-1/08

Part-time Instructor, Department of Earth Sciences, 1/03-1/05

Administrative Positions

Interim Dean, School of Continuing Education & Special Programs, 1/15-1/16

Special Assistant to the Vice President for Research & Economic Development, 12/13-1/15

Interim Director of International Education, 2/13-11/13

Interim Chair, Department of Developmental Studies, 8/12-12/13

Associate Dean, School of Continuing Education & Special Programs, 8/12-12/13

Interim Vice President for Research, 3/12-8/12

SELECTED PROJECT EXPERIENCE

Expert witness for Plaintiffs in a Mobile County, Alabama, case involving leachate-related soil, sediment, stormwater, and groundwater contamination at a large municipal solid waste landfill. Contaminants included PFAS, metals, VOCs, etc. Involved multiple site inspections and sampling events, critique of work from four opposing experts and observation of their field work, preparation of expert and supplemental reports, two depositions, and trial testimony.

Expert witness for Defendant in a Mississippi U.S. District Court case involving alleged damage to a coastal estuary by stormwater-related erosion and sediment from a large-scale construction project. Reviewed file, literature, current and historical maps, rainfall and soil data, and opposing expert's reports. Conducted site inspections, prepared an expert report, produced affidavits challenging opposing expert, and gave a deposition.

Expert witness for Plaintiff in a Tennessee U.S. District Court subrogation claim involving a building fire allegedly caused by stormwater-related flooding. Reviewed file, inspected site, researched local rainfall/humidity/hydrology, and produced an expert report.

Expert for Defendants in a Marshall County, Alabama, court case involving alleged flooding of a retirement/residential complex by stormwater runoff from an adjacent construction site during a severe regional rainfall event. Reviewed file, inspected site, researched rainfall and local soils, reviewed opposing expert's statement.

Expert witness for Plaintiffs in a Baldwin County, Alabama, case involving the proposed construction of a large pier/boathouse, with dredged channel and turnaround basin, etc., in a coastal estuary designated an "Outstanding Alabama Water" body. Work involved a file review, scientific literature research, a site inspection, an expert report, a deposition, and trial testimony.

Expert witness for Defendants in a Carroll County, Indiana, case involving the alleged connection between highway construction stormwater runoff and a fatal traffic accident. Reviewed file, local soil and topographical maps, accident-scene video and photos, historical aerial photos, and rainfall data. Conducted site inspection/infiltration tests and produced an expert report.

Expert for Plaintiffs in an Alabama U.S. District Court class-action lawsuit involving PFAS contamination in a river and associated municipal water-supply system. Reviewed file,

researched regulatory databases, produced an expert report and supplemental affidavit, reviewed/critiqued opposing expert's reports, and inspected facilities.

Expert witness for Defendants in a Harris County, Texas, case involving Houston-area erosion resulting from Hurricane Harvey. Reviewed file, external data, literature, and videos. Prepared an expert report.

Expert for Plaintiff in a Louisiana U.S. District Court case involving a large oil spill that appeared suddenly. Reviewed file, public oil and gas records, and local soils and hydrogeology. Inspected site and produced an expert report.

Expert witness for Defendants in a Mississippi U.S. District Court case involving alleged soil contamination of from a closed construction-demolition debris landfill. Reviewed file, inspected site, mapped stormwater flow, produced an expert report, and gave a deposition.

Expert witness for Plaintiff in an Illinois U.S. District Court case that involved alleged trespass and defamation claims related to the existence of an inland watercourse. Reviewed file, performed research, and produced an expert report.

Expert witness for Defendants in a Monroe County, Wisconsin, case involving alleged environmental damage from a large "concentrated animal feeding operation" (CAFO) dairy. Reviewed file and literature, inspected site multiple times, gave a deposition and trial testimony.

Expert for Plaintiffs in a Mississippi U.S. District Court case involving alleged stormwater impacts of runoff in a private pond from an adjacent industrial facility. Reviewed file, performed site inspections and sampling, produced an expert report, and gave a deposition.

Expert witness for Plaintiffs in an American Arbitration Association case regarding the source and timing of groundwater and subsurface free-phased solvent contamination at a West Virginia riverside refinery. Reviewed file, inspected site, produced expert and rebuttal reports, performed computer modeling, met with regulatory agency, and gave arbitration hearing testimony.

Expert witness for Defendants in a Broward County, Florida, case involving alleged stormwater flooding of a commercial building. Reviewed file, historical rainfall, wells and soil boring logs, local water-table elevation and soils, and historical air photos. Presented opinions and bases to attorney.

Expert witness for Plaintiffs in an Alabama U.S. District Court case involving the environmental impacts from a large 1970s petroleum spill in a coastal wetland area. Work involved site inspections, sample collection, file review, and production of an expert report.

Expert witness for Defendants in a Mississippi U.S. District Court case involving alleged hydrocarbon and brine contamination from a pipeline break in a southern oil field. Reviewed file, produced an expert report, gave a deposition, and assisted with opposing expert challenge.

Expert for Plaintiff in a Mobile County, Alabama, case involving alleged stormwater runoff and subsurface throughflow from a neighborhood to an adjacent downhill property. Reviewed file, performed site inspections, observed soil borings, produced expert and rebuttal reports, reviewed opposing expert reports, gave two depositions, developed demonstrative evidence, and testified at trial.

Expert witness for Plaintiffs in a Marion County, Mississippi, case involving historical groundwater contamination from a leaking gasoline pipeline 30-years prior. Reviewed file, produced an expert report, gave a deposition, and testified at trial.

Expert witness for Defendant in a Marquette County, Michigan, case involving an alleged raw sewage/chemical release in an Upper Peninsula river. Reviewed file, researched historical maps, photos, rainfall, and wind data. Conducted a site inspection and produced an expert report.

Expert for Plaintiffs in a Jackson County, Mississippi, case involving impacts of stormwater runoff from a hotel/restaurant property onto an adjacent residential property. Reviewed file, inspected site, and produced an expert report.

Expert for U.S. government agency Appellee in an executive branch tribunal contract dispute involving groundwater depths and asbestos-containing wastes at a coastal Florida military base. Reviewed file, inspected site, wrote expert and rebuttal reports, and gave a deposition.

Expert witness for Plaintiffs in a Baldwin County, Alabama, case involving stormwater-related flooding caused by runoff from one residential property onto an adjacent residential property. Work included a site inspection, file review, research, and preparation of an expert report.

Consulting expert for Defendants in a Louisiana U.S. District Court case involving potential hydrological causation of a Mississippi River collision between a moving tug/barges and an anchored vessel. Reviewed file, performed research, and produced a report.

Consulting expert for Defendants in a Shelby County, Alabama, case involving potential involvement of groundwater in the structural stability of a large retail building complex. Reviewed file, researched local hydrogeology, visited site, and advised attorney.

Consulting expert advising Plaintiff attorney group on possible links between groundwater contamination and cancer cases in a rural Alabama area. Reviewed file, performed site inspection and research, and advised attorneys.

Consulting expert for Plaintiff in a Lubbock County, Texas, case involving alleged ecological damage on a commercial property allegedly caused by herbicide application on an adjacent commercial property. Reviewed file, performed research, inspected and sampled site, and advised attorneys.

Consulting expert for Defendants in a Marshall County, Mississippi, case involving alleged above-ground fuel storage tank regulatory violations that may have contributed to a fire-related personal injury. Reviewed file, performed research, and advised attorney.

Expert witness for Plaintiffs in a Union Parish, Louisiana, case involving extensive flooding, erosion, sediment deposition, environmental damage, and water-quality degradation on a private property from a large high school construction project. Reviewed file and historical aerial photographs, researched local hydrology and rainfall, and produced an expert report.

Consulting expert for Defendants in an Arkansas case involving timing of PCB releases at an industrial facility. Reviewed file, advised attorneys, assisted with opposing expert's deposition.

Groundwater computer modeling for Plaintiffs in a Hillsborough County, Florida, case involving potential drawdown from a proposed water-supply wellfield.

Testimony before a regional fisheries commission on ecological population dynamics in Chesapeake Bay. Led research team, prepared statement, and testified before commission.

Expert for Defendants in a Marshall County, Alabama, case involving residential water damage allegedly caused by landscaping work. Reviewed file, conducted research, advised attorneys.

Expert witness for Plaintiffs in a Shelby County, Alabama, case involving negative impacts on a private pond by stormwater runoff coming from the construction of an adjacent, uphill municipal sports complex. Reviewed file, inspected site, produced an expert report, and gave deposition and hearing testimony.

Expert witness for Defendants in a Lowndes County, Mississippi, case settlement hearing that involved PCB contamination of soil/sediments in a privately-owned wetland. Reviewed data and details of proposed remedy, addressed the technical adequacy questions, and gave courtroom testimony.

Consulting expert for Defendants in a Louisiana case involving a collision between an anchored barge and a passing industrial vessel in a bayou. Reviewed file, researched and reported on possible hydrological causes, advised attorney.

Expert witness for Plaintiffs in an East Baton Rouge Parish, Louisiana, case involving trespass and land taking for alleged “natural” drainage purposes. Reviewed file, researched historical aerial photos and topographical maps, produced an expert report, and gave a deposition.

Expert witness for Plaintiffs in a Lincoln County, Mississippi, case involving environmental impacts associated with a crude oil and brine pipeline break on private property. Reviewed file, inspected and sampled site, produced an expert report, and gave a deposition.

Consulting expert for Defendant in an Alabama case involving alleged airborne particulate contamination from a steel manufacturing plant. Reviewed file and advised attorney.

Expert witness for Plaintiff in a Mobile County, Alabama, case involving residential flooding by a groundwater spring. Reviewed file, performed research, gave deposition and trial testimony.

Expert for Defendants in a Conecuh County, Alabama, case involving alleged flooding of a residential property by runoff from an uphill housing project. Reviewed file, conducted site inspection, reviewed aerial photos and rainfall data, gave opinions, assisted with settlement.

Expert witness for Plaintiffs in a Mobile County, Alabama, case involving impacts on offshore aquaculture (oysters) by sediments mobilized/transported from an island restoration project. Reviewed file, inspected site, conducted research, prepared a report and gave a deposition.

Consulting expert for Plaintiffs a south Alabama urban dispute involving flooding of a downstream residential area due to construction/alterations on adjoining, upstream properties. Reviewed file, researched area, inspected site, and advised attorney.

Consulting expert for Defendant in a central Alabama dispute involving alleged damage to and contamination in a private pond by an overturned and submerged commercial truck. Reviewed file, inspected site, and provided advice to attorneys.

Consulting expert for Plaintiffs’ attorney a dispute involving sinkholes that were forming in a south Alabama country club neighborhood. Inspected site, researched issue, advised attorney.

Expert witness for Defendants in a Mississippi U.S. District Court case involving the unintended creation of a wetland as a result of piped-in stormwater. Reviewed file, soils data, and aerial/site photos. Conducted site inspections and mapped local stormwater flow during a storm event. Prepared an expert report and assisted attorneys with opposing expert depositions.

Expert for Plaintiffs in a Shelby County, Alabama, case involving contamination and environmental damage on private properties from a gasoline pipeline break, explosion, and fire. Reviewed file, performed site inspections, sampled site, split samples with Defendants, and provided technical assistance during settlement negotiations.

Expert witness for Defendant in several related Mississippi cases involving alleged oilfield brine contamination. Files were reviewed, research performed, and expert reports produced.

Expert for Plaintiffs in a Baldwin County, Alabama, case involving sedimentation on the shore of a coastal estuary and residential property. Conducted site inspections, collected samples for grain-size analysis, reviewed historical maps and aerial photos, participated in mediation.

Consulting expert investigating potential PCB-contamination in an inland lake. Reviewed file and literature, visited and sampled site, advised attorneys.

Expert for Defendant in a Mobile County, Alabama, case involving alleged stormwater-related flooding on one commercial property by an uphill commercial property. Reviewed file, conducted site inspections and drone recon, formulated opinions, and gave a deposition.

Consulting expert for Defendants in a south Louisiana case involving potential hydrological and sedimentological causes of a petroleum pipeline break near a nearshore dredging project. The issue involved both civil and potential criminal liability. Reviewed file, performed research, and advised attorneys.

Expert witness for Plaintiffs in a Baldwin County, Alabama, case involving stormwater-related flooding in a private home. Reviewed file, researched hydrology and historical aerial photos and rainfall data, conducted site inspections, mapped stormwater flow, produced an expert report.

Consulting expert for a Plaintiff's attorney group in a potential Georgia case involving MTBE contamination in the environment. Reviewed file and scientific literature, performed sampling, and advised attorneys.

Consulting expert in a central Louisiana dispute involving flooding in a developed urban commercial area. Reviewed file, performed hydrological research, and advised attorneys.

Expert for Plaintiffs in a case buffer-zone requirements around a proposed surface mining operation. Ongoing.

Expert witness for Defendant in a southern Alabama case involving alleged downstream flooding caused by upstream pond discharges. Ongoing.

Expert for Plaintiff in a Maryland case involving subsurface flooding near a water park. Ongoing.

Expert for Plaintiffs in a New Zealand case involving municipal stormwater impacts on private property. Ongoing.

Expert for Defendants/Plaintiffs in a south Florida claim/counter claim involving alleged contamination at a licensed cannabis farm. Ongoing.

Expert witness for Plaintiffs in a central Alabama class-action lawsuit involving groundwater contamination from a Subtitle D landfill. Ongoing.

Expert for Plaintiffs in a south Alabama case involving stormwater-related impacts on a private property by an uphill residential development. Ongoing.

Expert for Defendants in a northern Louisiana case involving alleged stormwater-related flooding of private property near a gravel/sand mining operation. Ongoing.

Consulting expert for Plaintiffs in a western Tennessee case involving groundwater contamination by chlorinated solvents. Ongoing.

Expert for Plaintiffs in a central Alabama case involving alleged stormwater-related impacts downstream from a large neighborhood development on private property. Ongoing.

Expert for Defendants in a northern Mississippi case involving alleged stormwater-related impacts on a residential lake. Ongoing.

Expert witness for Plaintiffs in a southern Mississippi case involving stormwater runoff from one residential property impacting an adjacent property. Ongoing.

Expert witness for Plaintiffs in an Alabama class-action lawsuit involving alleged dust/particulate contamination from a cement production operation. Ongoing.

Hydrological consultant evaluating potential saltwater wedge impacts and dynamics for a large chemical company facility located on the lower Mississippi River. Reviewed internal documents and data, external data, and the scientific literature. Inspected the site and area/region. Produced report. Advised company's technical personnel and contractors.

Geoscience consultant on the formation of a potential sinkhole at a southern Alabama residential property. Performed site inspection and research, advised clients, produced a report.

Hydrological consultant on a restoration and conservation project in a south Mississippi urban stream. Work included site inspections and field mapping, public meeting participation, and consultation with engineering firm to help select natural restoration alternatives.

Hydrogeological consultant in a south Alabama investigation of potential stormwater runoff and groundwater causation of foundation issues at a large apartment complex.

Hydrological evaluation of recharge rates and chemistry issues at a natural karst spring used for bottled water production in north Georgia. Work involved file/literature reviews, a site inspection with pumping tests, report preparation, and a presentation to a prospective buyer.

Property transfer-related environmental investigations for a major oil company. Involved hundreds of gasoline retail outlets in the Florida Panhandle and southern Alabama. Work involved phased site audits, file reviews, and targeted subsurface investigations.

Hydrological research and report preparation for an international alligator/crocodile farming corporation. Produced detailed maps of groundwater with suitable temperature, salinity, production, and depth for potential sites in Louisiana and Texas.

Senior oversight of a project that developed environmental/health & safety (EHS) standards for a major U.S. oil company working offshore in a Southeast Asian country. Project involved researching and negotiating standards, writing regulatory documents, arranging for official signing, implemented/training personnel, and onsite auditing.

Planned and managed site environmental audits for a large oilfield services company's locations in Mississippi and Louisiana. Worked with client to set goals and develop a standardized evaluation rubric, performed file reviews, site visits and sampling, produced reports.

Evaluated potential for contamination and other hydrological impacts at a solid-waste transfer station in Texas caused by an adjacent dam and stormwater pond at a metal processing facility. Reviewed file, performed research, inspected and sampled site, produced several reports.

Senior oversight on several site environmental/health & safety (EHS) audits at facilities operated by a U.S. government agency along the Gulf Coast.

Property-transfer environmental investigations for numerous sites in central Mississippi targeted for acquisition by a large gaming/casino company. Work involved regulatory and site investigations, as well as sampling/remediation where warranted.

Multi-phased contamination assessment/remedial action at an oil and gas field in southern Mississippi. Located abandoned waste drums using ground-penetrating radar data and borings, collected samples, and quantified releases.

Hydrological consultant for a public board responsible for oversight of a city/county municipal Subtitle D solid waste landfill. Working with director and attorney to technically review operator's hydrology-related reports, documents, and proposals, and interact with state regulatory agency on technical issues.

Consultant on a large project investigating health impacts of the Deepwater Horizon oil spill. Collected creel survey data from subsistence fishers and biota samples for analysis.

Pre-acquisition audit/investigation of a closed rice-processing and storage facility in Mississippi. The work included reviews of regulatory and onsite files, former employee interviews, visual evaluation of the property, and targeted sampling.

Hydrogeological evaluation and monitoring system design/installation at a Subtitle D landfill in southern Mississippi. Inspected site for seeps, surface water, etc.; reviewed and correlated numerous older soil borings; drilled and lithologically logged several soil borings; used new piezometers and downhole geophysics (radiation) and aquifer testing to fill gaps and test site conceptual model; reinterpreted site as a multi-aquifer hydrogeological system and designed monitoring appropriate monitoring system.

Watershed-wide contamination assessment and long-term monitoring of an old, large oil producing area in Mississippi. Work involved field reconnaissance, assessment of brine impacts on surface waters, review of LANDSAT images, and five years of quarterly monitoring of 25 miles of streams.

Evaluated groundwater monitoring system of western Mississippi landfill for a Subtitle D compliance. Inspected site, researched site history and setting, reviewed sampling data/field parameters and past reports, reviewed monitoring well construction diagrams/logs and locations, and installed additional well.

Contamination assessment to produce risk-based clean-up standards for a remedial design at an abandoned waste-oil disposal site. Work involved delineation of impacts at three waste-oil pits that were dug into central Mississippi limestone and exploration for others using surface

geophysics, remote sensing, and soil borings. A site-specific hydrogeological conceptual model for contamination transport was prepared and tested.

Hydrological consulting on a project involving acid and ammonia impacts on local groundwater (due to infiltration) and estuarine ecology (due to runoff) at a coastal fertilizer plant. Also reviewed and critiqued site-specific computer modeling.

Site conceptual and computer modeling at a Mississippi Subtitle D solid waste landfill. Work involved site inspections, review of regional and site hydrology, correlation of existing hydrogeological data, facility history research, new soil cores and monitoring wells, aquifer testing, computer simulations, and the development and testing of a site conceptual model. The result was regulatory-approval of a Subtitle D landfill with only a natural clay liner.

Groundwater computer modeling of drawdown, dewatering, and settlement under a Mississippi casino. Modeled confirmed engineering concept that the facility could be lowered by pumping a system of peripheral wells.

Contamination assessment and remediation well installation at a large RCRA facility located over highly-faulted/fractured bedrock in central Alabama. Leaking facility was an onsite waste landfill. Contaminants of concern were pesticides and related compounds that had been released into a complex, multi-layer subsurface environment that included surficial saprolite, deeper sandstone and carbonates, karst hydrology, and widespread faulting and fracturing.

Remedial investigations at military bases in Florida and Georgia. Work involved multi-phased field events which included soil-gas surveys, installation of soil borings and groundwater monitoring wells, groundwater/soil sampling, and surface geophysical surveys. Contaminants included DDT, nerve agents, and explosive compounds.

Performed pumping tests and real-time water-quality monitoring/modeling at a coastal military base to calculate pumping rates for wells used in a solvent plume pump-and-treat remediation system without causing saltwater intrusion issues for the biological treatment system.

Mercury investigations and remedial actions at more than 300 natural gas pipeline metering stations. Project included planning and implementing a series of rapid, coordinated, and cost-effective site characterization and remediation activities at sites located in several states.

Performed baseline hydrogeological evaluation at a National Estuarine Research Reserve property to evaluate the environmental impact of past agricultural land uses in the wetland.

Aquifer testing, large DoD contractor facility in Florida. Performed aquifer tests on monitoring wells and analyzed data to determine aquifer characteristics for environmental fate-and-transport work.

Municipal water-supply wellfield design, installation, and testing in central Florida. Target production zones were selected, test borings drilled and logged, and pumping tests performed.

Water-quality investigation at a beer production facility in central Florida. Project involved isolating, sanitizing, and drill-stem testing various zones in a deep water-supply well to determine the source and character of microbial contamination.

Regional water-supply assessment/development work to explore the potential for using brackish groundwater resources in coastal west-central Florida for low-pressure reverse-osmosis.

Contamination assessment/remedial action planning at an old rail yard. Delineated diesel fuel contamination at the surface and in the subsurface. Work involved the drilling/sampling, installation of temporary and permanent groundwater monitoring wells, reporting results.

Conducted a beach erosion study in coastal Alabama to test the effectiveness of a large-scale beach sediment nourishment project along the northern Gulf of Mexico. Set up multiple baseline transects in both nourished and natural beach areas, collected samples for grain-size analysis, produced report.

Remedial investigation of four petroleum bulk storage terminals in Mississippi, Alabama, and Florida. Involved assessment of soils and groundwater, installation of groundwater monitoring wells, groundwater sampling, onsite portable lab work, free-product fingerprinting, and remedial planning.

Research and fieldwork to support design of beneficial use project for dredge spoils in coastal Mississippi. Work included cores and grain-size samples in lagoon for a pilot-scale coastal erosion protection structure.

Contamination assessment/remediation at over 50 leaking underground storage tank sites in Florida, Alabama, Mississippi, Louisiana, Arkansas, and Texas. Work included installation of soil borings and monitoring wells, groundwater/soil sampling, free-product finger printing, remedial planning, and remediation system installation/operation and maintenance.

Reverse-osmosis water-supply well testing/replacement in central Florida. Evaluation and testing of a deep, large-scale withdrawal water well that was being used to supply drinking water to a municipality via a low-pressure reverse-osmosis plant.

Multi-facility chromate contamination investigation at several natural gas compressor stations in west Texas. Project included evaluation of hydrogeological conditions that would affect potential chromate fate and transport (redox geochemistry, flow gradients, hydraulic characteristics, etc.), implementation of a detailed assessment plan, aquifer testing, and horizontal drilling techniques.

Baseline aquifer study of a proposed large-scale phosphate mining operation in central Florida. Soil borings/test wells were drilled and tested. Data were used to plan post-mining reclamation.

Contamination assessment, monitoring, and in-situ/active risk-based remediation of sediment, soil, and groundwater at over 40 natural gas compressor stations from Mississippi to New York. Involved PCBs, solvents, and other contaminants.

Regional ambient groundwater-quality study in northeast Florida. Hundreds of water wells from various aquifers were sampled over several months for a broad list of parameters.

Remedial investigations at multiple wood-treatment sites in Mississippi. Work involved assessment of extent of impact in soil and groundwater in several areas at a large lumber treatment facility. Contaminant included dissolved and free-phased product. Included groundwater modeling and use of surface geophysics (EM).

Water-supply alternatives study in east-central Florida. Research to develop drinking water alternatives for an area that was experiencing saltwater intrusion.

Remedial construction oversight for the excavation and disposal of PCB- and petroleum-contaminated soils in central Alabama. Impacted area was then backfilled and restored.

EXPERT WITNESS WORK/CASES

Expert Reports (47)

2024

- U.S. District Court, District of SC, Charleston Division, Case Civ. No. 2:23-CV-02384 (expert and rebuttal reports, Tyco v. AIU Ins. Co., et al.)
- Superior Court, Yavapai Co. AZ, Case P1300CV202200165 (Carver, et al. v. Dorn Homes, Inc., et al.)
- Superior Court, Franklin Co. GA, Case 22FV0302P (CALMAT v. Franklin Co., et al.)
- *Brief of Evidence*, Te Awamutu District Court, New Zealand, Case CIV-2020-072-76 (Atkinson v. Waipa District Council)
- Circuit Court for Garrett Co. MD, Case C-11-CV-22-000077 (Patterson v. WISP Resort, et al.)
- Circuit Court of the 11th Judicial Circuit in and for Miami-Dade Co. FL, Case 2022-003244-CA-01 (CIGN, et al. v. Fluent Servicing, et al., plus counterclaim)

2023

- ICDR/AAA Arbitration, Case 50 20 1200 0450 (expert and rebuttal reports, Ergon v. Shell)

2010

- U.S. District Court, Southern District of AL, Case 1:09-CV-00187-CG-M (Gulf Coast Asphalt Company v. Chevron)

2006

- Circuit Court, Lincoln Co. MS, Case CI2006-0064-LT (McCullough v. Denbury)

2003

- Circuit Court, Marion Co. MS, (Jacobs, et al. v. Plantation Pipeline)

1999

- U.S. District Court, Southern District of MS, Case 5:98CV63brsf (Pennzoil v. Ramsay, et al.)

1998

- Circuit Court, Hinds Co. MS, Case 25CI1:96-CV-00511-WLK (Smith, et al. v. Chevron)

1994

- U.S. District Court, Southern District of MS, Case 1:94CV108BrR (Ritzer, et al. v. T.L. James Construction, et al.)

Depositions (23)

2024

- Circuit Court of the 11th Judicial Circuit in and for Miami-Dade Co. FL, Case 2022-003244-CA-01 (CIGN, et al. v. Fluent Servicing, et al., plus counterclaim)

2023

- Circuit Court, Monroe Co. WI, Case 2022-CX000004 (Wisconsin v. MDS Dairy, et al.)
- Circuit Court, Shelby Co. AL, Case CV-2021-900353 (Welch v. Chelsea, et al.)
- Chancery Court, Jackson Co. MS, Case 2019-2010 MAM (Guice v. Borries)

2022

- Armed Services Board of Contract Appeals, Case 628162021 (HGL v. USACE)
- U.S. District Court, Northern District of AL, Case 2:18-CV-1693-RDP (second deposition, Winther v. U.S. Steel, et al.)
- Circuit Court, Baldwin Co. AL, Case CV-2020-900699 (Vaughn, et al. v. Smith, et al.)

2021

- U.S. District Court, Northern District of MS, Case 3:19cv213-NBB-RP (Seale v. MDOT, et al.)
- Circuit Court, Mobile Co. AL, Cases 02-CV-2018-902210.00 and 02-CV-2017-901263.00 (two depositions SWDA, et al. v. WMMBEC, Inc., et al.)
- Circuit Court, Mobile Co. AL, Case 02-CV-2020-901477.00 (two depositions, Carpenter v. Crown Pointe HOA, et al.)
- 19th Judicial District Court, East Baton Rouge Parish LA, Case 684270 SEC. C (Raby v. Fakouri, et al.)

2019

- U.S. District Court, Northern District of AL, Case 2:18-CV-1693-RDP (Winther v. U.S. Steel, et al.)
- Circuit Court, Mobile Co. AL, Case 02-CV-2016-901970.00 (Southern Pearl Oyster Farm, et al. v. 4H Construction, et al.)
- Circuit Court, Mobile Co. AL, Case CV-2017-901296 (Handico v. Barry's U-Pull-It)

2018

- U.S. District Court, Southern District of MS, Case 1:17CV130 LG-RHW (Gulf Restoration Network v. Oscar Renda)

2009

- Circuit Court, Mobile Co. AL, Case CV-08-901850 (Kendrick v. Roberts Brothers)

2006

- Circuit Court, Lincoln Co. MS, Case CI2006-0064-LT (McCullough v. Denbury Onshore)

2003

- Circuit Court, Marion Co. MS (Jacobs, et al. v. Plantation Pipeline Company)

1999

- U.S. District Court, Southern District of MS, Case 5:98CV63brsf (Pennzoil v. Ramsay, et al.)

1994

- U.S. District Court, Southern District of MS, Case 1:94CV108BrR (Ritzer, et al. v. T.L. James Construction, et al.)

Trial/Hearing/Arbitration Testimony (9)

2023

- Trial testimony, Circuit Court, Monroe Co. WI, Case 2022-CX000004 (Wisconsin v. MDS Dairy, et al.)
- Trial testimony, Circuit Court, Baldwin Co. AL, Case CV-2020-900699 (Vaughn, et al. v. Smith, et al.)

2022

- Trial testimony, Circuit Court, Mobile Co. AL, Case 02-CV-2020-901477.00 (Carpenter v. Crown Pointe HOA, et al.)
- Hearing testimony, Circuit Court, Shelby Co. AL, Case CV-2021-900353 (Welch v. Chelsea, et al.)

2021

- Trial testimony, Circuit Court, Mobile Co. AL, Case 02-CV-2018-902210.00 (SWDA, et al. v. WMMBEC, Inc., et al.)

2015

- Arbitration testimony, ICDR/AAA Arbitration, Washington D.C., Case 50 20 1200 0450 (Ergon v. Shell)

2009

- Trial testimony, Circuit Court, Mobile Co. AL, Case CV-08-901850 (Kendrick v. Roberts Bros.)

2003

- Trial testimony, Circuit Court, Marion Co. MS, (Jacobs, et al. v. Plantation Pipeline)

1992

- Hearing testimony, Circuit Court, Lowndes Co. MS, (Weathers, et al. v. Tennessee Gas)

Other Expert Disclosures (7)

2023

- Circuit Court, 17th Judicial Circuit in and for Broward Co. FL, Case CACE-21-002438 (Katzman Chandler v. Cypress Airpark, et al.)
- Circuit Court, Mobile Co. AL, Case 02-CV-2022-901103.00 (Walter v. Adams Homes, et al.)
- 72nd District Court of Lubbock Co. TX, Case DC-2022-CV-0969 (Lee, et al. v. South Plains Telephone Co-op)

2022

- Circuit Court, Marshall Co. AL, Case 50-CV-2017-900310.00 (Preston Health, et al. v. Fyffe Construction, et al.)

2021

- Circuit Court, Marshall Co. AL, Case CV-2011-079 (Burnett v. Dickson, et al.)

2018

- Circuit Court, Conecuh Co. AL, Case 21-CV-2015-900087 (Williams v. Evergreen Housing Authority)

2017

- Circuit Court, Baldwin Co. AL, Case 05-CV-2017-900257 (Pittman, et al. v. Spanish Fort)

RECENT TRAINING/CONTINUING EDUCATION

2024

- Polytechnic University of Milan course: Sustainable Urban Water Systems
- Rice University course: Natural Attenuation of Groundwater Contaminants: New Paradigms, Technologies, Applications
- Eurofins/Test America Laboratories PFAS Navigating Analytical Method Options (2024), PFAS Sample Collection: State of the Science (2024), PFAS Update (2024), PFAS Basics (2024), Ethical Perspectives in Wastewater Monitoring
- Safety Unlimited, Inc. course: ICS-700 - Introduction to the National Incident Management System

2023

- NOAA Office of Response and Restoration course: Science of Chemical Releases
- Safety Unlimited, Inc. courses: ICS-100: Introduction to the Incident Command System
- The Pennsylvania State University course: Dairy Production and Management
- Virginia Department of Environmental Quality courses: Stormwater Management (SWM): Managing Runoff, Erosion and Sediment Controls (ESC) for Construction Sites, Erosion and Sediment Controls (ESC): Managing Erosion, Stormwater BMP, Wet Ponds
- U.S. Environmental Protection Agency course/certification: Construction General (stormwater) Permit Site Inspector
- Safety Provisions, Inc. course: HAZWOPER Train-the-Trainer
- U.S. Environmental Protection Agency webinars: EPA's Proposed PFAS National Primary Drinking Water Regulation (NPDWR), EPA's Proposed PFAS NPDWR
- Eurofins/Test America Laboratories webinars: PFAS update (2023), PFAS Basics (2023), PFAS in Source and Ambient Air (2023), PFAS Sample Collection: State of the Science (2023), PFAS Navigating Analytical Method Options (2023), PFAS in Products (2023), Advancing the Collection and Analysis of PFAS in Blood and Serum(2023), The Fifth Unregulated Contaminant Monitoring Rule (UCMR 5)
- Pace Analytical Services webinar: A Deep Dive into the 3rd Draft of Method 1633 for PFAS

2022

- Solid Waste Association of North America (SWANA) courses: Landfill Operations Basics, Landfill Gas Basics
- Solid Waste Association of North America (SWANA) webinars: PFAS 101: Impacts on Solid Waste Management, Post-Closure Guidance: Subtitle C Hazardous Waste Landfills
- University of Alabama/UA SafeState courses/certifications: Asbestos Inspector, Asbestos Management Planner
- Safety Unlimited, Inc. course: Asbestos Awareness/General Industry and Construction
- Eurofins/Test America Laboratories webinars: PFAS update (2022), PFAS Basics (2022)

2021

- University of New Hampshire/UNH Stormwater Center Stormwater Management Certificate, with courses: Stormwater Site Design, Stormwater Hydrology, Stormwater Modeling, Stormwater Construction: Erosion and Sediment Controls, Treatment System Design/Post Construction Performance Estimates (Pt. 2)
- Eurofins/Test America Laboratories webinars: PFAS update (2021), PFAS in Source and Ambient Air (2021), PFAS Forensic Tools (2021), PFAS Navigating Analytical Method Options (2021), PFAS Sample Collection: State of the Science (2021), PFAS Basics (2021)
- StormwaterONE, LLC webinar: Urban Hydrology and Green Stormwater Infrastructure

2020

- Interstate Technology and Regulatory Council (ITRC) training session: Emerging Contaminants: PFAS

2018

- Florida Department of Environmental Protection training/certification: Stormwater, Erosion, and Sedimentation Control Inspector
- Alabama Department of Environmental Management training/certification: Qualified Credentialed (stormwater) Inspector

TEACHING

University Courses, Seminars, Field Trips Taught (University of South Alabama)

- Hydrology (Graduate and undergraduate levels)
- Contaminant Hydrology/Hydrogeology (Graduate and undergraduate levels)
- Water-Supply Hydrogeology (Graduate- and undergraduate-level seminars)
- Geophysics (Undergraduate level)
- Groundwater Modeling (Graduate- and undergraduate-level seminars)
- Geology Field School (Undergraduate level)
- Arid Lands Geography Field Trip (Undergraduate level)
- Earth History and Physical Geology (Undergraduate level)

STUDENT RESEARCHER MENTORSHIP

Graduate Student Researchers Mentored (University of South Alabama)

- Environmental Toxicology Graduate Students (as Thesis Committee Chair): 7
- Biology Graduate Students (as Thesis Committee Member): 2

- Civil Engineering Graduate Students (as Thesis Committee Member): 1
- Environmental Toxicology Graduate Students (as Thesis Committee Member): 6
- Marine Sciences Graduate Students (as Thesis Committee Member): 1

Undergraduate Student Researchers Mentored (University of South Alabama)

- Undergraduate Honors Program Students (as Thesis Committee Chair): 1
- Interdisciplinary Studies Students Undergraduate Theses (as Thesis Committee Chair): 2
- University Committee on Undergraduate Research (UCUR) Students (as Mentor): 4
- Directed Research Undergraduate Students (as Advisor): 42

INVITED PRESENTATIONS

PFAS in landfill leachate: Research and practice. 27th Annual Joint Engineering Societies Conference, Lafayette LA, 2/23/23

Hydrological uniformitarianism. Mobile Rock and Gem Society meeting, Mobile AL, 6/12/18

Lead contamination in our water supply. Gulf Region Health Outreach Program Emerging Scholars Health Sciences Academy Workshop, Mobile AL, 3/24/17

Emerging environmental contaminants: New threats, new approaches, new practices. Gulf Region Health Outreach Program Emerging Scholars Health Sciences Academy Workshop, Mobile AL, 3/21/16

The University of South Alabama Center for Environmental Resiliency: Developing multidisciplinary, research-based environmental solutions. Bays & Bayous 2014: The Building Blocks of Coastal Resilience, Mobile AL, 12/2/14

Private-sector geoscience research and project opportunities, Federal Small Business Innovative Research (SBIR) and Small Business Technology Transfer (STTR) grant programs. Meeting of the Southwest Alabama Geological Society, Mobile AL, 1/15/08

International education and research collaboration in the U.S. 2nd International Conference on Advances in Electrical Engineering, Dhaka Bangladesh, 12/19/13

Geological resources, reserves, and valuations along the northern Gulf Coast. Understanding the Financial Advantages of Land Conservation, Advanced Seminar on Conservation Easements, Mobile AL, 8/22/13

Bridging the gap between sponsored programs and principal investigators. Society of Research Administrators, Alabama Chapter Annual Meeting, Daphne AL, 8/23/13

Research into storm-surge remobilization of subsurface contamination. Fuzhou University Zhicheng College, Fuzhou China, 3/11/13

Quantifying environmental impacts of the Deepwater Horizon oil spill. Nurses & Environmental Health: Health Consequences of the Gulf Oil Spill Conference, Mobile AL, 11/19/10

Occurrence of oil and gas in the Gulf of Mexico (Keynote Speaker). NOAA Lessons from the Deep: Exploring the Gulf of Mexico's Deep-Sea Ecosystems, 10/11/10

Oil and gas in the Gulf of Mexico - A primer. Gulf of Mexico Alliance Governors' Action Plan II (All Hands) Meeting, Biloxi MS, 8/3/10

Designing effective construction sediment and erosion plans. Weeks Bay Reserve Nonpoint Source Pollution and Stormwater Workshop, Fairhope AL, 7/19/06

The geology of erosion. Soils, Stormwater, and Watershed Protection: Tools for Managing Erosion Workshop, Mobile AL, 12/7/06

Welcome to the Ice Age - Geological evidence for climate change over time. 1st Southeastern Coastal and Atmospheric Processes Symposium, Mobile AL, 3/31/07

Geological constraints on stormwater runoff in the Mobile Bay area. NOAA Community Leader Stormwater Training Workshop for Coastal Alabama, Mobile AL, 12/15/05

Nitrate fate and transport in groundwater, Weeks Bay, Alabama. Weeks Bay Reserve Research Symposium: 20-year Designation Anniversary, Fairhope AL, 4/22/05

Groundwater monitoring at RCRA Subtitle D landfills. 1993 Solid Waste Association of North America Mississippi Chapter Symposium, Biloxi MS, 4/8/93

Groundwater contamination assessment. Mississippi Environment 1990, Jackson MS, 3/22/90
