To Whom It May Concern

Andre Rondon
Letter of Recommendation

I am the Chief Financial Officer of the PG&E Fire Victim Trust, a \$14.5 billion fund to compensation seventy thousand victims of twenty three separate fires. I also lead a team which reviews business income loss claims. The business income loss claims include claims made by cannabis cultivators, manufactures, distributors and retailers. I met Andy Rondon while processing his company's claim for his Skunk Worx Pharms business. I found Andy to be extremely experienced and knowledgeable in every aspect of the cannabis industry. Andy was involved in helping during the drafting of the cannabis laws which control the cannabis industry. After processing the Skunk Worx Pharms claims and based on my dealings with Andy, I asked Andy if he would be willing to assist me in reviewing other cannabis related claims and, fortunately, he agreed. We have reviewed at least two dozen cannabis claims together. I have found Andy's involvement and contributions to be invaluable to the fair, equitable and consistent awards to cannabis industry fire victims. Andy reviews every document in detail. He has a very good sense of when claimant's overreach and when claimants are reasonable and deserving of awards. Andy is very responsive to my requests, often times over weekends. It is my pleasure and privilege to recommend Andy. I would highly recommend Andy as a forensic expert.

Sincerely,

Timothy J. Jorstad, CPA
